Background: Appropriation authority is required for the expenditure of state funds. State government operates on the basis of a fiscal biennium that begins on July 1 of each odd-numbered year. A biennial transportation budget was enacted in the 1995 session to fund transportation agencies and programs from July 1, 1995 to June 30, 1997.

The Governor signed into law the 1995-97 transportation budget totaling just under \$3.117 billion of appropriations from over 30 different funds and accounts.

Two-thirds of the moneys appropriated in the transportation budget are for capital programs, and one-third is for operating programs of the transportation agencies.

The motor vehicle fund is the primary funding source of transportation programs, providing for 45 percent, or \$1.4 billion, of transportation appropriations in the 1995-97 transportation budget.

The Legislature provided fiscal year 1996 (FY 96)-only funding for several transportation agencies' programs.

Summary of Bill: Appropriation authority of the transportation agencies is increased by \$152.1 million for the remainder of the 1995-97 biennium. This proposed substitute bill would appropriate \$152.1 million to nine state agencies: the Department of Transportation (\$79.0 million), the Transportation Improvement Board (\$34.8 million), the County Road Administration Board (\$15.0 million), the Department of Licensing (\$14.4 million), the State Patrol (\$8.3 million), the Legislative Transportation Committee (\$300,000), the Legislative Evaluation and Accountability Program (\$205,000), the Transportation Commission (\$87,000), and the Department of Ecology (\$25,000).

Appropriation: \$152.1 million.

Fiscal Note: Not requested.

Effective Date: The bill contains an emergency clause and takes effect immediately.
