

STATE OF WASHINGTON  
DEPARTMENT OF AGRICULTURE  
OLYMPIA

ORDER NO. 964

Effective March 29, 1965

REGULATIONS PERTAINING TO THE USE OF DESICCANTS AND  
DEFOLIANTS IN WALLA WALLA COUNTY

I, Cameron S. Adams, Acting Director of Agriculture, of the State of Washington, by virtue of the authority vested in me under Chapters 17.21 and 15.57 RCW, after due notice as provided under Chapters 34.04 and 42.32 RCW, and a public hearing held in Walla Walla, February 5, 1965, do hereby promulgate the following regulations relating to the restricted use of desiccants and defoliants.

Regulation 1. Restricted Use Pesticides: All desiccants and defoliants including but not limited to 6,7-dihydrodipyrido (1,2-a:2',1'-c) pyrazidiinium dibromide, herein and commonly referred to as Diquat; Disodium 3,6 endoxohexahydrophthalate, herein and commonly referred to as Disodium Endothall; Mono (N,N dimethylalkylamine) salt of 3,6-endoxohexahydrophthalic acid, herein and commonly referred to as the amine salt of Endothall; Dinitro-o-sec-butylphenol, herein and commonly referred to as Dinitro; are by this order declared to be restricted use pesticides. All such pesticides are restricted in their use in Walla Walla County of the State of Washington.

Regulation 2. Area Subject to this Order: All of Walla Walla County.

Regulation 3. (Restrictions) Aircraft applications of the restricted use pesticides in Regulation 1 are prohibited on field crops between the hours of 5:00 p.m. and 5:00 a.m. during the months of August, September, and October of each year.

Ground applications of the restricted use pesticides in Regulation 1 are prohibited on field crops between 5:00 p.m. and 3:00 a.m. during the months of August, September, and October of each year: Provided, That Disodium Endothall shall not be restricted as to time if applied by ground equipment equipped with nozzles having a minimum orifice diameter of 0.043 inches and using a pressure not exceeding 35 pounds per square inch at the nozzles.

Restricted use pesticides shall not be applied if weather conditions, such as excess wind velocity or inversion, are such that damage normally would occur to adjacent and nearby susceptible crops and plantings through physical drift.

I hereby certify that the foregoing is a true and correct copy of the regulations promulgated by the Department of Agriculture.

  
Cameron S. Adams  
Acting Director of Agriculture  
State of Washington
