

Resolution No. 65-3

A RESOLUTION relating to Regulation pertaining to Licenses issued by the Weather Modification Board.

BE IT RESOLVED BY THE WEATHER MODIFICATION BOARD, STATE OF WASHINGTON:

Section 1. The Weather Modification Board of the State of Washington, by virtue of authority vested in it under RCW 43.37.030 and 43.37.100, after due notice and public hearing held in Seattle, Washington, on February 11, 1965, (as provided in Chapters 34.04 RCW and 42.32 RCW) promulgates the following regulation as set forth in Section 2 hereof.

Section 2. Regulation .100. No license authorized by RCW 43.37.100 shall be issued to any applicant, or, if the applicant is an organization, then the individual or individuals who will be in control and in charge of the weather modification and control activities, unless the applicant is a certified professional member of the American Meteorological Society or possesses the academic achievement and professional experience necessary to receive such certification except that a restricted license may be issued to an applicant whose weather modification activities are limited solely to those designed to disperse fog over airports or other aircraft landing facilities having United States Department of Commerce Weather Bureau meteorologist or meteorologists of the armed forces of the United States on duty at all times, and if in the carrying out of the said dispersal of the fog, the applicant is fully advised of the pertinent weather information by the meteorologist on duty and if the applicant is the holder of a current Commercial Pilot's Certificate with instrument rating issued by the Federal Aviation Agency.

APPROVED AND ADOPTED by the Weather Modification Board this 11th day of February, 1965.

In Witness Whereof, I have hereunto set my hand and affixed the seal of the Weather Modification Board.

Resolution No. 65-2

A RESOLUTION Relating to a regulation exempting certain weather modification and control activities from the license and permit requirements of Chapter 43.37 RCW.

BE IT RESOLVED BY THE WEATHER MODIFICATION BOARD, STATE OF WASHINGTON:

Section 1. The Weather Modification Board of the State of Washington, by virtue of authority vested in it under RCW 43.37.030 and 43.37.090, after due notice and public hearing held in Seattle, Washington, on February 11, 1965, (as provided in Chapters 34.04 RCW and 42.32 RCW) promulgates the following regulation as set forth in Section 2 hereof.

Section 2. Regulation .090. The following weather modification and control activities shall be exempt from the license requirements of RCW 43.37.100, the permit requirements of RCW 43.37.110, and the liability requirements of RCW 43.37.150.

- A. All research and experiments relating to weather modification control conducted within laboratories.
- B. Those weather modification operations designed to alleviate sudden, unexpected, hazardous conditions which require expeditious localized action for:
  1. Protection against fire.
  2. Prevention of frost.
  3. Dispersal of fog.
- C. Any person proposing to conduct weather modification and control activities, as described in Section 2-B, shall make every reasonable effort prior thereto to notify the Board office at Olympia of the type of activity to be carried out, the person carrying out the activity, and the materials and technique of application to be used.
