## STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

### 1. ARRANGEMENT OF THE REGISTER

The Register is arranged in the following six sections:

- (a) **PREPROPOSAL**-includes the Preproposal Statement of Intent that will be used to solicit public comments on a general area of proposed rule making before the agency files a formal notice.
- (b) **PROPOSED**-includes the full text of formal proposals, continuances, supplemental notices, and withdrawals.
- (c) **PERMANENT**-includes the full text of permanently adopted rules.
- (d) **EMERGENCY**-includes the full text of emergency rules and rescissions.
- (e) **MISCELLANEOUS**-includes notice of public meetings of state agencies, rules coordinator notifications, summaries of attorney general opinions, executive orders and emergency declarations of the governor, rules of the state Supreme Court, and other miscellaneous documents filed with the code reviser's office under RCW 34.08.020 and 42.30.075.
- (f) **TABLE**-includes a cumulative table of the WAC sections that are affected in the current year.
- (g) **INDEX**-includes a combined subject matter and agency index.

Documents are arranged within each section of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence with a section's material.

### 2. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.05.395 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
  - (i) underlined material is new material;
  - (ii) deleted material is (~~lined out between double parentheses~~);
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

### 3. MISCELLANEOUS MATERIAL NOT FILED UNDER THE ADMINISTRATIVE PROCEDURE ACT

Material contained in the Register other than rule-making actions taken under the APA (chapter 34.05 RCW) does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

### 4. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules normally take effect thirty-one days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed or advanced and such an effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser's office unless a later date is provided by the agency. They remain effective for a maximum of one hundred twenty days from the date of filing.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

### 5. EDITORIAL CORRECTIONS

Material inserted by the code reviser's office for purposes of clarification or correction or to show the source or history of a document is enclosed in [brackets].

## **REGULATORY FAIRNESS ACT**

The Regulatory Fairness Act, chapter 19.85 RCW, was enacted in 1982 to minimize the impact of state regulations on small business. Amended in 1994, the act requires a small business economic impact analysis of proposed rules that impose more than a minor cost on twenty percent of the businesses in all industries, or ten percent of the businesses in any one industry. The Regulatory Fairness Act defines industry as businesses within a four digit SIC classification, and for the purpose of this act, small business is defined by RCW 19.85.020 as "any business entity, including a sole proprietorship, corporation, partnership, or other legal entity, that is owned and operated independently from all other businesses, that has the purpose of making a profit, and that has fifty or fewer employees."

### **Small Business Economic Impact Statements (SBEIS)**

A small business economic impact statement (SBEIS) must be prepared by state agencies when a proposed rule meets the above criteria. Chapter 19.85 RCW requires the Washington State Business Assistance Center (BAC) to develop guidelines for agencies to use in determining whether the impact of a rule is more than minor and to provide technical assistance to agencies in developing a SBEIS. All permanent rules adopted under the Administrative Procedure Act, chapter 34.05 RCW, must be reviewed to determine if the requirements of the Regulatory Fairness Act apply; if an SBEIS is required it must be completed before permanent rules are filed with the Office of the Code Reviser.

### **Mitigation**

In addition to completing the economic impact analysis for proposed rules, state agencies must take reasonable, legal, and feasible steps to reduce or mitigate the impact of rules on small businesses when there is a disproportionate impact on small versus large business. State agencies are encouraged to reduce the economic impact of rules on small businesses when possible and when such steps are in keeping with the stated intent of the statute(s) being implemented by proposed rules. Since 1994, small business economic impact statements must contain a list of the mitigation steps taken, or reasonable justification for not taking steps to reduce the impact of rules on small businesses.

### **When is an SBEIS Required?**

When:

The proposed rule has more than a minor (as defined by the BAC) economic impact on businesses in more than twenty percent of all industries or more than ten percent of any one industry.

### **When is an SBEIS Not Required?**

When:

The rule is proposed only to comply or conform with a federal law or regulation, and the state has no discretion in how the rule is implemented;

There is less than minor economic impact on business;

The rule REDUCES costs to business (although an SBEIS may be a useful tool for demonstrating this reduced impact);

The rule is adopted as an emergency rule; although an SBEIS may be required when an emergency rule is proposed for adoption as a permanent rule; or

The rule is pure restatement of state statute.

# RULE-MAKING PROCESS

**WSR 95-02-004****PREPROPOSAL STATEMENT OF INTENT  
DEPARTMENT OF HEALTH**

[Filed December 22, 1994, 2:33 p.m.]

Subject of Possible Rule Making: Waiver section of the on-site sewage system regulations, WAC 246-272-25001.

Specific Statutory Authority for New Rule: RCW 43.20.050.

Reasons Why the New Rule is Needed: Mitigates economic impact to home builder industry in Washington state.

Goals of New Rule: This revises the section within the on-site sewage system regulations, WAC 246-272-25001 which describes the process for submitting justification for designs that cannot meet specific requirements established by the state regulation. The waiver review process adopted on March 9, 1994, by the Washington State Board of Health originally required applicants to submit justification to the Washington State Department of Health for concurrence. This section also described a "multiple site waiver" process by which local boards of health could obtain approval from the Washington State Board of Health for specific practices other than those defined by chapter 246-272 WAC. In response to a petition from the home building industry to mitigate economic impact, the waiver section was modified by emergency rule-making procedures during a Washington State Board of Health hearing held December 14, 1994. The multiple site waiver process was deleted, and responsibility was assigned to local health officers for reviewing waiver submissions, and reporting quarterly to the Washington State Department of Health the outcome of all waiver decisions. This administrative procedure is intended to assure due process occurs in regard to these amendments before they become permanent through adoption.

Process for Developing New Rule: Responds to a petition from the home building industry to mitigate economic impact.

How Interested Parties can Participate in Formulation of the New Rule: Written comments regarding this issue can be sent to Karen VanDusen, Office Chief, Community Environmental Health Programs, Washington State Department of Health, P.O. Box 47826, Olympia, WA 98504-7826, FAX (206) 664-3071, until February 6, 1995. The comments will be collated and submitted to the Washington State Board of Health for consideration.

**WSR 95-02-015****PREPROPOSAL STATEMENT OF INTENT  
LIQUOR CONTROL BOARD**

[Filed December 27, 1994, 9:25 a.m.]

Specific Statutory Authority for New Rule: RCW 66.08.030.

Reasons Why the New Rule is Needed: The board believes limitations need to be in place as to the duration and number of public membership functions private clubs may conduct over the course of a year. Some clubs have

lengthy membership recruitment functions which are club sponsored parties open to the public. This is in conflict with the intent of the rule. The board intends to develop language which limits or more clearly explains how these events may be conducted.

Goals of New Rule: To more clearly specify what type of recruitment activities can occur and the frequency and duration of these activities. This will standardize the use of such functions to all such licensees.

Process for Developing New Rule: Meetings with industry, correspondence from industry association and licensees.

How Interested Parties can Participate in Formulation of the New Rule: Interested persons should submit material, thoughts, comments, in writing to Gary W. Gilbert, Chief of Enforcement, P.O. Box 43094, Olympia, WA 98504-3094, FAX (206) 664-0501, phone (206) 753-6270.

DEPARTMENT OF REVENUE**

[Filed January 3, 1995, 12:48 p.m.]

Subject of Possible Rule Making: Amending WAC 458-30-262 Agricultural land valuation—Interest rate—Property tax component.

Specific Statutory Authority for New Rule: RCW 84.34.065.

Reasons Why the New Rule is Needed: The rule must be updated annually to reflect the current interest rate and property tax component for county assessors to use in valuing agricultural land classified under chapter 84.34 RCW.

Goals of New Rule: To provide county assessors with the current interest rate and property tax component to be used in valuing agricultural land classified under chapter 84.34 RCW for assessment year 1995.

Process for Developing New Rule: Department of Revenue modified negotiated rule making.

How Interested Parties can Participate in Formulation of the New Rule: Written comments and/or copies of rule may be directed to: Kim Qally, Counsel, Legislation and Policy, P.O. Box 47467, Olympia, WA 98504-7467, phone (206) 664-0086, FAX (206) 664-0693.

For public meeting: General Administration Building, Director's Conference Room, Room 415, 11th and Columbia Streets, Olympia, Washington, on February 7, 1995, at 10:00 a.m.

Written comments should be submitted by the public meeting date to ensure full consideration, but will be accepted to date of adoption.

**Title of Rule:** WAC 388-49-250 Boarders.

**Purpose:** Amends the wording to include as boarders both foster care adults and foster care children.

**Statutory Authority for Adoption:** RCW 74.04.510.

**Statute Being Implemented:** RCW 74.04.510.

**Summary:** Allows foster care adults to be boarders. This gives the food stamp household the option to exclude a foster care adult from the food stamp household.

**Reasons Supporting Proposal:** Change in federal regulations includes foster care adults in the boarder definition.

**Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement:** Wendy Forslin, Division of Income Assistance, 438-8323.

**Name of Proponent:** Department of Social and Health Services, governmental.

**Explanation of Rule, its Purpose, and Anticipated Effects:** Same as above.

**Proposal Changes the Following Existing Rules:** See above.

**Has a Small Business Economic Impact Statement Been Prepared Under Chapter 19.85 RCW?** No. This revision impacts the food stamp program and does not affect small business. It allows the food stamp household to exclude a person in foster care (adult or a child) from the household. Excluding the person in foster care may increase the household's benefits.

(b) A person in foster ~~((child))~~ care.

(2) The department shall not grant separate household status to boarders.

(3) The department shall consider a person paying less than reasonable compensation to be a member of the household that provides meals and lodging.

(4) The department shall include any boarder in the food stamp household, at the household's request.

(5) Residents of a commercial boarding home are not eligible for food stamps.

**PROPOSED RULES**  
**PUGET SOUND AIR**  
**POLLUTION CONTROL AGENCY**

[Filed December 23, 1994, 10:22 a.m.]

**Original Notice.**

**Title of Rule:** Amend Regulation I - Section 3.07, 8.03; and repeal Regulation I - Section 9.04.

**Purpose:** To provide clarification.

**Other Identifying Information:** Section 3.07 Compliance Tests; Section 8.03 Outdoor Fires - Prohibited Areas; and Section 9.04 Deposition of Particulate Matter.

**Statutory Authority for Adoption:** Chapter 70.94 RCW.

**Statute Being Implemented:** RCW 70.94.141.

**Summary:** Changes to Section 3.07 are merely clerical. Changes to no-burn zone acknowledge adoption of the growth management areas. Repeal of Section 9.04 removes redundancy.

**Reasons Supporting Proposal:** Section 3.07 changes are clerical. Section 8.03 prohibits burning in both the carbon monoxide nonattainment area and in growth management areas. The boundaries of the growth management areas for King, Pierce, and Snohomish counties were recently adopted by county councils and are larger than the carbon monoxide nonattainment area, making that provision redundant. Section 9.04 is redundant with Section 9.11.

**Name of Agency Personnel Responsible for Drafting and Enforcement:** Jim Nolan, 110 Union Street, #500, Seattle, 98101, 689-4053; and Implementation: Dave Kircher, 110 Union Street, #500, Seattle, 98101, 689-4050.

**Name of Proponent:** Puget Sound Air Pollution Control Agency, governmental.

**Agency Comments or Recommendations, if any, as to Statutory Language, Implementation, Enforcement, and Fiscal Matters:** The state implementation plan will be updated to reflect these amendments.

**Rule is not necessitated by federal law, federal or state court decision.**

**Explanation of Rule, its Purpose, and Anticipated Effects:** Clerical changes to Section 3.07. Changing no-burn zone from carbon monoxide nonattainment area to growth management areas for King, Pierce, and Snohomish counties. Repeal of Section 9.04 removes redundancy.

**Proposal Changes the Following Existing Rules:** This proposal will clarify the intent of the board to use growth management areas as no-burn zones and will repeal redundancies.

**Has a Small Business Economic Impact Statement Been Prepared Under Chapter 19.85 RCW?** No. This agency is

PROPOSED

not subject to the small business economic impact provision of the Administrative Procedure Act.

**PROPOSED RULES**  
**WASHINGTON STATE**  
**EMPLOYEE COMBINED FUND DRIVE**

[Filed December 29, 1994, 1:52 p.m.]

**Original Notice.**

**Title of Rule:** Basic standards and criteria for charity membership applicable to those charities involved in assistance to threatened species or have a board of directors physically located outside of Washington state.

**Purpose:** To allow public and private charities that deliver services or assistance to threatened or endangered species, or have a board of directors physically located outside of the state of Washington into the combined fund drive (CFD).

**Statutory Authority for Adoption:** Executive Order 84-13 and WAC 240-10-010.

**Statute Being Implemented:** WAC 240-10-030 and 240-10-040.

**Summary:** The Combined Fund Drive Committee wishes to include charities that deliver services or assistance to threatened or endangered species, or that have a governing board of directors that is located outside of Washington state.

**Reasons Supporting Proposal:** State employees have requested that charities assisting these animals be included in the CFD. The charities and the CFD Committee feel that a board of directors located outside of this state will not prevent a charity from providing good service to Washington state citizens.

**Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement:** Randy Ryan, Olympia, Mailstop 47530, 586-9113.

**Name of Proponent:** Washington State Employee Combined Fund Drive, governmental.

Rule is not necessitated by federal law, federal or state court decision.

**Explanation of Rule, its Purpose, and Anticipated Effects:** This rule will allow public and private nonprofit charities, domestic and foreign, that provide services to human beings by assisting threatened or endangered species. The rule will also allow charities that do not have a board of directors located in Washington state to be accepted into the combined fund drive. The purpose of this rule is to expand the availability of entrance into the combined fund drive so that state employees may contribute to a broader range of charities. The anticipated effects are that state employees will have the opportunity to donate to charities that assist endangered species, and also donate to national charities that provide services to Washington state citizens but do not have a board of directors located in this state.

**Proposal Changes the Following Existing Rules:** The current section of WAC 240-10-030(6) does not allow charities into the combined fund drive that provide services to animals. This change will allow charities that assist threatened or endangered species into the combined fund drive. The current section of WAC 240-10-040 (1)(g) only

allows charities that have a board of directors located in Washington state into the combined fund drive. This change will allow charities with a board of directors located outside of Washington state into the combined fund drive.

**Has a Small Business Economic Impact Statement Been Prepared Under Chapter 19.85 RCW?** No. This rule change will not affect small businesses economically. It only affects charities wishing to receive donations from state employees.

**Hearing Location:** Burien CSO Conference Room A, 15811 Ambaum Boulevard S.W., Burien, WA 98116, on February 16, 1995, at 9:30 a.m.

**Assistance for Persons with Disabilities:** Contact Randy Ryan by February 10, 1995, TDD (206) 586-8260, or (206) 586-9114.

Summary: Clarifies use of retroactive lump sum awards of benefits and defines resource limits for Medicaid and non-Medicaid recipients.

Name of Agency Personnel Responsible for Drafting: Sherri Madison, Washington Veterans Home, Retsil, Washington, (206) 895-4485; Implementation and Enforcement: Beau Bergeron, 505 East Union, Olympia, WA 98507, (206) 753-4522.

#### PROPOSED RULES

#### INSURANCE COMMISSIONER'S OFFICE

[Filed January 4, 1995, 11:16 a.m.]

#### Original Notice.

Title of Rule: Environmental claims regulation.

Purpose: The purpose of this regulation is to provide minimum standards for the conduct of insureds and insurers for presenting and resolving environmental claims; and to facilitate the fair, principled, and equitable resolution of environmental claims without resorting to unnecessary, time-consuming, and expensive litigation.

Other Identifying Information: Insurance Commissioner Matter No. R 94-30.

Statutory Authority for Adoption: RCW 48.02.060, 48.30.010.

Statute Being Implemented: RCW 48.01.030, 48.05.280, 48.15.100, 48.15.170, and 48.30.010.

Summary: The regulation (1) establishes procedures for resolving lost policy disputes regarding environmental claims; (2) defines as unfair a number of claims settlement practices including, (a) failure to apply interest on specified sums, (b) failure to give 30 days notice when an insurer stops claims payments, (c) failure to commence an environmental claims investigation within fifteen days after notice, (d) requiring an insured to hold an insurer harmless in return for settlement of an environmental claim, (e) failure to pay (under its duty to defend) for investigation to determine the source, type, and extent of contamination, and preparation of a proposal for remediation of the damage, (f) without substantial evidence, denying a claim on the basis that the insured expected or intended environmental damage, and (g) denying without evidence that there is damage to a site on the national priorities list (CERCLA) or the hazardous sites list (MTCA); (3) establishes the framework for a nonbinding environmental claims mediation program; and (4) requires insurers to retain Washington general liability insurance policy records so that policies can be retrievable by policy number and by the name of the insured.

Reasons Supporting Proposal: There are many polluted sites in this state. More money is spent on litigation than on cleaning up the environment. These claims are particularly complicated by factual issues regarding events that occurred long ago on sites with several successive owners and lost insurance policies. Cooperation between insureds and insurers in fairly and efficiently resolving these disputes will reduce litigation and free up resources to clean up the environment. Insureds and insurers are encouraged to

participate in nonbinding mediation to resolve issues without litigation.

Name of Agency Personnel Responsible for Drafting: George Taylor and Melodie Bankers, Olympia, Washington, (206) 753-7300; Implementation and Enforcement: Deborah Senn, Olympia, Washington, (206) 753-7300.

Name of Proponent: Deborah Senn, Insurance Commissioner, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The purpose of this regulation is to provide minimum standards for the conduct of insureds and insurers for presenting and resolving environmental claims; and to facilitate the fair principled, and equitable resolution of environmental claims without resorting to unnecessary, time-consuming, and expensive litigation. The regulation: (1) Establishes procedures for resolving lost policy disputes regarding environmental claims; (2) defines as unfair a number of claims settlement practices including, (a) failure to pay interest on specified sums, (b) failure to give 30 days notice when an insurer stops claims payments, (c) failure to commence an environmental claims investigation within 15 days after notice, (d) requiring an insured to hold an insurer harmless in return for settlement of an environmental claim, (e) failure to pay (under its duty to defend) for investigation to determine the source, type, and extent of contamination, and preparation of a proposal for remediation of the damage, (f) denying a claim on the basis that the insured expected or intended environmental damage, and (g) denying without evidence that there is damage to a site on the national priorities list (CERCLA) or the hazardous sites list (MTCA); (3) establishes the framework for a nonbinding environmental claims mediation program; and (4) requires insurers to retain Washington general liability insurance policy records so that policies can be retrievable by policy number and by the name of the insured.

Proposal does not change existing rules. The proposal established new rules for handling environmental claims, establishes a framework for nonbinding mediation, and establishes a records retention program sufficient to reconstruct general liability policies by policy number and by named insured.

**ENVIRONMENTAL CLAIMS****NEW SECTION**

**WAC 284-30-900 Purpose.** (1) There are many insurance coverage disputes involving Washington insureds who face potential liability for their roles at polluted sites in this state. State and federal mandates exist for cleaning up the environment in order to address the adverse effects of hazardous substances on human health and safety and the environment in general. It is in the public interest to reduce the costs incurred in connection with environmental claims and to expedite the resolution of such claims. The state of Washington has a substantial public interest in the timely, efficient, and appropriate resolution of environmental claims involving the liability of insureds at polluted sites in this state. This interest is based on practices favoring good faith and fair dealing in insurance matters and on the state's broader health and safety interest in a clean environment.

(2) Insureds and insurers alike face claims complicated by factual issues that concern events that occurred in the distant past. Many sites with environmental damage involve long-term operations with multiple owners; therefore, lost policy issues in the environmental claims context provide uniquely challenging problems of both lost evidence and witnesses.

(3) Cooperation between insureds and insurers in fairly and expeditiously resolving legitimate disputes and in reducing or eliminating nonmeritorious claims is in the public interest. Facilitating cooperation in resolving legitimate lost policy disputes in environmental claims will reduce unnecessary litigation, thereby freeing more resources for environmental cleanup. Insureds and insurers are encouraged to participate in a mediation program in order to achieve a mutually acceptable, expeditious resolution of environmental claims without resort to costly and lengthy litigation.

(4) This regulation is adopted to provide minimum standards for the conduct of insureds and insurers for presenting and resolving environmental claims with the goal of facilitating the fair, principled, and efficient resolution of environmental claims without resort to unnecessary, time-consuming, and expensive litigation.

**NEW SECTION**

**WAC 284-30-905 Scope.** (1) This regulation applies to actions taken by an insurer on or after April 1, 1995, with regard to environmental claims concerning a general liability insurance policy issued to a Washington resident, or concerning sites located within this state. This regulation does not apply to environmental claims for which coverage is resolved by judgment, settlement, or payment before April 1, 1995.

(2) This regulation is not exclusive, and acts or omissions, whether or not specified in WAC 284-30-900 through 284-30-950, may also be violations of other sections of the insurance code or other regulations promulgated thereunder.

**NEW SECTION**

**WAC 284-30-910 Definitions.** As used in this regulation:

(1) "Environmental claim" means a claim for defense or indemnity submitted under a general liability insurance policy by an insured facing, or allegedly facing, potential liability for environmental injury or damage to others.

(2) "General liability insurance policy" means a contract of insurance that provides coverage for the legal obligations of an insured for injury or damage to others. It includes pollution insurance policies as well as personal and commercial contracts such as homeowners and comprehensive general liability insurance policies; it does not include insurance policies relating to motor vehicles.

(3) "Insured" means any person presenting an environmental claim.

(4) "Lost policy" includes policies which are alleged to be lost by an insured.

**NEW SECTION**

**WAC 284-30-920 Procedures for resolving lost policy disputes regarding environmental claims.** The commissioner has found and hereby defines it to be an unfair act or practice or an unfair method of competition for an insurer to fail to investigate thoroughly and promptly all claims of lost policies. It is also an unfair practice or an unfair method of competition for an insurer to fail to provide all facts known or discovered during an investigation concerning the issuance and terms of a policy, including copies of documents establishing such facts, to an insured claiming coverage under a lost policy. A single violation of this section is deemed to be an unfair act or practice or an unfair method of competition; however, an isolated, unintentional violation is not an unfair claims settlement or unfair trade practice. The following procedures are minimum standards for the facilitation of reconstructing a lost policy and determining its terms. These procedures do not create a presumption of coverage for the loss once the contract is reconstructed.

(1) Within fifteen working days after receipt by the insurer of notice of a lost policy, an insurer shall commence an investigation to determine whether it issued the lost policy. If the insurer determines that it issued the policy in question, it shall promptly commence an investigation into the terms and conditions relevant to the environmental claim.

(a) For purposes of this section, "notice of a lost policy" means written notice of the lost policy in sufficient detail to identify the person or entity seeking coverage together with all facts known to the insured concerning the lost policy.

(b) Insureds and insurers shall fully cooperate with each other in the investigation of lost policy issues.

(i) Each shall provide to the other facts known or discovered during an investigation, including the identity of any witnesses with knowledge of facts related to the issuance or existence of a lost policy.

(ii) Each shall provide the other with copies of documents establishing facts related to the lost policy.

(iii) Documentation presented shall be taken in context and considered as a whole. Items which may bear on the existence or nonexistence of a lost policy may include, but are not necessarily limited to, business and computer records

of the insured or insurer, sample policies, policy jackets, an insured's policies from prior and subsequent years from the same insurer, contemporaneous internal memoranda which include direct references to the policies at issue, retrospective premium reports which specifically refer to the policies at issue, depositions of employees or former employees of the insured or insurer with experience in the insurance matters of the insured, loss prevention surveys used to assess the risk involved in insuring the insured, general business practices of the insurer or an insured, an insurer's statistical data card showing the limits of the policy or summarizing the policy declarations page, contemporaneous letters discussing coverage, board of directors' minutes discussing coverage, or a survey produced by the broker or agent showing the company's insurance history covering the years in question.

(2) If the insurer develops information tending to show the existence of a policy applicable to the claim, or if the insurer is able to locate all or part of the policy, or if the insurer is able to determine the terms, conditions, and exclusions of the policy, upon request the insurer shall provide to an insured an accurate copy or reconstruction of the policy or the portions of the policy located.

(a) If after diligent investigation the insurer is not able to locate all or part of the policy or to determine the terms, conditions, and exclusions of the policy, the insurer shall provide copies of all insurance policy forms potentially applicable to the environmental claim issued by the insurer during the applicable policy period. The insurer shall state which of the potentially applicable forms is most likely to have been issued and why.

(b) If it is concluded that a general liability insurance policy was issued to the insured by the insurer, and both the insured and insurer are unable to show the policy limits applicable to the policy, it shall be assumed that the minimum limits of coverage offered by the insurer during the period in question were purchased by the insured.

(c) An insurer shall be required to prove any exclusion on which it intends to rely.

#### NEW SECTION

**WAC 284-30-930 Specific unfair environmental claims settlement or trade practices defined.** The following are hereby defined as unfair methods of competition or unfair or deceptive acts or practices in the business of insurance specifically applicable to the settlement of environmental claims. A single, unintentional violation is not an unfair claims settlement or unfair trade practice.

(1) Failure to pay interest at the statutory rate as set by the state treasurer from time to time, pursuant to RCW 19.52.025:

(a) On payments that an insured has made and for which the insurer is legally obligated to pay: *Provided however*, That interest shall begin to accrue only when a claim is presented or payment is made by the insured, whichever is the later; or

(b) On overdue payments that an insurer agreed to make pursuant to an agreed settlement: *Provided however*, That interest shall begin to accrue on the thirty-first day after the date of the settlement or the agreed time, if later.

(2) Except where the limits of the policy have been exhausted, discontinuing payments for a covered environ-

mental claim prior to achieving the level of remedial action for the site as defined by the state department of ecology or federal Environmental Protection Agency, unless thirty days prior written notice is given to the insured stating the reason therefor in clear and simple language.

(3) Failure of an insurer to commence investigation of an environmental claim within fifteen working days after receipt of either a notice of a claim or a notice of a threatened or actual legal action.

(a) Insureds and insurers shall fully cooperate with each other in the investigation of environmental claims.

(i) Each shall provide to the other facts known or discovered during an investigation, including the identity of any witnesses with knowledge of facts related to an environmental claim.

(ii) Each shall provide the other with copies of documents establishing facts related to an environmental claim.

(b) An excess insurer may rely on the investigation of a primary insurer.

(4) Requiring an insured to indemnify or hold an insurer harmless in return for settlement of a claim for damages in an environmental claim.

(5) Failure to make payments, under its duty to defend, reasonably incurred in an investigation to determine the source of contamination, the type of contamination in ground water and soils, the extent of the contaminant plumes, and to prepare a proposal for remediation of the damage expending the least amount of resources.

(6) Denying a claim on the basis that the insured expected or intended the damage unless an insurer has substantial evidence that an insured expected or intended to cause environmental damage, after an insured has provided substantial evidence that it did not expect or intend to do so.

(7) Denying that there is environmental damage to a site that is listed on the National Priorities List under the Comprehensive Environmental Response Compensation and Liabilities Act of 1980, 42 U.S.C. Sections 6901-6992k, or the hazardous sites list under the Model Toxics Control Act of Washington, chapter 70.105D RCW, unless an insurer has substantial evidence that no actual damage occurred.

#### NEW SECTION

**WAC 284-30-940 Environmental claim mediation program.** The commissioner has found and hereby defines it to be an unfair act or practice or an unfair method of competition for an insurer to fail to participate in good faith in nonbinding mediation requested by an insured concerning the existence, terms, or conditions of a lost policy or regarding coverage for an environmental claim.

(1) The insured may request in writing that the insurer participate in nonbinding mediation.

(2) Upon request from an insured for nonbinding mediation, an insurer shall provide an insured with information concerning an environmental claim mediation program. The information shall include, but need not be limited to, a description of how an insured can efficiently commence a mediation program.

(3) The purposes of mediation shall include, but need not be limited to, the following:

(a) To determine whether or not a general liability insurance policy applicable to the environmental claim was

issued to the insured or to determine the relevant terms and conditions of the policy;

(b) To determine whether the entire claim, or a portion thereof, can be settled by agreement of the parties;

(c) If the claim cannot be settled, to determine whether one or more issues can be resolved to the satisfaction of the parties; or

(d) To discuss any other methods of streamlining or reducing the cost of litigation.

(4) Mediation shall be conducted pursuant to mediation rules similar to those of the American Arbitration Association, the Center for Public Resources, the Judicial Arbitration and Mediation Service, RCW 7.70.100, or any other rules of mediation agreed to by the parties.

(5) Unless otherwise agreed, information provided by either party in a mediation shall be kept confidential by the parties and used only for purposes of the mediation.

(6) A mediator shall have the authority to assess none, some, or all of the costs for the mediator, facility, and service fees of mediation against any party to the mediation.

#### NEW SECTION

##### **WAC 284-30-950 Retention of policy forms.**

Beginning April 1, 1995, every insurer shall adopt a record retention procedure and shall maintain records sufficient to reconstruct a copy of every general liability insurance policy issued to any named insured whose address is within the state of Washington, including records of such policies in the possession of the insurer on the effective date of this regulation.

(1) Records may be kept in any reasonable and customary format, including any photographic or electronic format.

(2) Records of such commercial lines policies shall be kept for at least forty years. Records of such personal lines policies shall be kept for at least seven years.

(3) The insurer shall maintain the capacity to retrieve records sufficient to reconstruct any policy by name of the named insured(s) and by policy number.

(4) Records of these policies issued by unauthorized insurers shall be kept by the surplus line broker of record on the policy, or the broker's successor.

AMENDATORY SECTION (Amending Order 3732, filed 5/3/94, effective 6/3/94)

**WAC 388-512-1225 Permanently and totally disabled.** (1) In general, "**permanently and totally disabled**" means that a person has some permanent physical or mental impairment, disease or loss that substantially precludes a person from engaging in a useful occupation within a person's competence, such as holding a substantially gainful job or homemaking. The impairment may be physical or mental, organic or functional, and of such degree as to interfere with the person's faculties, such as senses, reasoning, or mobility. It may exist from birth, be acquired during the lifetime of the person, or result from an accident. It may be obvious, such as the loss of a limb, or it may be such that it can be revealed only by medical examination. It may exist singly or in combination.

(2) The term "**permanently disabled**" refers to the existence of a physiological, anatomical, emotional and/or mental impairment verified by medical findings, which is of major importance, and is a condition not likely to improve, but will continue throughout the lifetime of the person. Any condition which is considered by the medical reviewer as not likely to respond to any known therapeutic procedure shall be deemed to be a permanent impairment. Any condition which is considered as likely to remain static or to become worse unless certain therapeutic measures are carried out shall be deemed to be permanent so long as treatment is unavailable, inadvisable, or the person refuses treatment and his decision is reasonable. See WAC 388-512-1230.

(a) A decision that an impairment is permanent can be made even though recovery from the impairment is possible. The discovery of new drugs or other advances in medical treatment is always a potential which may change a permanent situation; pending the actual physical improvement, the classification is proper. Therefore, the term "permanent" need not be everlasting or unchangeable, but is used in the sense of continuing indefinitely as distinct from temporary or transient.

(b) A physician's medical report must be used to establish the existence of an impairment and its permanency.

(3) The term "**totally disabled**" refers to a person's ability to perform those activities necessary to carry out specified responsibilities such as those necessary to employment or homemaking. Totality involves considerations in addition to those verified through the medical findings such as age, training, skills, and work experience, and the person's functioning in a person's particular situation ~~((involving))~~ in light of the impairment. Such social data will describe the person's education and work history, the activities required of the person at home or at work, living conditions, interests, capacity and limitations, and the extent to which the person has adjusted to the impairment.

(a) Job training may enable a permanently and totally disabled person to acquire a new skill in spite of the impairment. The person continues to be totally disabled during a reasonable period of training and until job competence is acquired.

(b) The social summary must show how the person reacts in social situations in order to illustrate that the disability substantially precludes the person from engaging in employment or homemaking in the foreseeable future.

The social worker carries the major responsibility for providing the state office review team with the recorded objective social information bearing on the totality factor.

(4) The term "**substantially precludes**" relates to the extent to which a person's permanent impairment has left a person unable to engage in those activities necessary to carry on specified responsibilities such as employment and homemaking. If a person is able to perform such activities well enough and with sufficient regularity to receive substantial payment for such effort or to carry on homemaking responsibilities on a continuing basis, the person is not considered as precluded from engaging in "useful occupations" and cannot be found to be permanently and totally disabled.

(5) The term "**useful occupations**" means productive activities which add to the economic wealth, or produce goods or services to which the public attaches a monetary value. The person whose impairment is so severe that it results in being unable to leave bed, leave home, or maintain body hygiene without the help of another person, and for whom the assumption would commonly be made that the person could not engage in any useful occupation, but in fact, through supreme effort the person does some work shall have ability to work evaluated in light of:

(a) The extent to which sympathy or compassion enters into the opportunity to engage in remunerative work. In other words, is the person able to do something because family, friends, or neighbors help more than is usual; for example, running errands, bringing materials, "engineering" the job, helping devise and create special tools, creating a market based more on sympathy than intrinsic value received, selling through church or other organization without charging the usual commission, etc.; and

(b) The extent to which the energy which must be discharged by the person is far beyond that which is ordinarily required for that activity. For example, does it take six or seven hours to do what most workers could do in an hour.

(c) If through careful consideration of such facts, in addition to the medical and social reports, it can be reasonably concluded that this person is doing more than can ordinarily be expected from persons with the impairments of similar severity, but activity is not substantially gainful, a finding of permanent and total disability may be reached.

(6) The term "**homemaking**" involves the ability to carry the home management and decision-making responsibilities and provide essential services within the home for at least one person in addition to oneself. This may be either a man or a woman. If homemaking is such that children are neglected or the other person receives practically no benefit from the homemaking efforts, these facts should be clearly shown in the social summary. If the homemaker must have the help of other persons to complete the essential household tasks, it may be shown that the person is not actually able to perform as a homemaker. The following activities are important to successful performance of the occupation of homemaking: Shopping for food and supplies; planning and preparing meals; washing dishes; cleaning house; making beds; washing and ironing clothes and, if the care of young children is within the homemaking responsibility, lifting and carrying infants; bathing and dressing young children; training and supervising children; accompanying children to

community activities and to sources of medical care. A finding that a person is unable to perform the occupation of homemaking would require that the person is unable to perform a significant combination or grouping of these activities because of permanent impairment. When homemaking is the responsibility of the applicant, determination shall be made as to whether a permanent impairment prevents the client from totally meeting such responsibility.

(7) Special emotional problems.

(a) Alcoholism. For alcoholism to be considered permanently and totally disabling, at least one of the following criteria are required for approval of permanent and total disability((-):

(i) Evidence that a pathological or demonstrable organic damage has resulted from chronic alcoholism, such as neuritis or cirrhosis of the liver; or

(ii) Evidence that the alcoholism has reached the addiction state as shown by marked ethical deterioration, the obsessive character of the drinking, the approaching loss of alcohol tolerance, prolonged bouts, and a breakdown of the rationalization pattern; or

(iii) A history of several years of excessive drinking to the extent that it has adversely affected interpersonal relationships and social and economic functioning—loss of employment and inability to sustain employment because of excessive drinking.

(b) Personality inadequacy. Even though the medical report does not show a physical ailment which of itself is permanently disabling, a person may be found to be permanently and totally disabled if the medical or psychiatric report together with the social report supplemented with a psychological report, if indicated, shows an extended history of a combination of personality problems, character disorders or social inadequacies including unusual behavior, which prevents the person from making the adjustment required for an employable person or homemaker.

(i) This would include the person whose responses to the environment are habitually inadequate and who seems to have limited or no voluntary control over reactions. The symptoms of this emotionally unstable personality usually are demonstrated in antisocial or unconventional behavior; for example, drug addiction or alcoholism. The person does not get along with other people and may break many of society's rules. Most of these persons have had one difficulty after another since childhood with the typical lack of awareness and lack of remorse that is associated with this kind of behavior. The repetitive nature of their problems coupled with lack of motivation for change produces a person whose pattern provides a serious permanent impairment that can be totally disabling. Examples of this kind of personality might be:

(A) A patient returning from a mental hospital who is no longer psychotic but whose behavior would be unacceptable to a prospective employer or to family;

(B) The person who has never been able to hold a job due to a pattern of emotional instability, or other unusual behavior which shows that the person is unable, for an extended period, to substantially engage in any gainful occupation or homemaking;

(C) Drug addiction over an extended period of time.

(ii) In all cases of personality inadequacy, the reports specified in (b) of this subsection are required.

(ii) Been found guilty of fraudulent or dishonest practices;

(iii) Demonstrated his or her incompetency, lack of cooperation, or untrustworthiness to act as a qualified actuary;

(iv) Submitted to the commissioner during the past five years, an actuarial opinion or memorandum that the commissioner rejected because it did not meet the provisions of this regulation or standards set by the Actuarial Standards Board; or

(v) Resigned or been removed as an actuary within the past five years as a result of acts or omissions indicated in any adverse report on examination or as a result of failure to adhere to generally acceptable actuarial standards; and

(e) Has not failed to notify the commissioner of any action taken by any commissioner of any other state similar to that under (d) of this subsection.

(f) The commissioner may accept equivalent qualifications in place of those in (a) and (b) of this subsection if the individual has otherwise demonstrated his or her actuarial competence to the satisfaction of the commissioner, and meets the qualifications in (c), (d), and (e) of this subsection.

(3) "Appointed actuary" means a qualified actuary who is appointed or retained to prepare the statement of actuarial opinion required by this regulation; either directly by, or by the authority of, the board of directors through an executive officer of the company. The company shall give the commissioner timely written notice of the name, title (and, in the case of a consulting actuary, the name of the firm), and manner of appointment or retention of each person appointed or retained by the company as an appointed

actuary and shall state in such notice that the person meets the requirements set forth in subsection (2) of this section. Once notice is furnished, no further notice is required with respect to this person, provided that the company shall give the commissioner timely written notice in the event the actuary ceases to be appointed or retained as an appointed actuary or to meet the requirements set forth in subsection (2) of this section. If any person appointed or retained as an appointed actuary replaces a previously appointed actuary, the notice shall so state and give the reasons for replacement.

(4) Standards for asset adequacy analysis: Except to the extent the commissioner approves equivalents in advance, the asset adequacy analysis required by this regulation:

(a) Shall conform to the standards of practice as promulgated from time to time by the Actuarial Standards Board and to any additional standards under this regulation, which standards are to form the basis of the statement of actuarial opinion in accordance with WAC 284-07-380; and

(5) Liabilities to be covered.

(a) Under authority of RCW 48.74.025, the statement of actuarial opinion shall apply to all in force business on the statement date regardless of when or where issued, e.g., reserves of Exhibits 8, 9, and 10, and claim liabilities in Exhibit 11, Part 1 and equivalent items in the separate account statement or statements.

(b) If the appointed actuary determines as the result of asset adequacy analysis that a reserve should be held in addition to the aggregate reserve held by the company and calculated in accordance with methods set forth in RCW 48.74.040, 48.74.070, 48.74.080, and 48.74.090, the company shall establish such additional reserve.

(c) For years ending prior to December 31, 1995, the company may, in lieu of establishing the full amount of the additional reserve in the annual statement for that year, set up an additional reserve in an amount not less than two times the additional reserve divided by three.

(d) Additional reserves established under (b) or (c) of this subsection and deemed not necessary in subsequent years may be released. Any amounts released must be disclosed in the actuarial opinion for the applicable year. The release of such reserves would not be deemed an adoption of a lower standard of valuation.

**WAC 284-07-390 Description of actuarial memorandum including an asset adequacy analysis.** (1)(a) In accordance with RCW 48.74.025, the appointed actuary shall prepare a memorandum to the company describing the analysis done in support of his or her opinion regarding the reserves under a WAC 284-07-380 opinion. The memorandum shall be made available for examination by the commissioner upon his or her request but shall be returned to the company after such examination and shall not be considered a record of the commissioner or subject to automatic filing with the commissioner.

(b) In preparing the memorandum, the appointed actuary may rely on, and include as a part of his or her own memorandum, memoranda prepared and signed by other actuaries who are qualified within the meaning of WAC 284-07-350(2), with respect to the areas covered in such memoranda, and shall so state in their memoranda.

(c) If the commissioner requests a memorandum and an adequate memorandum is not provided within ten days of the request, or, if the commissioner finds that the analysis described in the memorandum fails to meet the standards of the Actuarial Standards Board or the standards and requirements of this regulation, the commissioner may designate a qualified actuary to review the opinion and prepare the supporting memorandum required for review. All reasonable and necessary expenses of the independent review shall be paid by the company but all expenses connected therewith shall be directed and controlled by the commissioner.

(d)(i) The reviewing actuary shall have the same status as an examiner for purposes of obtaining data from the company and the work papers and documentation of the reviewing actuary shall be retained by the commissioner: *Provided, however,* That any information provided by the company to the reviewing actuary and included in the work papers shall be considered material provided by the company to the commissioner and shall be kept confidential to the same extent as prescribed by law with respect to other material provided by the company to the commissioner pursuant to the statute governing this regulation.

PERMANENT

(ii) The reviewing actuary shall not be an employee of a consulting firm involved with the preparation of any prior memorandum or opinion for the insurer pursuant to this regulation for the current year or any one of the preceding three years.

(2) When an actuarial opinion under WAC 284-07-380 is provided, the memorandum shall demonstrate that the analysis has been completed in accordance with the standards for asset adequacy referred to in WAC 284-07-350(4) and any additional standards required by the commissioner. The memorandum shall specify:

(a) For reserves:

(i) Product descriptions including market description, underwriting and other aspects of a risk profile, and the specific risks the appointed actuary deems significant;

(ii) Sources of liabilities in force;

(iii) Reserve methods and bases;

(iv) Investment reserves;

(v) Reinsurance arrangements.

(b) For assets:

(i) Portfolio descriptions, including a risk profile disclosing the quality, distribution, and types of assets;

(ii) Investment and disinvestment assumptions;

(iii) Sources of asset data;

(iv) Asset valuation bases.

(c) Analysis basis:

(i) Methodology;

(ii) Rationale for inclusion or exclusion of different blocks of business and how pertinent risks were analyzed;

(iii) Rationale for degree of rigor in analyzing different blocks of business;

(iv) Criteria for determining asset adequacy;

(v) Effect of federal income taxes, reinsurance, and other relevant factors.

(d) Assumptions:

(i) Lapse rates, including a comparison of assumed lapse rates with actual lapse rates, if lapse experience studies have been performed;

(ii) Interest crediting rate strategy;

(iii) Mortality rates, either specified directly or stated with reference to nonproprietary, published tables;

(iv) Dividend strategy;

(v) Competitor or market interest rate;

(vi) Annuitization rates;

(vii) Commissions and expenses, including a comparison of assumptions with recent actual commissions and expenses;

(viii) Asset default costs;

(ix) Bond call function;

(x) Mortgage prepayment function;

(xi) Determination of market value for assets sold due to disinvestment strategy;

(xii) Anticipated yield on assets acquired through the investment strategy.

(e) Impact of changes in assumptions used in asset adequacy analysis, based on sensitivity tests performed.

(f) Results:

(i) Schedules under each required scenario showing the cash flows by each of the major items of income, benefits, and expenses, statutory gains or losses, and statutory balance sheet, as modeled, for each year in the projection period: *Provided however*, That for 1994, abbreviated schedules,

appropriate in the judgment of the appointed actuary, are acceptable.

(ii) Summary of results.

(g) Conclusion(s).

(3) The memorandum shall include a statement substantially similar to the following:

"Actuarial methods, considerations, and analyses used in the preparation of this memorandum conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis for this memorandum."

#### NEW SECTION

**WAC 284-07-400 Additional considerations for analysis.** (1) Aggregation: For the asset adequacy analysis for the statement of actuarial opinion provided in accordance with WAC 284-07-380, reserves and assets may be aggregated by either of the following methods:

(a) Aggregate the reserves and related actuarial items, and the supporting assets, for different products or lines of business, before analyzing the adequacy of the combined assets to mature the combined liabilities. The appointed actuary must be satisfied that the assets held in support of the reserves and related actuarial items so aggregated are managed in such a manner that the cash flows from the aggregated assets are available to help mature the liabilities from the blocks of business that have been aggregated.

(b) Aggregate the results of asset adequacy analysis of one or more products or lines of business, the reserves for which prove through analysis to be redundant, with the results of one or more products or lines of business, the reserves for which prove through analysis to be deficient. The appointed actuary must be satisfied that the asset adequacy results for the various products or lines of business for which the results are so aggregated:

(i) Are developed using consistent economic scenarios; or

(ii) Are subject to mutually independent risks, i.e., the likelihood of events impacting the adequacy of the assets supporting the redundant reserves is completely unrelated to the likelihood of events impacting the adequacy of the assets supporting the deficient reserves.

(c) In the event of any aggregation, the actuary must disclose that in his or her opinion such reserves were aggregated on the basis of method (a), (b)(i), or (b)(ii) of this subsection, whichever is applicable, and describe the aggregation in the supporting memorandum.

(2) Selection of assets for analysis: The appointed actuary shall analyze only those assets held in support of the reserves which are the subject for specific analysis, hereafter called "specified reserves." A particular asset or portion thereof supporting a group of specified reserves cannot support any other group of specified reserves. An asset may be allocated over several groups of specified reserves. The annual statement value of the assets held in support of the reserves shall not exceed the annual statement value of the specified reserves, except as provided in subsection (3) of this section. If the method of asset allocation is not consistent from year to year, the extent of its inconsistency should be described in the supporting memorandum.

(3) Use of assets supporting the interest maintenance reserve and the asset valuation reserve:

(i) An appropriate allocation of assets in the amount of the interest maintenance reserve (IMR), whether positive or negative, must be used in any asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the asset valuation reserve (AVR); these AVR assets may not be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support.

(ii) The amount of the assets used for the AVR shall be disclosed in the Table of Reserves and Liabilities of the opinion and in the memorandum.

(iii) The method used for selecting particular assets or allocated portions of assets shall be disclosed in the memorandum.

(4) Required interest scenarios:

(a) For the purpose of performing the asset adequacy analysis required by this regulation, the qualified actuary shall follow standards adopted by the Actuarial Standards Board or equivalent standards approved in advance by the commissioner. In the analysis, the appointed actuary shall consider the effect of at least the following interest rate scenarios:

(i) Level with no deviation;

(ii) Uniformly increasing over ten years at a half percent per year and then level;

(iii) Uniformly increasing at one percent per year over five years and then uniformly decreasing at one percent per year to the original level at the end of ten years and then level;

(iv) An immediate increase of three percent and then level;

(v) Uniformly decreasing over ten years at a half percent per year and then level;

(vi) Uniformly decreasing at one percent per year over five years and then uniformly increasing at one percent per year to the original level at the end of ten years and then level; and

(vii) An immediate decrease of three percent and then level.

(b) For all scenarios used, projected interest rates for a five-year treasury note need not be reduced beyond the point where the five-year treasury note yield would be at fifty percent of its initial level.

(c) The beginning interest rates may be based on interest rates for new investments as of the valuation date similar to recent investments allocated to support the product being tested or be based on an outside index, such as treasury yields, of assets of the appropriate length on a date close to the valuation date.

(d) The method used to determine the beginning yield curve and associated interest rates shall be specifically defined. The beginning yield curve and associated interest rates shall be consistent for all interest rate scenarios.

(5) Documentation: The appointed actuary shall retain on file, for at least seven years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions, and the results obtained.

Purpose: The rules extend a moratorium on new appropriations from the unappropriated waters of the main stem Columbia and Snake rivers.

Citation of Existing Rules Affected by this Order: Amending chapters 173-563 and 173-564 WAC.

Statutory Authority for Adoption: Chapter 173-500 WAC and chapters 34.05, 43.21A, 43.27A, 90.03, 90.44, and 90.54 RCW.

Pursuant to notice filed as WSR 94-15-073 on July 19, 1994.

Changes Other than Editing from Proposed to Adopted Version: Two phrases have been reworded for clarity, one to indicate that "meeting water quality standards" meant "with no degradation in water quality" and the second to indicate that groundwater that is "part of" the rivers meant being "in direct hydraulic continuity" with them. An expiration date (July 1, 1999) has been added, with a statement that the rule will expire on that date or upon completion of an instream flow protection program for the respective rivers (whichever occurs first). Also, a statement has been added stating that the Department of Ecology is the agency which will prepare the instream resources protection programs for the affected rivers, and citing the authority under which it will do so.

Effective Date of Rule: Thirty-one days after filing.

**AMENDATORY SECTION** (Amending Order 92-20, filed 12/3/92, effective 1/3/93)

**WAC 173-563-015 Withdrawal of unappropriated waters.** (1) The National Marine Fisheries Service (NMFS) listed Snake River sockeye salmon as endangered under the federal Endangered Species Act on December 20, 1991. NMFS listed Snake River spring/summer and fall chinook salmon as threatened under the act on May 17, 1992. Since then, new information and changing conditions continue to place into question whether sufficient information and data is available for making sound decisions on water availability and the public interest for additional appropriations from the main stem of the Columbia River. ((These changing conditions include the listing on December 20, 1991, of Snake River sockeye salmon as endangered and the May 17, 1992, listing of Snake River spring/summer and fall chinook salmon as threatened under the Federal Endangered Species Act and related federal, regional, and state activities to assure the protection of Columbia basin salmon runs.)) In response to the petitions for listing, the Northwest governors directed the regional Northwest Power Planning Council to develop a plan for the recovery of the petitioned species and other weak fish stocks in the Columbia Basin. In late 1992 the council finalized its strategy for salmon, which cautioned the states against continuing to allow new appropriations at the same time that there is a regional effort to acquire additional flows for imperiled fish stocks. This regional effort has greatly intensified as a result of additional petitions for Endangered Species Act listings in the basin, consecutive dry years and a 1994 federal court decision that the hydroelectric system operations plan approved by NMFS and the federal operating agencies was not adequate.

(2) Pursuant to subsection (1) of this section, the waters of the main stem of the Columbia River that are unappropriated by water rights for which applications were accepted for filing by the department prior to December 20, 1991, are

withdrawn from further appropriation, except that the department may issue a permit to withdraw water for:

(a) Applications filed by the United States for uses of water withdrawn for the Columbia Basin project with a priority date of 1938 under chapter 90.40 RCW;

(b) Nonrecurring temporary projects for up to ~~((four))~~ six months duration, with a possible extension of no more than ~~((four))~~ six additional months (applications for extensions must include adequate justification for the extension and must demonstrate that reasonable efforts are being made to use the water for the project as efficiently as possible); ~~((and))~~

(c) Nonconsumptive uses which, for the purposes of this section, are defined as uses where:

(i) There is no diversion from the water source; or

(ii) The water is diverted and returned immediately to the source at the point of diversion following its use, in the same quantity as diverted and ~~((meeting water quality standards for the source))~~ with no degradation in water quality;

(d) Uses which are necessary for emergency public health and safety needs, when all other reasonable methods of obtaining water (e.g., conservation, efficiencies, etc.) have been exhausted; and

(e) Uses which are specifically intended to benefit weak fish stocks.

(3) All water right applications which the department accepted for filing prior to December 20, 1991, for diversion or pumping of surface water from the main stem of the Columbia River, or for withdrawal of ground water which is part of ~~((or tributary to))~~ the main stem of the Columbia River, shall be processed in accordance with existing policies and procedures and are not subject to this withdrawal of waters.

(4) With the exceptions specified in subsection (2) of this section, all water right applications which the department accepted or accepts for filing on or after December 20, 1991, ~~((for))~~ which would result in the diversion or pumping of surface water from the main stem of the Columbia River, ((or for withdrawal of ground water which is part of or tributary to the main stem of the Columbia River where such withdrawal requires a permit under RCW 90.44.050)) regardless of the point of diversion specified in the water right application, are subject to this withdrawal of waters ~~((and))~~. These applications will be acted upon, without loss of priority date, after the expiration of the withdrawal of waters.

(5) ~~((The department shall inform applicants of the status of their applications under this section.))~~ With the exceptions specified in subsection (2) of this section, all water right applications which the department accepted or accepts for filing on or after December 20, 1991, which require a permit under RCW 90.44.050 and would result in the withdrawal of ground water which is in direct hydraulic continuity with the main stem of the Columbia River are subject to this withdrawal of waters. All applications will be evaluated on a case-by-case basis. Applications determined to be subject to the withdrawal will be acted upon, without loss of priority date, after the expiration of the withdrawal of waters.

(6) This section will expire on ~~((June 30, 1994))~~ July 1, 1999, or upon ~~((further amendment of the chapter, whichever~~

~~occurs first))~~ adoption by the department of ecology of a new instream resources protection program for the main stem Columbia River, whichever shall occur first. The instream resources protection program shall be established in accordance with chapter 173-500 WAC (Water resources management program).

Other Findings Required by Other Provisions of Law as Precondition to Adoption or Effectiveness of Rule: An effective date of January 4, 1995, which is earlier than the thirty-one days after filing is necessary because the time requirements would be contrary to the public interest. The changes to enabling legislation (RCW 77.32.55 [77.32.155]) take place January 4, 1995; this amended regulation should be effective January 4, 1995, to avoid public confusion.

Effective Date of Rule: January 4, 1995.

**NEW SECTION**

**WAC 220-44-05000M Coastal bottomfish catch limits.** Notwithstanding the provisions of WAC 220-44-050, effective 12:01 am January 1, 1995, until further notice it is unlawful to possess, transport through the waters of the state or land in any Washington State port bottomfish taken from Marine Fish-Shellfish Management and Catch Reporting Areas 29, 58B, 59A, 59B, 60A, 61, 62, or 63 in excess of the amounts or less than the minimum sizes shown below for the following species:

(1) The following definitions apply to this section:

(a) **Cumulative limit** - A cumulative limit is the maximum amount of fish that may be taken and retained, possessed or landed per vessel per calendar month, without a limit on the number of landings or trips. The cumulative limit includes all fish harvested by a vessel during the month, whether taken in limited entry or open access fisheries. Once a cumulative limit has been achieved, an operator may begin fishing on the next cumulative limit so long as the fish are not landed until after the beginning of the next cumulative limit.

(b) **Daily trip limit** - The maximum amount of fish that may be taken and retained, possessed or landed per vessel from a single fishing trip in 24 consecutive hours, starting at 0001 hours.

(c) **Groundfish limited entry fishery** - Fishing activity by a trawl, setline or bottomfish pot equipped vessel that has received a federal limited entry permit issued by the National Marine Fisheries Service endorsed for the qualifying gear type.

(d) **Groundfish open access fishery** - Fishing activity by a vessel equipped with setline or bottomfish pot gear that has

not received a federal limited entry permit, or a vessel using gear other than trawl, setline or bottomfish pot gear.

(e) **Vessel trip** - A vessel trip is defined as having occurred upon the initiation of transfer of catch from a fishing vessel.

(f) **Vessel trip limit** - The amount of fish that may not be exceeded per vessel trip. All fish aboard a fishing vessel upon the initiation of transfer of catch are to be counted towards the vessel trip limit.

(2) **GROUNDFISH LIMITED ENTRY FISHERY LIMITS.** The following limits apply to the groundfish limited entry fishery in Coastal Marine Fish-Shellfish Management and Catch Reporting Areas 58B, 59A, 59B, 60A, 61, 62, and 63, and apply to all groundfish taken in Puget Sound Marine Fish-Shellfish Management and Catch Reporting Area 29:

(a) **Pacific ocean perch** - Cumulative limit of 6,000 pounds. No minimum size.

(b) **Widow rockfish** - Cumulative limit of 30,000 pounds. No minimum size.

(c) **Shortbelly rockfish** - No maximum poundage. No minimum size.

(d) **Black rockfish** - The vessel trip limit for black rockfish for commercial fishing vessels using hook-and-line gear between the U.S. Canada border and Cape Alava (48°09'30" N. latitude) and between Destruction Island (47°40'00" N. latitude) and Leadbetter Point (46°38'10" N. latitude), is 100 pounds (round weight) or 30 percent by weight of all fish on board including salmon, whichever is greater, per vessel trip.

(e) **Sebastes complex** - All species of rockfish except Pacific ocean perch, widow, shortbelly, and thornyhead (*Sebastes* spp.):

(i) North of Cape Lookout and south of Cape Lookout if no declaration has been made - Cumulative limit of 35,000 pounds, of which no more than 14,000 pounds may be yellowtail rockfish and no more than 6,000 pounds may be canary rockfish. No minimum size on any species in this category.

(ii) South of Cape Lookout - Cumulative limit of 50,000 pounds, of which no more than 30,000 pounds may be yellowtail rockfish and no more than 6,000 pounds may be canary rockfish, provided the licensee has made a declaration as follows:

(A) The declaration must be made at least 12 hours prior to departing from port by telephoning the Department Montesano Office at (206) 249-4628, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. The declarer will receive a declaration number from the department.

(B) The declaration must include: vessel name; federal limited entry permit number; operator's name, phone number and address; anticipated date and port of departure; anticipated date and port of return.

(C) Phone declarations must be followed by a written declaration, signed by the operator and mailed or delivered to the Montesano Office at 48A Devonshire Road, Montesano, WA 98563, prior to the day of departure. Forms are available at that office or from coastal processors.

(D) No fishing north of Cape Lookout is allowed after declaring for fishing south of Cape Lookout until the vessel has landed at a Washington or Oregon port notified the Montesano Office during business hours.

(iii) There is a maximum cumulative limit for landings from both north and south of Cape Lookout of 50,000 pounds, of which no more than 30,000 pounds may be yellowtail rockfish and no more than 6,000 pounds may be canary rockfish.

(iv) Wholesale fish dealers purchasing more than 35,000 pounds of Sebastes complex or 14,000 pounds of yellowtail rockfish must enter the declaration number on the fish receiving ticket.

(f) **DTS Complex - (Dover sole, thornyhead rockfish and sablefish)** - Cumulative monthly limit of 35,000 pounds, of which no more than 20,000 pounds may be thornyhead rockfish. Of the thornyheads, no more than 4,000 pounds may be shortspine thornyheads. No minimum size on the species.

(g) **Sablefish**

**Trawl vessels** - Cumulative limit of 6,000 pounds. Vessel trip limit of 1,000 pounds or 25% of the DTS complex, whichever is greater (sablefish allowance = .33 times the combined weight of Dover sole and thornyhead rockfish). In the trip limit, no more than 500 pounds may be sablefish less than 22 inches total length. Total length of 22 inches is equivalent to the dressed length of 15.5 inches (from the tip of the tail to the anterior insertion of the first dorsal fin). To convert sablefish from dressed weight to round weight, multiply the dressed weight by 1.6.

**Non-trawl vessels** - Daily trip limit of 300 pounds (round weight). No minimum size.

(h) **Pacific Whiting** - Vessel trip limit of 10,000 pounds through April 14, 1995. No minimum size. No vessel trip limit beginning 12:01 am April 15, 1995. No minimum size.

(i) **Lingcod** - Cumulative limit of 20,000 pounds. Total length minimum size limit of 22 inches.

(3) **GROUNDFISH OPEN ACCESS FISHERY LIMITS.** The following limits apply to the groundfish open access fishery in Coastal Marine Fish-Shellfish Management and Catch Reporting Areas 58B, 59A, 59B, 60A, 61, 62, and 63, and apply to all groundfish taken in Puget Sound Marine Fish-Shellfish Management and Catch Reporting Area 29:

(a) A vessel operating in the open access fishery must not exceed any trip limit, frequency limit, and/or size limit for the same gear and/or subarea in the limited-entry fishery.

(b) **Sablefish** - Daily trip limit of 300 pounds (round weight). No minimum size.

(c) **Rockfish** - Vessel trip limit of 10,000 pounds. Cumulative trip limit of 40,000 pounds.

(d) **Lingcod** - Cumulative limit of 20,000 pounds. Total length minimum size limit of 22 inches.

(4) It is unlawful during the unloading of the catch and prior to its being weighed or leaving the unloading facility to intermix with any other species a species or category of bottomfish having a cumulative limit, vessel trip limit or daily trip limit, or any species that has a harvest guideline established by the Pacific Fisheries Management Council.

(5) The fisher's copy of all fish receiving tickets showing landings of species provided for in this section shall be retained aboard the landing vessel for 90 days after landing.

**Reviser's note:** The typographical error in the above section occurred in the copy filed by the agency and appears in the Register pursuant to the requirements of RCW 34.08.040.

NEW SECTION

**WAC 220-44-08000A Otter trawl logbook required.** Notwithstanding the provisions of WAC 220-44-080 until further notice all species which have a cumulative limit, vessel trip limit or daily limit **must** be identified to trip limit category for each tow.

EMERGENCY RULES  
DEPARTMENT OF AGRICULTURE

[Order 5067—Filed December 29, 1994, 8:20 a.m., effective January 1, 1995]

Date of Adoption: December 29, 1994.

Purpose: To put in place requirements for pasteurization of frozen dessert mixes at place where mix is frozen and

EMERGENCY

packaged. To prevent contamination of mixes with harmful bacteria during post pasteurization transport and handling.

Citation of Existing Rules Affected by this Order: Amending WAC 16-144-001 and a new section.

Statutory Authority for Adoption: RCW 15.36.021 and 69.04.398(3).

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Inadequate protection during hauling and handling to prevent contamination after pasteurization. Simply requires pasteurization as last step after transport and handling and addition of potentially contaminated ingredients. To prevent outbreak as occurred at Schwans.

Effective Date of Rule: January 1, 1995.

Moos, director of agriculture of the state of Washington, after public notice and hearing held at Olympia, Washington on September 6, 1967, by virtue of authority vested in me under chapters 34.04, 15.32 and 15.36 RCW, do hereby promulgate the following regulations governing frozen desserts.:~~) This chapter is promulgated under authority of RCW 15.36.021 and 69.04.398(3). #### NEW SECTION

**WAC 16-144-015 Frozen dessert processing requirements.** Frozen desserts mix; transportation and pasteurization requirements.

(1) Frozen dessert mixes and other fluid dairy ingredients intended for frozen desserts which are transported from the plant where they are originally pasteurized in larger than ten-gallon containers or in nonhermetically sealed containers, including bulk tank trucks or which are stored at the original plant more than seventy-two hours after original pasteurization shall be repasteurized prior to freezing and packaging.

##### **EMERGENCY RULES**

##### **DEPARTMENT OF REVENUE**

[Filed December 30, 1994, 10:15 a.m., effective January 1, 1995]

Date of Adoption: December 30, 1994.

Purpose: To define new species for reporting of timber values, and to define "thinning" for purposes of stumpage value adjustments for harvesters of timber.

Citation of Existing Rules Affected by this Order: Amending WAC 458-40-610 Timber excise tax—Definitions.

Statutory Authority for Adoption: RCW 82.32.300 and 84.33.096.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is being adopted on an emergency basis in order to implement the stumpage value tables (WAC 458-40-660) that are effective January 1, 1995. Those tables include new species classifications of "chipwood" and "small logs" that are defined in this rule. Without the new definitions, taxpayer reporting of stumpage values in these classifications would be defective.

Other Findings Required by Other Provisions of Law as Precondition to Adoption or Effectiveness of Rule: Effective date of January 1, 1995, is necessary to coincide with effective date of WAC 458-40-660 (stumpage value rule).

Effective Date of Rule: January 1, 1995.

AMENDATORY SECTION (Amending WSR 90-14-033, filed 6/29/90, effective 7/30/90)

**WAC 458-40-610 Timber excise tax—Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply to WAC 458-40-600 through 458-40-690.

(1) Codominant trees. Trees whose crowns form the general level of the crown cover and receive full light from above, but comparatively little light from the sides.

(2) Competitive sales. The offering for sale of timber which is advertised to the general public for sale at public auction under terms wherein all qualified potential buyers have an equal opportunity to bid on the sale, and the sale is

awarded to the highest qualified bidder. The term "competitive sales" includes making available to the general public permits for the removal of forest products.

(3) Department. The department of revenue of the state of Washington.

(4) Dominant trees. Trees whose crowns are higher than the general level of the canopy and which receive full light from the sides as well as from above.

(5) Harvest unit. An area of timber harvest having the same forest excise tax permit number, stumpage value area, hauling distance zone, harvest adjustments, and harvester. It may include more than one section: *Provided*, A harvest unit may not overlap a county boundary.

(6) Hauling distance zone. An area with specified boundaries as shown on the state-wide stumpage value area and hauling distance zone maps contained in WAC 458-40-640, having similar accessibility to timber markets.

(7) Log grade. Those grades listed in the "Official Log Scaling and Grading Rules" handbook developed and authored by the Northwest Log Rules Advisory Group. The utility grade as described in the "Official Rules" is a standard grade to be used in the calculation of quality classes described in WAC 458-40-650.

(8) Lump sum sale. Also known as a cash sale or an installment sale, it is a sale of timber wherein the total sale price is dependent upon an estimate of the total volume of timber in the sale rather than the actual volume harvested.

((8)) (9) MBF. One thousand board feet measured in Scribner Decimal C Log Scale Rule.

((9)) (10) Noncompetitive sales. Sales of timber in which the purchaser has a preferential right to purchase the timber or a right of first refusal.

((10)) (11) Other consideration. Value given in lieu of cash as payment for stumpage, such as improvements to the land that are of a permanent nature. It may include, but is not limited to, the construction of permanent roads and the installation of permanent bridges.

((11)) (12) Permanent road. A road built as part of the harvesting operation which is intended to have a useful life subsequent to the completion of the harvest.

((12)) (13) Private timber. All timber harvested from privately owned lands, including timber on reclassified reforestation land under chapters 84.28 and 84.33 RCW.

((13)) (14) Public timber. Timber harvested from federal, state, county, municipal, or other government owned lands.

((14)) (15) Remote island. An area of land which is totally surrounded by water at normal high tide and which has no bridge or causeway connecting it to the mainland.

((15)) (16) Sale price. The amount paid for timber in cash or other consideration.

((16)) (17) Scale sale. A sale of timber in which the sale price is the product of the actual volume harvested and the unit price at the time of harvest.

((17)) (18) Species. A grouping of timber based on biological or physical characteristics. In addition to the designations of species or subclassifications defined in Agriculture Handbook No. 451 Checklist of United States Trees (native and naturalized) found in the state of Washington, the following shall be considered separate species for the purpose of harvest classification used in the stumpage value tables:

(a) Other conifer. All conifers not separately designated in the stumpage value tables. See WAC 458-40-660.

(b) Other hardwood. All hardwoods not separately designated.

(c) ~~(Conifer utility. All conifer logs graded as utility.~~

~~(d) Hardwood utility. All hardwood logs graded as utility or number four sawmill as defined by the current edition of the "Official Log Scaling and Grading Rules" as developed and authored by the Northwest Log Rules Advisory Group.~~

(e) Special forest products. The following are considered to be separate species of special forest products: Christmas trees (various species), posts (various species), western redcedar flatsawn and shingle blocks, western redcedar shake blocks and boards.

((18)) (d) Chipwood. All timber processed to produce chips or chip products delivered to the facilities listed in WAC 458-40-670(1) or otherwise reportable in accordance with the provisions of WAC 458-40-670 (2) or (3).

(e) Small logs. All conifer logs harvested in stumpage value areas 6 or 7 generally measuring seven inches or less in scaling diameter, delivered to and purchased by weight measure at facilities listed in WAC 458-40-670(4). Log diameter and length is determined by merchandizer scanner with length not to exceed twenty feet.

(f) Sawlog. For purposes of timber harvest in stumpage value areas 6 and 7, a sawlog is a log having a net scale of not less than 33 1/3% of gross scale, nor less than ten board feet and meeting the following minimum characteristics: Gross scaling diameter of five inches and a gross scaling length of eight feet.

(19) Stumpage. Standing or fallen trees, live or dead, having commercial value which have not been severed from the stump.

((19)) (20) Stumpage value area (SVA). An area with specified boundaries which contains timber having similar growing, harvesting and marketing conditions.

((20)) (21) Thinning. Timber removed from a harvest unit meeting all the following conditions:

(a) Located in ~~(Western Washington)~~ stumpage value areas 1, 2, 3, 4, 5, and 10;

(b) The total volume removed is less than forty percent of the total merchantable volume of the harvest unit prior to harvest;

(c) ~~(Not more than forty percent of the total volume removed is from the dominant and codominant trees;~~

~~(d) The trees removed in the harvest operation shall be distributed over the entire harvest unit.~~

(21)) Leave a minimum of one hundred undamaged, evenly spaced, dominant or codominant trees per acre of a commercial species or combination thereof.

(22) Timber. Forest trees, standing or down, on privately or publicly owned land, and except as provided in RCW 84.33.170, includes Christmas trees.

~~((2))~~ (b) Stumpage value rates for conifer and hardwoods shall be adjusted to a value no lower than one dollar per MBF.

~~((3))~~ (c) Timber harvesters planning to remove timber from areas having damaged timber may apply to the department for adjustment in stumpage values. Such applications shall contain a map with the legal descriptions of the area, a description of the damage sustained by the timber with an evaluation of the extent to which the stumpage values have been materially reduced from the values shown in the applicable tables, and a list of estimated additional costs to be incurred resulting from the removal of the damaged timber. Such applications must be received by the department before the harvest commences. Upon receipt of such application, the department will determine the amount of adjustment allowed and notify the harvester. In the event the extent of the damage or additional costs is not known at the time the application is filed, the harvester may provide relevant information to the department for a period not exceeding ninety days following completion of the harvest unit.

EMERGENCY RULES  
DEPARTMENT OF REVENUE**

[Filed December 30, 1994, 10:24 a.m., January 1, 1995]

Date of Adoption: December 30, 1994.

Purpose: To allow for scaling of lodgepole pine in stumpage value areas 6, 7 and 10 to be done in accordance with industry practice and to amend the definition of "utility grade" to conform with industry rule.

Citation of Existing Rules Affected by this Order: Amending WAC 458-40-680 Timber excise tax—Volume harvested—Approved scaling and grading methods.

Statutory Authority for Adoption: RCW 82.32.300 and 84.33.096.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is being adopted on an emergency basis in order to have the amended taper factor allowance be effective at the same time as the stumpage value tables (WAC 458-40-660). This will enable timber harvesters to properly report and pay timber excise tax.

Effective Date of Rule: January 1, 1995.

[Order R-425, Docket No. TV-941290—Filed December 30, 1994, 3:00 p.m., effective January 1, 1995, 12:01 a.m.]

This is an emergency rule-making proceeding that is designed to amend and adopt rules to become effective January 1, 1995, at 12:01 a.m.

The Washington Utilities and Transportation Commission is conducting this rule making pursuant to RCW 80.01.040 and 34.05.350. This proceeding complies with the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.05 RCW), the State Register Act (chapter 34.08 RCW), the State Environmental Policy Act (chapter 43.21C RCW), and the Regulatory Fairness Act (chapter 19.85 RCW).

The facts requiring emergency action are as follows:

In late August 1994, the President signed federal legislation which preempts the states' rights to regulate most economic areas of intrastate motor carriage. This legislation is effective January 1, 1995. Because the commission's rules governing motor carriers, specifically chapter 480-12 WAC, includes economic regulation, it must revise those rules prior to the January 1, 1995, effective date of the federal law. Failure to make changes in commission rules would leave patently illegal rules in place and would hamper the implementation of state laws that remain effective to govern motor carrier safety.

In order to remain in compliance with federal requirements, the Washington Utilities and Transportation Commission must adopt alternative motor carrier rules which are consistent with federal legislation and which can be in effect on January 1, 1995. Emergency rules are authorized under RCW 34.05.350(b).

A permanent alternative rule cannot be promulgated in time to meet the January 1, 1995, implementation date of the federal legislation.

The commission staff began studying the effects of the federal legislation, and the effort needed to comply, immediately after its enactment. Commission staff decided to prepare the needed emergency rules through dialogue with affected interests. It invited participation from all known associations of carriers and a selection of others whom the commission believed to be interested in participating and who represented the diverse institutional interests affected.

Commission staff then conducted workshops featuring candid and reasoned dialogue among the diverse interests. As a result of the dialogue, significant changes in approach to specific rules were made in order to accommodate valid interests and make the proposed rules easier and less expensive to comply with and more likely to achieve compliance.

The federal legislation did not change the regulatory structure for household goods carriers or intrastate common carrier brokers. This means that the commission needs two sets of motor carrier regulatory rules, one which includes economic regulation of those industries not affected by the federal legislation, and one which does not include economic regulation for those industries preempted by the federal action. Because of this requirement, the commission is leaving chapter 480-12 WAC in place, repealing the sections that do not apply to household goods carriers and brokers. The commission is also establishing a new chapter 480-14 WAC, for all other intrastate motor carriers.

The commission will shortly file a preproposal notice of its intention to promulgate permanent rules on the subjects addressed by these emergency rules.

The Washington Utilities and Transportation Commission finds that an emergency exists. It finds that the federal law amendments require immediate adoption of new commission rules and amendment of existing rules. It finds that immediate adoption of new rules and immediate amendment of existing rules are necessary for the preservation of the public health, safety, or general welfare, and that observing the statutory requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

This adoption of a new rule and amendment to existing rule affect no economic values and have no adverse environmental effect, in that they merely implement the changes required by federal law against the framework of existing statutes.

In reviewing the entire record, the commission determines that it should amend chapter 480-12 WAC to adopt WAC 480-12-001 and to repeal WAC 480-12-075, 480-12-082, 480-12-085, 480-12-090, 480-12-095, 480-12-105, 480-12-110, 480-12-131, 480-12-137, 480-12-140, 480-12-155, 480-12-160, 480-12-181, 480-12-195, 480-12-196, 480-12-205, 480-12-225, 480-12-230, 480-12-233, 480-12-240, 480-12-245, 480-12-253, 480-12-260, 480-12-305, 480-12-310, 480-12-321, 480-12-322, 480-12-380, 480-12-500, 480-12-510, 480-12-520, and should adopt a new chapter 480-14 WAC, to read as set forth in Appendix A, shown below and included in it by this reference, to be effective January 1, 1995, at 12:01 a.m. These rule changes will allow the commission to comply with federal legislation.

**Chapter 480-14 WAC  
MOTOR CARRIERS, EXCLUDING HOUSEHOLD  
GOODS CARRIERS AND COMMON CARRIER  
BROKERS**

**NEW SECTION**

**WAC 480-14-010. Purpose and application.** The federal government has preempted state economic regulation of motor carriers effective January 1, 1995, except for carriers of household goods and common carrier brokers. These rules are established to comply with federal law. This chapter supersedes chapter 480-12 WAC for all common and contract carriers previously regulated in that chapter except carriers of household goods and common carrier brokers, who continue to be regulated by that chapter.

**NEW SECTION**

**WAC 480-14-020 Rules, general application of rules—How changed.** (1) No rule contained in this chapter can be changed, altered or revised except by general order of the commission pursuant to the Washington state Administrative Procedure Act.

(2) The rules in this chapter are for general application only, and are subject to such changes and modifications as the commission may deem advisable from time to time, and also to such exceptions as may be considered just and reasonable in individual cases.

(3) Application for exception to any of the rules and regulations of the commission shall be made in accordance with the following instructions:

(a) Application should be directed to the commission at its Olympia headquarters office. The application should be typewritten on 8-1/2 x 11 inch paper, on one side of the sheet only.

(b) The applicant must identify the rule from which exemption is sought and give a full explanation as to the reason(s) the exception is desired.

**NEW SECTION**

**WAC 480-14-030 Permits during interim period.** The commission recognizes that federal law effective January 1, 1995, destroys prior intrastate common and contract carrier operating rights in all areas except household goods and transportation brokerage. Each carrier operating under an active common or contract carrier permit in existence as of December 31, 1994, ("1994 permit" for purposes of this rule) who chooses to continue in the business of transporting the property of others and who complies with pertinent law and regulation, and whose authority continues in good standing, will be entitled to a new permit identifying whether it is registered and insured as a carrier of hazardous materials, a carrier providing armored car service, a carrier of property other than hazardous materials, or all three. Because it was physically impossible to identify the proper documentation required for all existing carriers and have new permits distributed by January 1, 1995, the commission determines that an existing common or contract carrier permit that is valid on December 31, 1994, shall be recognized as an interim permit for the conduct of operations on and after January 1, 1995, as follows:

(1) A 1994 permit authorizing the transportation of any nonhazardous property shall be recognized as reflecting authority to transport general commodities.

(2) A 1994 permit authorizing transportation of both hazardous and nonhazardous materials will be recognized as reflecting the authority to transport general commodities. If the carrier verifies to the commission that it wishes to engage in transportation of hazardous materials and if the carrier verifies that it has the required insurance coverage, the permit will also reflect the authorization to transport hazardous materials.

(3) A 1994 permit authorizing armored car service will be recognized as reflecting the authority to transport general commodities. If the carrier verifies to the commission that it wishes to engage in providing armored car service, the

permit will also reflect the authorization to provide armored car service.

(4) 1994 permits shall serve as evidence of authority only until the carrier receives its new permit or until July 15, 1995, whichever first occurs. A new permit will not be issued to a carrier whose permit is canceled or suspended.

(5) For the purposes of this rule, an active common or contract carrier permit does not include those carriers with suspended permits or carriers with unsatisfied safety penalties.

#### NEW SECTION

(3) The term "private carrier" means a person who, in its own vehicle, transports only property owned or being bought or sold by it in good faith and only when such transportation is purely an incidental adjunct to some established private business owned or operated by it in good faith.

(4) The term "exempt carrier" means any person operating a vehicle exempted from certain provisions of the act under RCW 81.80.040.

(5) The terms "registered carrier" and "registered exempt carrier" have the meanings set out in WAC 480-14-290.

(7) The term "carrier of general commodities" means any person transporting the property of others for compensation, except persons performing the service of transporting household goods as defined in WAC 480-12-990.

(8) The term "armored car service" means carriers transporting property of very high value (gold, silver, currency, valuable securities, jewels and other property of very high value) using specially constructed armored trucks and providing policy protection to safeguard freight while it is being transported and delivered. It also means carriers which operate ordinary equipment in the carriage of high value commodities when guards are necessary to accompany the shipment.

(2) **Voluntary cancellation.** A carrier may request that its permit be cancelled. Cancellation will be effective upon entry of an order of voluntary cancellation by the commission secretary. The commission will reinstate any permit that has been voluntarily cancelled by order of the secretary upon application of the carrier and payment of the required fee within six months after the order of cancellation, provided the permit holder meets current entry requirements.

(3) **Policy regarding compliance activities; penalties; remediation; involuntary suspension or cancellation.** It is the policy of the commission that the purpose for the regulations implemented in this chapter is to secure compliance with laws and rules protecting the public health and safety, and that the commission shall direct its efforts toward education to the end that voluntary compliance is achieved.

(a) Penalties are intended as a tool of enforcement and remediation and may be assessed upon violations in the manner the commission believes will best assure future compliance by the responding carrier and other carriers.

(b) In addition to or in lieu of penalties, suspension or cancellation, the commission may require a carrier to attend individual or group education regarding the subject of violations and may require the carrier to pay the reasonable cost of providing the education.

(c) Involuntary suspension and cancellation are intended for circumstances in which the commission believes education and penalties have not been or will not be effective to secure compliance and for serious actions such as fraud, misrepresentation, and willful violation of legal requirements.

(4) **Involuntary suspension.**

(a) The commission may suspend a carrier permit for cause. Cause includes, but is not limited to, the following circumstances:

(i) The carrier has failed to maintain evidence that it has the required level of insurance in effect for its operations.

(ii) The carrier fails or refuses to participate in compliance education or conferences, or fails or refuses to comply with rules or other requirements protecting the public health or safety following commission staff instructions regarding compliance.

(iii) The carrier commits or allows to exist an infraction of rule or law that poses an immediate danger to the public health or safety, when putting one or more vehicles out of service will not protect the public health or safety.

(b) The commission will provide to the carrier such notice as is feasible of a commission action suspending a permit, weighing the potential threat to the public health, safety or welfare and the effect of the suspension on the carrier.

(i) The commission will make a good faith effort to notify a carrier that its evidence of insurance is likely to become invalid, but will suspend any carrier who fails to maintain evidence of current insurance on file with the commission, whether or not it is able to provide advance notice.

(ii) The commission may suspend a carrier permit, effective with the service of notice, when it believes that the carrier's continued operations pose an imminent danger to the public health, safety or welfare.

(c) The commission may suspend a permit without prior hearing when the action is needed to protect the public health, safety or welfare and there is insufficient time for a suspension hearing. A carrier whose permit is suspended may secure reinstatement of the permit by correcting conditions leading to suspension. A carrier may contest suspension by requesting a brief adjudication or an adjudication.

(5) **Cancellation for cause.** The commission may cancel a permit for cause. Cause includes, but is not limited to, the following circumstances:

(a) Failure to pay the required regulatory fee or fees.

(b) Failure to demonstrate that the carrier has corrected the conditions leading to suspension within the time defined in the order of suspension.

(c) Committing or allowing to exist violations of pertinent requirements of law or rule affecting the public health or safety when the commission has reason to believe that the carrier would not comply following a period of suspension.

(d) Repeated failure or refusal of the carrier to comply with regulatory requirements or to provide information, or the submission of false, misleading, or inaccurate information of a sort that is necessary to the commission for performance of its functions.

(6) **Cancellation hearing prior to.** The commission will hold a hearing prior to canceling a carrier's authority, pursuant to RCW 81.80.280, except when cancellation results from failure to correct causes of a suspension in which an adjudication or brief adjudication was held or was available to the carrier. A carrier whose permit is cancelled may apply for reinstatement under WAC 480-14-220, or may

apply for a new permit under WAC 480-14-180, if the causes of cancellation are corrected.

NEW SECTION

**WAC 480-14-240 Inactive status of permits during military service.** (1) When the holder of a common carrier permit is called into or enters the military service of the United States and must cease operation over the public highways, the commission will upon application place that carrier's permit in an inactive file for the period of military service.

(2) The carrier shall file with the commission a written, informal application which lists:

(a) The applicant's name and permit number;

#### NEW SECTION

**WAC 480-14-270 Pseudo leasing.** Where private carriers lease equipment and the driver of the equipment is in any manner furnished or controlled directly or indirectly by corporate device or otherwise by the lessor of the vehicle, such facts shall give rise to a presumption that the lessor is furnishing a common carrier transportation service. The carrier shall not provide such service unless it acquires common carrier authority to do so. The commission may institute proceedings to determine whether the lessor should be classified as a common carrier under the provisions of chapter 81.80 RCW and/or RCW 81.04.510.

Where, as a result of a classification hearing, the commission has reason to believe a lease between the lessor and lessee was entered into for the purpose of evading the Transportation Act, chapter 81.80 RCW, or the rules and regulations of the commission promulgated thereunder, the commission may institute criminal proceedings under appropriate state law against the lessor and the lessee to the full extent permitted by law and/or the provisions of RCW 81.04.510.

(2) A driver who is driving a motor vehicle in the hauling of agricultural products from the point of production on farms, exclusively in intrastate commerce, shall not drive

nor be permitted to drive more than twelve hours following eight consecutive hours off duty. Such driver shall not be on duty nor be permitted to be on duty more than ninety hours in any period of seven consecutive days.

(3) The rules and regulations governing driver's daily logs prescribed in Title 49, Code of Federal Regulations, section 395.8 and adopted in this section, do not apply to a driver who drives exclusively in intrastate commerce and wholly within a radius of one hundred miles of the terminal or garage at which he or she reports for work, if the motor carrier who employs the driver maintains and retains for a period of one year accurate and true records showing the total number of hours of driving time and the time that the driver is on duty each day and the time at which the driver reports for, and is released from, duty each day. A tacograph showing the required driver hourly information may be substituted for the required records.

(4) Carriers operating exclusively in intrastate commerce operating vehicles with a manufacturer's gross vehicle weight rating (GVWR) of less than ten thousand one pounds shall not be subject to the provisions of part 395 unless the vehicle is being used to transport hazardous materials of a type or quantity that requires the vehicle to be marked or placarded in accordance with WAC 480-14-390.

#### NEW SECTION

##### **WAC 480-14-390 Hazardous materials regulations.**

(1) The rules and regulations governing hazardous materials prescribed by the United States Department of Transportation in Title 49, Code of Federal Regulations, parts 170-189, as well as and including all appendices and amendments thereto, are adopted and prescribed by the commission to define hazardous materials for motor vehicle transportation purposes, and to state the precautions that must be observed in storage, packaging, loading, and unloading such materials, and in maintaining, placarding, marking, and certifying motor vehicles and equipment used in transporting such materials, and in the maintenance of shipping papers prepared in conjunction with transporting such materials. The rules and regulations adopted and prescribed by this rule shall be observed by all common and registered carriers operating in this state.

(2) In addition to any accident reporting requirement now or hereafter prescribed by the commission, every common and registered carrier operating in this state who reports to the United States Department of Transportation any incidents occurring in this state involving hazardous materials, shall send a copy of any such report to the commission.

##### **(3) Out-of-service criteria.**

(a) All motor vehicles operated under chapter 81.80 RCW shall be operated in compliance with the rules and regulations governing the transportation of hazardous materials. They shall at all times be subject to inspection by the commission and its duly authorized representatives who shall have power to order out-of-service any vehicle meeting the standards set forth in this section, or is not being operated in compliance with laws in regard to equipment or method.

(b) Standards. The purpose of this section is to identify critical hazardous materials inspection items and provide

criteria for placing a vehicle(s) in an out-of-service or restricted service category subsequent to an inspection. The criteria for out-of-service condition or restricted service condition are those defined in the *North American Uniform Out-of-Service Criteria*. Copies of this document are available from the commission upon request.

(i) Out-of-service condition. No motor carrier shall require nor shall any person operate a motor vehicle(s) when an out-of-service condition is found to exist. The vehicle shall not be allowed to continue in operation until the unsafe condition is corrected and the shipment thereon complies with applicable laws, rules, and regulations: *Provided*, That if safety may be jeopardized by an out-of-service action at the inspection site, the vehicle(s) may be escorted to a safer location.

#### NEW SECTION

**WAC 480-14-400 Transportation of radioactive materials—Driving and parking rules.** (1) Attendance and surveillance of motor vehicles.

(a) Except as provided in (b) of this subsection, a motor vehicle containing an amount of radioactive material requiring highway route control pursuant to CFR part 173.403 must be attended at all times by its driver or a qualified representative of the motor carrier that operates it.

(b) Subdivision (a) of this subsection shall not apply if all of the following conditions exist:

(i) The vehicle is located on the property of the motor carrier, on the property of a shipper or consignee of the radioactive material, or in a safe haven; and

(ii) The lawful bailee of the radioactive material is aware of the nature of the radioactive material the vehicle contains and has been instructed in the procedures that must be followed in emergencies; and

(iii) The vehicle is within the bailee's unobstructed field of view.

(c) For purposes of this section:

(i) A motor vehicle is attended when the person in charge of the vehicle is on the vehicle, awake, and not in a sleeper berth, or is within one hundred feet of the vehicle with an unobstructed field of view;

(ii) A qualified representative of a motor carrier is a person who:

(A) Has been designated by the carrier to attend the vehicle;

(B) Is aware of the nature of the radioactive materials contained in the vehicle;

(C) Has been instructed in the procedures to be followed in emergencies; and

(D) Is authorized to move the vehicle and has the means and ability to do so.

(d) A safe haven is an area specifically approved in writing by local, state or federal government authorities for the parking of unattended vehicles containing highway route controlled quantities of radioactive material.

(e) The rules in this section do not relieve a driver from any obligation imposed by law relating to the placing of warning devices when a motor vehicle is stopped on the public street or highway.

(2) Parking. A motor vehicle which contains an amount of radioactive material requiring highway route control must not be parked:

(a) On or within five feet of the traveled portion of a public street or highway;

(b) On private property (including premises of a fueling or eating facility) without the knowledge and consent of the person who is in charge of the property and who is aware of the nature of the hazardous materials the vehicle contains; or

(c) Within three hundred feet of a bridge, tunnel, dwelling, building, or place where people work, congregate, or assemble, except for brief periods when the necessities of operation require the vehicle to be parked and make it impracticable to park the vehicle in any other place.

**WAC 480-14-410 Accidents, reporting of.** (1) Accidents occurring in this state arising from or in connection with the operation of a motor vehicle by any common or registered carrier in this state, resulting in an injury to any person, the death of any person, or involving a motor vehicle carrying hazardous materials and required to be placarded, shall be reported by such carrier to the commission as soon as possible, but in no event later than twelve hours after the occurrence of the accident. The occurrence of such accidents shall be reported to the commission by telephone at the following number: 1-800-562-6150; or if the call is made from out of the state: 1-206-586-1119.

(2) Copies of written reports of all accidents, including those accidents described in subsection (1) of this section, shall be maintained in the main office of the carrier subject to inspection by the commission.

#### NEW SECTION

**WAC 480-14-420 Optional provisions.** (1) Carriers of general commodities, materials transported by armored cars and hazardous materials may, but are not required to, participate in the optional programs identified in this subsection.

(a) Uniform Bill of Lading. The commission adopts as the appropriate uniform bill of lading:

(i) The Uniform Straight Bill shown in Appendix A of this chapter, or in the alternative,

(ii) Carriers subscribing to the National Motor Freight Classification shall use the form of the bill of lading for shipments as shown in the National Motor Freight Classification in effect on May 28, 1994, and may modify its terms as indicated within the terms shown thereon. Adoption by the commission does not supersede the publisher's copyright in the document nor authorize its use by persons not entitled thereto. It is available from the Traffic Department, American Trucking Association, 2200 Mill Road, Alexandria, Virginia 22314.

(b) Uniform freight classification. The commission adopts as the appropriate uniform freight classification the National Motor Freight Classification published by the American Trucking Association, effective May 28, 1994.

(i) The uniform freight classification is available for inspection in the utilities and transportation branch of the Washington state library, located with the headquarters office of the commission. It is available from the Traffic Depart-

ment, American Trucking Association, 2200 Mill Road, Alexandria, Virginia 22314.

(ii) Subscribing carriers shall use the uniform freight classification for intrastate shipments. Adoption by the commission does not supersede the publisher's copyright in the document nor authorize its use by persons not entitled thereto.

(c) Standard mileage guide. The commission adopts as the standard mileage guide for shipments in the state of Washington, the *Official State Highway Map* published by the Washington state department of transportation.

(i) Mileage between points not designated on the map shall be calculated by using the indicated map mileage for as much of the traveled route as is possible and then adding to that mileage the actual odometer mileage to or from the unnamed point.

(ii) The map is available for inspection in the utilities and transportation branch of the Washington state library, located with the headquarters office of the commission, and it is available from the Washington State Department of Transportation, WSDOT Public Affairs Office, P. O. Box 47322, Olympia, Washington 98504-7322.

(2) A carrier may opt-in to any of these programs at any time by completing a form at the time it applies for authority, at the time it submits a periodic report of operations, or at any other time by filing written notice with the commission.

(a) A carrier who has opted-in may advertise its option status and must disclose to shippers its option status before accepting a shipment.

(b) A carrier who has opted-in must act in conformity with its option until it has completed steps necessary to opt-out of the program. Carriers may not subscribe selectively for some shipments or shippers but not for others.

(3) Opting out. All carriers will be assumed to have opted-out of participating in any of the optional programs until such time as they officially notify the commission that they have opted-in to one or more of the programs.

(a) No carrier who has opted-out of any program may represent that it subscribes to the program. Carriers who have opted-out of any program may advertise or represent that they do not participate in the program.

(b) A carrier may choose to opt-out of any optional program at any time by:

(i) Filing with the commission its written notice that it opts-out of the program;

(ii) Advising the shippers it has served within the past year that it has opted-out; and

(iii) Withdrawing any advertising it may have for dissemination to the public that states its optional participation.

(4) For the purposes of this rule only, the term "written notice" may also include filing via notification through the commission's telefacsimile machine.

(5) Violations. It shall be a violation of rule for a carrier to advertise or represent to the public or to any shipper that it is an option participant in any program when it has not opted-in, and to advertise or represent to the public or any shipper that it is not an option participant when it is.

CONTRACT TERMS AND CONDITIONS

Sec. 1.(a) The carrier or party in possession of any of the property herein described, shall be liable as at common

law for any loss thereof or damage thereto, except as hereinafter provided.

(b) No carrier or party in possession of all or any of the property herein described shall be liable for any loss thereof or damage thereto or delay caused by the Act of God, the

EMERGENCY

public enemy, the authority of law, or the act or default of the shipper or owner, or for natural shrinkage. The carrier's liability shall be that of warehouseman, only, for loss, damage, or delay caused by fire occurring after the expiration of the free time (if any) allowed by tariffs lawfully on file (such free time to be computed as therein provided) after notice of the arrival of the property at destination or at the port of export (if intended for export) has been duly sent or given, and after placement of the property for delivery at destination, or tender of delivery of the property to the party entitled to receive it, has been made. Except in case of negligence of the carrier or party in possession (and the burden to prove freedom from such negligence shall be on the carrier or party in possession), the carrier or party in possession shall not be liable for loss, damage, or delay occurring while the property is stopped and held in transit upon the request of the shipper, owner, or party, entitled to make such request, or resulting from a defect or vice in the property, or for country damage to cotton, or from riots or strikes. Except in case of carrier's negligence, no carrier or party in possession of all or any of the property herein described shall be liable for delay caused by highway obstruction, faulty or impassable highway, or lack of capacity of any highway, bridge or ferry, and the burden to prove freedom from such negligence shall be on the carrier or party in possession.

(c) In case of quarantine the property may be discharged at risk and expense of owners into quarantine depot or elsewhere, as required by quarantine regulations or authorities, or for the carrier's dispatch at nearest available point in carrier's judgement, and in any such case carrier's responsibility shall cease when property is so discharged, or property may be returned by carrier at owner's expense to shipping point, earning freight both ways. Quarantine expenses of whatever nature or kind upon or in respect to property shall be borne by the owners of the property or be in lien thereon. The carrier shall not be liable for loss or damage occasioned by fumigation or disinfection or other acts required or done by quarantine regulations or authorities even though the same may have been done by carrier's officers, agents, or employees, nor for detention, loss, or damage of any kind occasioned by quarantine or the enforcement thereof. No carrier shall be liable, except in case of negligence, for any mistake or inaccuracy in any information furnished by the carrier, its agents, or officers, as to quarantine laws or regulations. The shipper shall hold the carriers harmless from any expense they may incur, or damages they may be required to pay, by reason of the introduction of the property covered by this contract into any place against the quarantine laws or regulations in effect at such place.

**Sec. 2.(a)** No carrier is bound to transport said property by any particular schedule, train, vehicle, or vessel, or in time for any particular market or otherwise than with reasonable dispatch. Every carrier shall have the right in case of physical necessity to forward said property by any carrier or route between the point of shipment and the point of destination. In all cases not prohibited by law, where a lower value than actual value has been represented in writing by the shipper or has been agreed upon in writing as the released value of the property as determined by the classification or tariffs upon which the rate is based, such lower value plus freight charges if paid shall be the maximum

amount to be recovered, whether or not such loss or damage occurs from negligence.

(b) As a condition precedent to recovery, claims must be filed in writing with the receiving or delivering carrier, or carrier issuing this bill of lading, or carrier on whose line the loss, damage, injury or delay occurred, or carrier in possession of the property when the loss, damage, injury or delay occurred, within nine months after delivery of the property (or, in the case of export traffic, within nine months after delivery at port of export) or, in case of failure to make delivery, then within nine months after a reasonable time for delivery has elapsed; and suits shall be instituted against any carrier only within two years and one day from the day when notice in writing is given by the carrier to the claimant that the carrier has disallowed the claim or any part or parts thereof specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, no carrier shall be liable, and such claims will not be paid.

(c) Any carrier or party liable on account of loss of or damage to any of said property shall have the full benefit of any insurance that may have been effected upon or on account of said property, so far as this shall not avoid the policies or contracts of insurance: PROVIDED, That the carrier reimburse the claimant for the premium paid thereon.

**Sec. 3.** Except where such service is required as the result of carrier's negligence, all property shall be subject to necessary cooperage and baling at owner's cost. Each carrier over whose route cotton or cotton linters is to be transported hereunder shall have the privilege, at its own cost and risk, of compressing the same for greater convenience in handling or forwarding, and shall not be held responsible for deviation or unavoidable delays in procuring such compression. Grain in bulk consigned to a point where there is a railroad, public or licensed elevator, may (unless otherwise expressly noted herein, and then if it is not promptly unloaded) be there delivered, and placed with other grain of the same kind and grade without respect to ownership (and prompt notice thereof shall be given to the consignor), and if so delivered shall be subject to a lien for elevator charges in addition to all other charges hereunder.

**Sec. 4.(a)** Property not removed by the party entitled to receive it within the free time (if any) allowed by tariffs, lawfully on file (such free time to be computed as therein provided), after notice of the arrival of the property at destination or at the port of export (if intended for export) has been duly sent or given, and after placement of the property for delivery at destination has been made, or property not received, at time tender of delivery of the property to the party entitled to receive it has been made, may be kept in vessel, vehicle, car, depot, warehouse or place of business of the carrier, subject to the tariff charge for storage and to carrier's responsibility as warehouseman, only, or at the option of the carrier, may be removed to and stored in a public or licensed warehouse at the point of delivery or at other available point, or if no such warehouse is available at point of delivery or at other available point, then in other available storage facility; at cost of the owner, and there held without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges, including a reasonable charge for storage. In the event consignee cannot be found at address given for delivery, then

in that event, notice of the placing of such goods in warehouse shall be mailed to the address given for delivery and mailed to any other address given on the bill of lading for notification, showing the warehouse in which such property has been placed, subject to the provisions of this paragraph.

(b) Where nonperishable property which has been transported to destination hereunder is refused by consignee or the party entitled to receive it upon tender of delivery, or said consignee or party entitled to receive it fails to receive or claim it within 15 days after notice of arrival shall have been duly sent or given, the carrier may sell the same at public auction to the highest bidder, at such place as may be designated by the carrier.

PROVIDED, That the carrier shall have first mailed, sent, or given to the consignor notice that the property has been refused or remains unclaimed, as the case may be, and that it will be subject to sale under the terms of the bill of lading if disposition be not arranged for, and shall have published notice containing a description of the property, the name of the party to whom consigned, or, if shipped order notify, the name of the party to be notified, and the time and place of sale, once a week for two successive weeks, in a newspaper of general circulation at the place of sale or nearest place where such newspaper is published. PROVIDED, That 30 days shall have elapsed before publication of notice of sale after said notice that the property was refused or remains unclaimed was mailed, sent or given.

(c) Where perishable property which has been transported hereunder to destination is refused by consignee or party entitled to receive it, or said consignee or party entitled to receive it shall fail to receive it promptly, the carrier, may, in its discretion, to prevent deterioration or further deterioration, sell the same to the best advantage at private or public sale: PROVIDED, That if time serves for notification to the consignor or owner the refusal of the property or the failure to receive it and request for disposition of the property, such notification shall be given, in such manner as the exercise of due diligence requires, before the property is sold.

(d) Where the procedure provided for in the two paragraphs last preceding is not possible, it is agreed that nothing contained in said paragraphs shall be constituted to abridge the right of the carrier at its option to sell the property under such circumstances and in such manner as may be authorized by law.

(e) The proceeds of any sale made under this section shall be applied by the carrier to the payment of freight, demurrage, storage, and any other lawful charges and the expense of notice, advertisement, sale, and other necessary expense and of caring for and maintaining the property, if proper care of same requires special expense, and should there be a balance it shall be paid to the owner of the property sold hereunder.

(f) Property destined to or taken from a station, wharf, landing or other place at which there is no regularly appointed freight agent, shall be entirely at risk of owner after unloaded from cars, vehicles or vessels or until loaded into cars, vehicles, or vessels, and, except in case of carrier's negligence, when received from or delivered to such stations, wharfs, landings, or other places, shall be at owner's risk until the cars are attached to and after they are detached from locomotive or train or until loaded into and after

unloaded from vessels, or if property is transported in motor vehicle trailers or semi-trailers, until such trailers or semi-trailers are attached to and after they are detached from power units. Where a carrier is directed to unload or deliver property transported by motor vehicle at a particular location where consignee or consignee's agent is not regularly located, the risk after unloading, or delivery, shall be that of the owner.

Sec. 5. No carrier hereunder will carry or be liable in any way for any documents, specie, or for any articles of extraordinary value not specifically rated in the published classifications or tariffs unless a special agreement to do so and a stipulated value of the articles are endorsed hereon.

Sec. 6. Every party, whether principal or agent, shipping explosives or dangerous goods, without previous full written disclosure to the carrier of their nature, shall be liable for and indemnify the carrier against all loss or damage caused by such goods, and such goods may be warehoused at owner's risk and expense or destroyed without compensation.

Sec. 7. The owner or consignee shall pay the freight and average, if any, and all other lawful charges accruing on said property; but, except in those instances where it may lawfully be authorized to do so, no carrier shall deliver or relinquish possession at destination of the property covered by this bill of lading until all tariff rates and charges thereon have been paid. The consignor shall be liable for the freight and all other lawful charges, except that if the consignor stipulates, by signature, in the space provided for that purpose on the face of this bill of lading that the carrier shall not make delivery without requiring payment of such charges, and the carrier, contrary to such stipulation shall make delivery without requiring such payment, the consignor (except as hereinafter provided) shall not be legally liable for such charges. PROVIDED, That, where the carrier has been instructed by the shipper or consignor to deliver said property to a consignee other than the shipper or consignor, such consignee shall not be legally liable for transportation charges in respect of the transportation of said property (beyond those billed against him at the time of delivery for which he is otherwise liable) which may be found to be due after the property has been delivered to him, if the consignee (a) is an agent only and has no beneficial title in said property, and (b) prior to delivery of said property has notified the delivering carrier in writing of the fact of such agency and absence of beneficial title, and, in the case of a shipment reconsigning or diverted to a point other than that specified in the original bill of lading, has also notified the delivering carrier in writing of the name and address of the beneficial owner of said property; and, in such cases the shipper or consignor, or, in the case of a shipment so reconsigning or diverted, the beneficial owner shall be liable for such additional charges. If the consignee has given to the carrier erroneous information as to who the beneficial owner is, such consignee shall himself be liable for such additional charges. Nothing herein shall limit the right of the carrier to require at time of shipment the prepayment or guarantee of the charges. If upon inspection it is ascertained that the articles shipped are not those described in this bill of lading, the freight charges must be paid upon the articles actually shipped.

**Sec. 8.** If this bill of lading is issued on the order of the shipper, or his agent, in exchange or in substitution for another bill of lading, the shipper's signature to the prior bill of lading as to the statement of value or otherwise, or election of common law or bill of lading liability, in or in connection with such prior bill of lading, shall be considered a part of this bill of lading as fully as if the same were written or made in or in connection with this bill of lading.

**Sec. 9. (a)** If all or any part of said property is carried by water over any part of said route, such water carriage shall be performed subject to all the terms and provisions of, and all the exemptions from liability contained in, the Act of the Congress of the United States, approved on February 13, 1893, and entitled "An act relating to the navigation of vessels, etc." and of other statutes of the United States according carriers by water the protection of limited liability, and to the conditions contained in this bill of lading not inconsistent therewith or with this section.

**(b)** No such carrier by water shall be liable for any loss or damage resulting from any fire happening to or on board the vessel, or from explosion, bursting of boilers or breakage of shafts, unless caused by the design or neglect of such carrier.

**(c)** If the owner shall have exercised due diligence in making the vessel in all respects seaworthy and properly manned, equipped and supplied, no such carrier shall be liable for any loss or damage resulting from the perils of the lakes, seas, or other waters, or from latent defects in hull, machinery, or appurtenances whether existing prior to, at the time of, or after sailing, or from collision, stranding, or other accidents of navigation, or from prolongation of the voyage. And, when for any reason it is necessary, any vessel carrying any or all of the property herein described shall be at liberty to call at any port or ports, in or out of the customary route, to tow and be towed, to transfer, trans-ship, or lighter, to load and discharge goods at any time, to assist vessels in distress, to deviate for the purpose of saving life or property, and for docking and repairs. Except in case of negligence such carrier shall not be responsible for any loss or damage to property if it be necessary or is usual to carry the same upon deck.

**(d)** General Average shall be payable according to the York-Antwerp Rules of 1924, Section 1 to 15, inclusive, and Sections 17 to 22, inclusive, and as to matters not covered thereby according to the laws and usages of the Port of New York. If the owners shall have exercised due diligence to make the vessel in all respects seaworthy and properly manned, equipped and supplied, it is hereby agreed that in case of danger, damage or disaster resulting from faults or errors in navigation, or in the management of the vessel, or from any latent or other defects in the vessel, her machinery or appurtenances, or from unseaworthiness, whether existing at the time of shipment or at the beginning of the voyage (provided the latent or other defects or the unseaworthiness was not discoverable by the exercise of due diligence), the shippers, consignees and/or owners of the cargo shall nevertheless pay salvage and any special charges incurred in respect of the cargo, and shall contribute with the shipowner in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred for the common benefit or to relieve the adventure from any common peril.

**(e)** If the property is being carried under a tariff which provides that any carrier or carriers party thereto shall be liable for loss from perils of the sea, then as to such carrier or carriers the provisions of this section shall be modified in accordance with the tariff provisions, which shall be regarded as incorporated into the conditions of this bill of lading.

**(f)** The term "water carriage" in this section shall not be construed as including lighterage in or across rivers, harbors, or lakes, when performed by or on behalf of carriers other than water.

**Sec. 10.** Any alteration, addition, or erasure in this bill of lading which shall be made without the special notation hereon of the agent of the carrier issuing this bill of lading, shall be without effect, and this bill of lading shall be enforceable according to its original tenor.

CONTRACT TERMS AND CONDITIONS

Sec. 1.(a) The carrier or party in possession of any of the property herein described shall be liable as at common law for any loss thereof or damage thereto, except as hereinafter provided.

(b) No carrier or party in possession of all or any of the property herein described shall be liable for any loss thereof or damage thereto or delay caused by the Act of God, the public enemy, the authority of law, or the act or default of

the shipper or owner, or for natural shrinkage. The carrier's liability shall be that of warehouseman, only, for loss, damage, or delay caused by fire occurring after the expiration of the free time (if any) allowed by tariffs lawfully on file (such free time to be computed as therein provided) after notice of the arrival of the property at destination or at the port of export (if intended for export) has been duly sent or given, and after placement of the property for delivery at destination, or tender of delivery of the property to the party entitled to receive it, has been made. Except in case of

EMERGENCY

negligence of the carrier or party in possession (and the burden to prove freedom from such negligence shall be on the carrier or party in possession), the carrier or party in possession shall not be liable for loss, damage, or delay occurring while the property is stopped and held in transit upon the request of the shipper, owner, or party, entitled to make such request, or resulting from a defect or vice in the property, or for country damage to cotton, or from riots or strikes. Except in case of carrier's negligence, no carrier or party in possession of all or any of the property herein described shall be liable for delay caused by highway obstruction, faulty or impassable highway, or lack of capacity of any highway, bridge or ferry, and the burden to prove freedom from such negligence shall be on the carrier or party in possession.

(c) In case of quarantine the property may be discharged at risk and expense of owners into quarantine depot or elsewhere, as required by quarantine regulations or authorities, or for the carrier's dispatch at nearest available point in carrier's judgement, and in any such case carrier's responsibility shall cease when property is so discharged, or property may be returned by carrier at owner's expense to shipping point, earning freight both ways. Quarantine expenses of whatever nature or kind upon or in respect to property shall be borne by the owners of the property or be in lien thereon. The carrier shall not be liable for loss or damage occasioned by fumigation or disinfection or other acts required or done by quarantine regulations or authorities even though the same may have been done by carrier's officers, agents, or employees, nor for detention, loss, or damage of any kind occasioned by quarantine or the enforcement thereof. No carrier shall be liable, except in case of negligence, for any mistake or inaccuracy in any information furnished by the carrier, its agents, or officers, as to quarantine laws or regulations. The shipper shall hold the carriers harmless from any expense they may incur, or damages they may be required to pay, by reason of the introduction of the property covered by this contract into any place against the quarantine laws or regulations in effect at such place.

**Sec. 2.(a)** No carrier is bound to transport said property by any particular schedule, train, vehicle, or vessel, or in time for any particular market or otherwise than with reasonable dispatch. Every carrier shall have the right in case of physical necessity to forward said property by any carrier or route between the point of shipment and the point of destination. In all cases not prohibited by law, where a lower value than actual value has been represented in writing by the shipper or has been agreed upon in writing as the released value of the property as determined by the classification or tariffs upon which the rate is based, such lower value plus freight charges if paid shall be the maximum amount to be recovered, whether or not such loss or damage occurs from negligence.

(b) As a condition precedent to recovery, claims must be filed in writing with the receiving or delivering carrier, or carrier issuing this bill of lading, or carrier on whose line the loss, damage, injury or delay occurred, or carrier in possession of the property when the loss, damage, injury or delay occurred, within nine months after delivery of the property (or, in the case of export traffic, within nine months after delivery at port of export) or, in case of failure to make delivery, then within nine months after a reasonable time for

delivery has elapsed; and suits shall be instituted against any carrier only within two years and one day from the day when notice in writing is given by the carrier to the claimant that the carrier has disallowed the claim or any part or parts thereof specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, no carrier shall be liable, and such claims will not be paid.

(c) Any carrier or party liable on account of loss of or damage to any of said property shall have the full benefit of any insurance that may have been effected upon or on account of said property, so far as this shall not avoid the policies or contracts of insurance: PROVIDED, That the carrier reimburse the claimant for the premium paid thereon.

**Sec. 3.** Except where such service is required as the result of carrier's negligence, all property shall be subject to necessary cooperage and baling at owner's cost. Each carrier over whose route cotton or cotton linters is to be transported hereunder shall have the privilege, at its own cost and risk, of compressing the same for greater convenience in handling or forwarding, and shall not be held responsible for deviation or unavoidable delays in procuring such compression. Grain in bulk consigned to a point where there is a railroad, public or licensed elevator, may (unless otherwise expressly noted herein, and then if it is not promptly unloaded) be there delivered, and placed with other grain of the same kind and grade without respect to ownership (and prompt notice thereof shall be given to the consignor), and if so delivered shall be subject to a lien for elevator charges in addition to all other charges hereunder.

**Sec. 4.(a)** Property not removed by the party entitled to receive it within the free time (if any) allowed by tariffs, lawfully on file (such free time to be computed as therein provided), after notice of the arrival of the property at destination or at the port of export (if intended for export) has been duly sent or given, and after placement of the property for delivery at destination has been made, or property not received, at time tender of delivery of the property to the party entitled to receive it has been made, may be kept in vessel, vehicle, car, depot, warehouse or place of business of the carrier, subject to the tariff charge for storage and to carrier's responsibility as warehouseman, only, or at the option of the carrier, may be removed to and stored in a public or licensed warehouse at the point of delivery or at other available point, or if no such warehouse is available at point of delivery or at other available point, then in other available storage facility; at cost of the owner, and there held without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges, including a reasonable charge for storage. In the event consignee cannot be found at address given for delivery, then in that event, notice of the placing of such goods in warehouse shall be mailed to the address given for delivery and mailed to any other address given on the bill of lading for notification, showing the warehouse in which such property has been placed, subject to the provisions of this paragraph.

(b) Where nonperishable property which has been transported to destination hereunder is refused by consignee or the party entitled to receive it upon tender of delivery, or said consignee or party entitled to receive it fails to receive or claim it within 15 days after notice of arrival shall have been duly sent or given, the carrier may sell the same at

public auction to the highest bidder, at such place as may be designated by the carrier.

**PROVIDED**, That the carrier shall have first mailed, sent, or given to the consignor notice that the property has been refused or remains unclaimed, as the case may be, and that it will be subject to sale under the terms of the bill of lading if disposition be not arranged for, and shall have published notice containing a description of the property, the name of the party to whom consigned, or, if shipped order notify, the name of the party to be notified, and the time and place of sale, once a week for two successive weeks, in a newspaper of general circulation at the place of sale or nearest place where such newspaper is published. **PROVIDED**, That 30 days shall have elapsed before publication of notice of sale after said notice that the property was refused or remains unclaimed was mailed, sent or given.

(c) Where perishable property which has been transported hereunder to destination is refused by consignee or party entitled to receive it, or said consignee or party entitled to receive it shall fail to receive it promptly, the carrier, may, in its discretion, to prevent deterioration or further deterioration, sell the same to the best advantage at private or public sale: **PROVIDED**, That if time serves for notification to the consignor or owner the refusal of the property or the failure to receive it and request for disposition of the property, such notification shall be given, in such manner as the exercise of due diligence requires, before the property is sold.

(d) Where the procedure provided for in the two paragraphs last preceding is not possible, it is agreed that nothing contained in said paragraphs shall be constituted to abridge the right of the carrier at its option to sell the property under such circumstances and in such manner as may be authorized by law.

(e) The proceeds of any sale made under this section shall be applied by the carrier to the payment of freight, demurrage, storage, and any other lawful charges and the expense of notice, advertisement, sale, and other necessary expense and of caring for and maintaining the property, if proper care of same requires special expense, and should there be a balance it shall be paid to the owner of the property sold hereunder.

(f) Property destined to or taken from a station, wharf, landing or other place at which there is no regularly appointed freight agent, shall be entirely at risk of owner after unloaded from cars, vehicles or vessels or until loaded into cars, vehicles, or vessels, and, except in case of carrier's negligence, when received from or delivered to such stations, wharfs, landings, or other places, shall be at owner's risk until the cars are attached to and after they are detached from locomotive or train or until loaded into and after unloaded from vessels, or if property is transported in motor vehicle trailers or semi-trailers, until such trailers or semi-trailers are attached to and after they are detached from power units. Where a carrier is directed to unload or deliver property transported by motor vehicle at a particular location where consignee or consignee's agent is not regularly located, the risk after unloading, or delivery, shall be that of the owner.

**Sec. 5.** No carrier hereunder will carry or be liable in any way for any documents, specie, or for any articles of extraordinary value not specifically rated in the published

classifications or tariffs unless a special agreement to do so and a stipulated value of the articles are endorsed hereon.

**Sec. 6.** Every party, whether principal or agent, shipping explosives or dangerous goods, without previous full written disclosure to the carrier of their nature, shall be liable for and indemnify the carrier against all loss or damage caused by such goods, and such goods may be warehoused at owner's risk and expense or destroyed without compensation.

**Sec. 7.** The owner or consignee shall pay the freight and average, if any, and all other lawful charges accruing on said property; but, except in those instances where it may lawfully be authorized to do so, no carrier shall deliver or relinquish possession at destination of the property covered by this bill of lading until all tariff rates and charges thereon have been paid. The consignor shall be liable for the freight and all other lawful charges, except that if the consignor stipulates, by signature, in the space provided for that purpose on the face of this bill of lading that the carrier shall not make delivery without requiring payment of such charges, and the carrier, contrary to such stipulation shall make delivery without requiring such payment, the consignor (except as hereinafter provided) shall not be legally liable for such charges. **PROVIDED**, That, where the carrier has been instructed by the shipper or consignor to deliver said property to a consignee other than the shipper or consignor, such consignee shall not be legally liable for transportation charges in respect of the transportation of said property (beyond those billed against him at the time of delivery for which he is otherwise liable) which may be found to be due after the property has been delivered to him, if the consignee (a) is an agent only and has no beneficial title in said property, and (b) prior to delivery of said property has notified the delivering carrier in writing of the fact of such agency and absence of beneficial title, and, in the case of a shipment reconsigned or diverted to a point other than that specified in the original bill of lading, has also notified the delivering carrier in writing of the name and address of the beneficial owner of said property; and, in such cases the shipper or consignor, or, in the case of a shipment so reconsigned or diverted, the beneficial owner shall be liable for such additional charges. If the consignee has given to the carrier erroneous information as to who the beneficial owner is, such consignee shall himself be liable for such additional charges. Nothing herein shall limit the right of the carrier to require at time of shipment the prepayment or guarantee of the charges. If upon inspection it is ascertained that the articles shipped are not those described in this bill of lading, the freight charges must be paid upon the articles actually shipped.

**Sec. 8.** If this bill of lading is issued on the order of the shipper, or his agent, in exchange or in substitution for another bill of lading, the shipper's signature to the prior bill of lading as to the statement of value or otherwise, or election of common law or bill of lading liability, in or in connection with such prior bill of lading, shall be considered a part of this bill of lading as fully as if the same were written or made in or in connection with this bill of lading.

**Sec. 9. (a)** If all or any part of said property is carried by water over any part of said route, such water carriage shall be performed subject to all the terms and provisions of, and all the exemptions from liability contained in, the Act of

the Congress of the United States, approved on February 13, 1893, and entitled "An act relating to the navigation of vessels, etc." and of other statutes of the United States according carriers by water the protection of limited liability, and to the conditions contained in this bill of lading not inconsistent therewith or with this section.

(b) No such carrier by water shall be liable for any loss or damage resulting from any fire happening to or on board the vessel, or from explosion, bursting of boilers or breakage of shafts, unless caused by the design or neglect of such carrier.

(c) If the owner shall have exercised due diligence in making the vessel in all respects seaworthy and properly manned, equipped and supplied, no such carrier shall be liable for any loss or damage resulting from the perils of the lakes, seas, or other waters, or from latent defects in hull, machinery, or appurtenances whether existing prior to, at the time of, or after sailing, or from collision, stranding, or other accidents of navigation, or from prolongation of the voyage. And, when for any reason it is necessary, any vessel carrying any or all of the property herein described shall be at liberty to call at any port or ports, in or out of the customary route, to tow and be towed, to transfer, trans-ship, or lighter, to load and discharge goods at any time, to assist vessels in distress, to deviate for the purpose of saving life or property, and for docking and repairs. Except in case of negligence such carrier shall not be responsible for any loss or damage to property if it be necessary or is usual to carry the same upon deck.

(d) General Average shall be payable according to the York-Antwerp Rules of 1924, Section 1 to 15, inclusive, and Sections 17 to 22, inclusive, and as to matters not covered thereby according to the laws and usages of the Port of New York. If the owners shall have exercised due diligence to make the vessel in all respects seaworthy and properly manned, equipped and supplied, it is hereby agreed that in case of danger, damage or disaster resulting from faults or errors in navigation, or in the management of the vessel, or from any latent or other defects in the vessel, her machinery or appurtenances, or from unseaworthiness, whether existing at the time of shipment or at the beginning of the voyage (provided the latent or other defects or the unseaworthiness was not discoverable by the exercise of due diligence), the shippers, consignees and/or owners of the cargo shall nevertheless pay salvage and any special charges incurred in respect of the cargo, and shall contribute with the shipowner in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred for the common benefit or to relieve the adventure from any common peril.

(e) If the property is being carried under a tariff which provides that any carrier or carriers party thereto shall be liable for loss from perils of the sea, then as to such carrier or carriers the provisions of this section shall be modified in accordance with the tariff provisions, which shall be regarded as incorporated into the conditions of this bill of lading.

(f) The term "water carriage" in this section shall not be construed as including lighterage in or across rivers, harbors, or lakes, when performed by or on behalf of carriers other than water.

**Sec. 10.** Any alteration, addition, or erasure in this bill of lading which shall be made without the special notation

hereon of the agent of the carrier issuing this bill of lading, shall be without effect, and this bill of lading shall be enforceable according to its original tenor.

This Memorandum is an acknowledgement that a Bill of Lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record. Shipper's No.

CONTRACT TERMS AND CONDITIONS

Sec. 1.(a) The carrier or party in possession of any of the property herein described shall be liable as at common law for any loss thereof or damage thereto, except as hereinafter provided. (b) No carrier or party in possession of all or any of the property herein described shall be liable for any loss thereof or damage thereto or delay caused by the Act of God, the

public enemy, the authority of law, or the act or default of the shipper or owner, or for natural shrinkage. The carrier's liability shall be that of warehouseman, only, for loss, damage, or delay caused by fire occurring after the expiration of the free time (if any) allowed by tariffs lawfully on file (such free time to be computed as therein provided) after notice of the arrival of the property at destination or at the port of export (if intended for export) has been duly sent or

given, and after placement of the property for delivery at destination, or tender of delivery of the property to the party entitled to receive it, has been made. Except in case of negligence of the carrier or party in possession (and the burden to prove freedom from such negligence shall be on the carrier or party in possession), the carrier or party in possession shall not be liable for loss, damage, or delay occurring while the property is stopped and held in transit upon the request of the shipper, owner, or party, entitled to make such request, or resulting from a defect or vice in the property, or for country damage to cotton, or from riots or strikes. Except in case of carrier's negligence, no carrier or party in possession of all or any of the property herein described shall be liable for delay caused by highway obstruction, faulty or impassable highway, or lack of capacity of any highway, bridge or ferry, and the burden to prove freedom from such negligence shall be on the carrier or party in possession.

(c) In case of quarantine the property may be discharged at risk and expense of owners into quarantine depot or elsewhere, as required by quarantine regulations or authorities, or for the carrier's dispatch at nearest available point in carrier's judgement, and in any such case carrier's responsibility shall cease when property is so discharged, or property may be returned by carrier at owner's expense to shipping point, earning freight both ways. Quarantine expenses of whatever nature or kind upon or in respect to property shall be borne by the owners of the property or be in lien thereon. The carrier shall not be liable for loss or damage occasioned by fumigation or disinfection or other acts required or done by quarantine regulations or authorities even though the same may have been done by carrier's officers, agents, or employees, nor for detention, loss, or damage of any kind occasioned by quarantine or the enforcement thereof. No carrier shall be liable, except in case of negligence, for any mistake or inaccuracy in any information furnished by the carrier, its agents, or officers, as to quarantine laws or regulations. The shipper shall hold the carriers harmless from any expense they may incur, or damages they may be required to pay, by reason of the introduction of the property covered by this contract into any place against the quarantine laws or regulations in effect at such place.

**Sec. 2.(a)** No carrier is bound to transport said property by any particular schedule, train, vehicle, or vessel, or in time for any particular market or otherwise than with reasonable dispatch. Every carrier shall have the right in case of physical necessity to forward said property by any carrier or route between the point of shipment and the point of destination. In all cases not prohibited by law, where a lower value than actual value has been represented in writing by the shipper or has been agreed upon in writing as the released value of the property as determined by the classification or tariffs upon which the rate is based, such lower value plus freight charges if paid shall be the maximum amount to be recovered, whether or not such loss or damage occurs from negligence.

(b) As a condition precedent to recovery, claims must be filed in writing with the receiving or delivering carrier, or carrier issuing this bill of lading, or carrier on whose line the loss, damage, injury or delay occurred, or carrier in possession of the property when the loss, damage, injury or delay occurred, within nine months after delivery of the property

(or, in the case of export traffic, within nine months after delivery at port of export) or, in case of failure to make delivery, then within nine months after a reasonable time for delivery has elapsed; and suits shall be instituted against any carrier only within two years and one day from the day when notice in writing is given by the carrier to the claimant that the carrier has disallowed the claim or any part or parts thereof specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, no carrier shall be liable, and such claims will not be paid.

(c) Any carrier or party liable on account of loss of or damage to any of said property shall have the full benefit of any insurance that may have been effected upon or on account of said property, so far as this shall not avoid the policies or contracts of insurance: PROVIDED, That the carrier reimburse the claimant for the premium paid thereon.

**Sec. 3.** Except where such service is required as the result of carrier's negligence, all property shall be subject to necessary coeprage and baling at owner's cost. Each carrier over whose route cotton or cotton linters is to be transported hereunder shall have the privilege, at its own cost and risk, of compressing the same for greater convenience in handling or forwarding, and shall not be held responsible for deviation or unavoidable delays in procuring such compression. Grain in bulk consigned to a point where there is a railroad, public or licensed elevator, may (unless otherwise expressly noted herein, and then if it is not promptly unloaded) be there delivered, and placed with other grain of the same kind and grade without respect to ownership (and prompt notice thereof shall be given to the consignor), and if so delivered shall be subject to a lien for elevator charges in addition to all other charges hereunder.

**Sec. 4.(a)** Property not removed by the party entitled to receive it within the free time (if any) allowed by tariffs, lawfully on file (such free time to be computed as therein provided), after notice of the arrival of the property at destination or at the port of export (if intended for export) has been duly sent or given, and after placement of the property for delivery at destination has been made, or property not received, at time tender of delivery of the property to the party entitled to receive it has been made, may be kept in vessel, vehicle, car, depot, warehouse or place of business of the carrier, subject to the tariff charge for storage and to carrier's responsibility as warehouseman, only, or at the option of the carrier, may be removed to and stored in a public or licensed warehouse at the point of delivery or at other available point, or if no such warehouse is available at point of delivery or at other available point, then in other available storage facility; at cost of the owner, and there held without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges, including a reasonable charge for storage. In the event consignee cannot be found at address given for delivery, then in that event, notice of the placing of such goods in warehouse shall be mailed to the address given for delivery and mailed to any other address given on the bill of lading for notification, showing the warehouse in which such property has been placed, subject to the provisions of this paragraph.

(b) Where nonperishable property which has been transported to destination hereunder is refused by consignee or the party entitled to receive it upon tender of delivery, or

said consignee or party entitled to receive it fails to receive or claim it within 15 days after notice of arrival shall have been duly sent or given, the carrier may sell the same at public auction to the highest bidder, at such place as may be designated by the carrier.

**PROVIDED**, That the carrier shall have first mailed, sent, or given to the consignor notice that the property has been refused or remains unclaimed, as the case may be, and that it will be subject to sale under the terms of the bill of lading if disposition be not arranged for, and shall have published notice containing a description of the property, the name of the party to whom consigned, or, if shipped order notify, the name of the party to be notified, and the time and place of sale, once a week for two successive weeks, in a newspaper of general circulation at the place of sale or nearest place where such newspaper is published. **PROVIDED**, That 30 days shall have elapsed before publication of notice of sale after said notice that the property was refused or remains unclaimed was mailed, sent or given.

(c) Where perishable property which has been transported hereunder to destination is refused by consignee or party entitled to receive it, or said consignee or party entitled to receive it shall fail to receive it promptly, the carrier, may, in its discretion, to prevent deterioration or further deterioration, sell the same to the best advantage at private or public sale: **PROVIDED**, That if time serves for notification to the consignor or owner the refusal of the property or the failure to receive it and request for disposition of the property, such notification shall be given, in such manner as the exercise of due diligence requires, before the property is sold.

(d) Where the procedure provided for in the two paragraphs last preceding is not possible, it is agreed that nothing contained in said paragraphs shall be constituted to abridge the right of the carrier at its option to sell the property under such circumstances and in such manner as may be authorized by law.

(e) The proceeds of any sale made under this section shall be applied by the carrier to the payment of freight, demurrage, storage, and any other lawful charges and the expense of notice, advertisement, sale, and other necessary expense and of caring for and maintaining the property, if proper care of same requires special expense, and should there be a balance it shall be paid to the owner of the property sold hereunder.

(f) Property destined to or taken from a station, wharf, landing or other place at which there is no regularly appointed freight agent, shall be entirely at risk of owner after unloaded from cars, vehicles or vessels or until loaded into cars, vehicles, or vessels, and, except in case of carrier's negligence, when received from or delivered to such stations, wharfs, landings, or other places, shall be at owner's risk until the cars are attached to and after they are detached from locomotive or train or until loaded into and after unloaded from vessels, or if property is transported in motor vehicle trailers or semi-trailers, until such trailers or semi-trailers are attached to and after they are detached from power units. Where a carrier is directed to unload or deliver property transported by motor vehicle at a particular location where consignee or consignee's agent is not regularly located, the risk after unloading, or delivery, shall be that of the owner.

**Sec. 5.** No carrier hereunder will carry or be liable in any way for any documents, specie, or for any articles of extraordinary value not specifically rated in the published classifications or tariffs unless a special agreement to do so and a stipulated value of the articles are endorsed hereon.

**Sec. 6.** Every party, whether principal or agent, shipping explosives or dangerous goods, without previous full written disclosure to the carrier of their nature, shall be liable for and indemnify the carrier against all loss or damage caused by such goods, and such goods may be warehoused at owner's risk and expense or destroyed without compensation.

**Sec. 7.** The owner or consignee shall pay the freight and average, if any, and all other lawful charges accruing on said property; but, except in those instances where it may lawfully be authorized to do so, no carrier shall deliver or relinquish possession at destination of the property covered by this bill of lading until all tariff rates and charges thereon have been paid. The consignor shall be liable for the freight and all other lawful charges, except that if the consignor stipulates, by signature, in the space provided for that purpose on the face of this bill of lading that the carrier shall not make delivery without requiring payment of such charges, and the carrier, contrary to such stipulation shall make delivery without requiring such payment, the consignor (except as hereinafter provided) shall not be legally liable for such charges. **PROVIDED**, That, where the carrier has been instructed by the shipper or consignor to deliver said property to a consignee other than the shipper or consignor, such consignee shall not be legally liable for transportation charges in respect of the transportation of said property (beyond those billed against him at the time of delivery for which he is otherwise liable) which may be found to be due after the property has been delivered to him, if the consignee (a) is an agent only and has no beneficial title in said property, and (b) prior to delivery of said property has notified the delivering carrier in writing of the fact of such agency and absence of beneficial title, and, in the case of a shipment reconsigned or diverted to a point other than that specified in the original bill of lading, has also notified the delivering carrier in writing of the name and address of the beneficial owner of said property; and, in such cases the shipper or consignor, or, in the case of a shipment so reconsigned or diverted, the beneficial owner shall be liable for such additional charges. If the consignee has given to the carrier erroneous information as to who the beneficial owner is, such consignee shall himself be liable for such additional charges. Nothing herein shall limit the right of the carrier to require at time of shipment the prepayment or guarantee of the charges. If upon inspection it is ascertained that the articles shipped are not those described in this bill of lading, the freight charges must be paid upon the articles actually shipped.

**Sec. 8.** If this bill of lading is issued on the order of the shipper, or his agent, in exchange or in substitution for another bill of lading, the shipper's signature to the prior bill of lading as to the statement of value or otherwise, or election of common law or bill of lading liability, in or in connection with such prior bill of lading, shall be considered a part of this bill of lading as fully as if the same were written or made in or in connection with this bill of lading.

**Sec. 9. (a)** If all or any part of said property is carried by water over any part of said route, such water carriage shall be performed subject to all the terms and provisions of, and all the exemptions from liability contained in, the Act of the Congress of the United States, approved on February 13, 1893, and entitled "An act relating to the navigation of vessels, etc." and of other statutes of the United States according carriers by water the protection of limited liability, and to the conditions contained in this bill of lading not inconsistent therewith or with this section.

**(b)** No such carrier by water shall be liable for any loss or damage resulting from any fire happening to or on board the vessel, or from explosion, bursting of boilers or breakage of shafts, unless caused by the design or neglect of such carrier.

**COMMISSION**

[Filed December 30, 1994, 3:05 p.m., effective January 1, 1995]

Date of Adoption: December 2, 1994.

Purpose: To delete specific campsite reservation season dates and empower the commission to establish those dates as needed.

Citation of Existing Rules Affected by this Order:  
Amending WAC 352-32-035.

Statutory Authority for Adoption: RCW 43.51.040(2).

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: WAC 352-32-035 Campsite reservation, establishes reservation parks, seasons and program rules. This amendment eliminates specific reservation season dates, allowing the commission to establish dates for the public to make campsite reservations for an expanded season beginning January 1, 1995.

Effective Date of Rule: January 1, 1995.

(5) Reservations may be made in person on or after April 1 at the park where camping is to occur.

(6) There will be a \$5.00 nonrefundable fee charged for each reservation made at each park, in addition to the standard campsite fee, regardless of the number of days reserved. Payment of the nonrefundable reservation fee and first night's camping fee must accompany the reservation request.

**FISH AND WILDLIFE**  
**COMMISSION**

[Order 94-180—Filed December 30, 1994, 3:59 p.m., January 3, 1995,  
12:01 a.m.]

Date of Adoption: December 30, 1994.

Purpose: Emergency changes to the 1995 Winter steelhead fishing regulations.

Citation of Existing Rules Affected by this Order: Amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.040.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Item 1: The wild steelhead escapement in 1994 was 1,782; 218 fish below the escape-

ment goal of 2,000. The 1995 wild runsize is also predicted to be low (1869). The January 3rd wild steelhead release regulations will protect wild spawners, while allowing hatchery steelhead to be harvested. The tribal net fishery will not extend past January 6, 1995.

Items 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12: The harvestable numbers of wild fish in these streams are predicted to be taken by December 31. Wild fish harvest needs to be restricted beginning January 3rd to ensure that the escapement goal is met. The January 3rd wild steelhead regulation takes into consideration hooking mortality on caught and released wild fish and will allow hatchery steelhead to be harvested through the respective time period for each particular stream in the Snohomish River system.

Item 13: The wild steelhead run is predicted to be below escapement requirements for this season and the harvest of wild fish must be restricted. The 1994 escapement in the Nisqually River was less than one-half (804) of the 2,000 fish escapement goal. The river has been underescapement four out of the last five years. There are no hatchery steelhead smolts planted in the Nisqually River, therefore no hatchery winter steelhead fishery exists.

Item 14: The predicted wild runsize for 1994-95 is expected to be between 8,000 and 10,300. WDFW and the Skagit River tribes (Skagit Cooperative) are currently evaluating the Skagit River system's wild steelhead escapement goal. Until the escapement goal is finalized (in 1995), both parties have agreed that a 16 percent combined harvest rate will be used for harvest management planning. In an effort not to exceed the 16 percent harvest rate, the tribal fishery will end during statistical week 8 (2/19 to 2/25) and the sport fishery will need to go to wild steelhead release regulations on March 1, 1995. The hatchery steelhead sport fishery will proceed uninterrupted.

Item 15: The harvestable numbers of wild fish are predicted to be taken February 28th. Wild fish harvest needs to be restricted beginning March 1st to ensure the escapement goal is met. The March 1st wild steelhead regulation takes into consideration hooking mortality on caught and released wild fish and will allow hatchery steelhead to be harvested.

Item 16: If the entire Hoh River is left open, the harvestable wild steelhead sport allocation will be taken by March 26, 1995. By closing the Hoh River above Highway 101, the sport fishery will be able to continue through April 15, 1995.

Items 17 and 18: The predicted wild runsize for 1994-95 is 2107, with an interim wild escapement goal of 2,000 fish. The wild fish sport harvest is estimated to be 20 fish through December 31, 1994. The tribal harvest of wild fish is estimated to be 128. The combined sport and tribal harvest is not expected to exceed seven percent under the proposed fishing plans. The interim escapement goal (2,000) will be used until WDFW, Puyallup and Muckleshoot tribes can agree on a system-wide wild escapement goal. The escapement goal is anticipated to be finalized during 1995. The hatchery steelhead sport fishery will proceed uninterrupted.

Items 19 and 20: The Chehalis River system wild steelhead escapement in 1994 was 8,391; 209 fish below the goal of 8,600. The 1994-95 wild winter steelhead runsize is predicted to be 9,459 fish, allowing a harvestable wild on

only 949 fish. The 949 wild harvestable number will be shared by sport anglers and fishermen from the Quinault and Chehalis tribes. The proposed wild steelhead release regulations will allow sport anglers to harvest hatchery fish and have a wild fish harvest and hooking mortality of 400 fish. The goal of the regulation is to get more wild fish to the underescaped upper basin. Lower basin tributaries are exceeding their escapement goals. Wild winter steelhead release regulations are currently in effect on the Satsop, Skookumchuck and Newaukum rivers due to chronically low escapement numbers.

Purpose: Amend personal use rules.  
Citation of Existing Rules Affected by this Order: Amending WAC 220-56-191.

Statutory Authority for Adoption: RCW 75.08.080.

**COUNTIES—COUNTY TREASURERS—NOXIOUS WEED CONTROL BOARDS—MOSQUITO CONTROL BOARDS—**Authority of county treasurers to collect service charges for special assessments

1. County treasurers are authorized to collect a service fee for collecting "special assessments, fees, rates, or charges" as defined in RCW 36.29.180, but not for general taxes.
2. Mosquito control district assessments authorized under RCW 17.28.255 are "special assessments, fees, rates, or

charges" and a county treasurer may charge the district a service fee for collecting such assessments.

3. Assessments levied by a county legislative authority for noxious weed control under RCW 17.10.240 do not constitute "special assessments, fees, rates, or charges" under RCW 36.29.180, because they are levied by the county itself and not by a special district; therefore, the county treasurer has no authority to charge a service fee for collecting such assessments.
4. RCW 43.09.210, which generally requires that one local or state agency or fund be compensated for services performed for another, is superseded by more specific statutes for purposes of determining a county treasurer's authority to charge service fees for tax and assessment collection and related services.

Senator Betty Sheldon, Chair  
 Joint Administrative Rules Review Committee  
 207 John L. O'Brien Building

Re: JARRC review of Board of Optometry policy statements and guidelines

Dear Senator Sheldon:

On November 24th, 1994, the Governor received a letter from Senator Ludwig concerning JARRC review as noted above. The Governor has directed me to respond.

Senator Ludwig, on behalf of the committee, submitted his letter "in accordance with RCW 34.05.640 (2)(3)." The letter concluded as follows: "We recommend that you direct the board of optometry to proceed through the appropriate public process or in the alternative, that you require specific justification from the board for its failure to do so."

RCW 34.05.640 (2) and (3) addresses rules, policy statements and issuances by agencies. However, the Governor's involvement under 34.05.640(3) is limited to the approval or disapproval of a committee recommended suspension of an existing rule. The present situation addresses a committee recommendation concerning policy statements and guidelines. Therefore, it is not within the Governor's purview to act upon the committee's recommendation under the Administrative Procedures Act.

This being said, the Governor appreciates the committee's concern over the gravity of a situation they believe to enlarge optometrists' scope of practice. The Governor recognizes the need for boards to make judicious use of rules generally. However, they must properly consider the likelihood of controversy, misinterpretation and effects on an overall practice area when deciding between handing down rules as opposed to policy statements or guidelines.

Notwithstanding the fact that the Governor can make no formal reversal or approval of the board's decision in this instance, this is not to be interpreted as a signal to avoid committee review through the use of lesser policy statements. Although the legislature has specifically limited gubernatorial approval or disapproval to committee recommended rule suspensions, boards must be diligent in main-

taining an open public process and wisely fulfill their responsibilities through appropriate levels of review and action.

The Governor has been assured by the Department of Health that the Board of Optometry and other health professional licensing boards located within the department will receive enhanced guidance in the area of policy versus rule decisions. While this does not assure or even suggest that the board will make any change to their previous decisions in this matter, the Governor is confident the department's efforts and his message in this letter will serve as notice to the Board of Optometry and like boards of his concerns and expectations.

The Governor wishes you well in your new role as Chair. I would like to add my congratulations and best wishes as well. If I can be of any further assistance in this or any regard, do not hesitate to contact me.

Respectfully,  
Kent Caputo  
Legal Counsel

**DEPARTMENT OF ECOLOGY**  
 [Filed January 3, 1995, 11:06 a.m.]

The Washington State Department of Ecology will be conducting a public hearing on February 8, 1995, at Ecology's Northwest Regional Office, 3190 160th Avenue S.E., Room 1B, Bellevue, WA at 2:00 p.m. The department is conducting the hearing to solicit comment on proposed revisions to the state implementation plans (SIPs) for the Seattle Duwamish and Tacoma tideflats particulate matter (PM-10) nonattainment areas.

Federally enforceable emission limits for certain industrial facilities and demonstrations of attainment of the PM-10 standard are being adopted into the SIPs. These measures will then be submitted to the United States Environmental

Protection Agency (EPA) to fulfill conditions for approval of the SIPs. Also, a Puget Sound Air Pollution Control Agency (PSAPCA) rule is being included in the SIPs as a contingency measure. The rule prohibits the use of uncertified woodstoves if EPA determines, in consultation with ecology and PSAPCA, that woodstoves contribute to a violation of the PM-10 standard.

Interested persons may provide oral comments at the hearings. For ecology's purposes, comments must be limited to the inclusion of the proposed revisions into the state implementation plan. Written comments are encouraged and will be considered if postmarked no later than February 9, 1995, and should be sent to Doug Schneider, Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600, (206) 407-6874.

For information on the SIP submittal, or for a copy of the draft document prior to the hearings, please contact Doug Schneider at (206) 407-6874.

THE WASHINGTON STATE REGISTER, published under RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards that have been filed in the code reviser's office before the closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper issue of the Register.

The code reviser's office has established an annual subscription price of \$175 for a Register subscription, and single copies cost \$7.50. Sales tax of 7.9% applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$188.83 (\$175 for state agencies) payable to the code reviser's office.
