Background: Provisions are established relating to elections by mail in small precincts.

Existing law allows a county auditor to conduct the voting in a precinct by mail ballot for any primary or election, general or special, if that precinct has fewer than 200 active registered voters at the time of closing of voter registration.

Summary of Substitute Bill: The proposed legislation amends existing law allowing a county auditor to conduct the voting in a precinct by mail ballot for any primary or election, if that precinct has fewer than 200 active registered voters at the time of closing of voter registration and if the county has a population of less than 500,000.

In a county with a population of 500,000 or more, the auditor may conduct the voting by mail ballot in a precinct, if that precinct has fewer than 100 active registered voters.

A special election in which candidates for partisan office are to be voted upon shall not be conducted by mail ballot in any precinct with 200 or more active registered voters, or 100 or more active registered voters in a county with a population of 500,000 or more.

If a registered voter in a small precinct requests to vote at a normal polling place in a nearby precinct rather than by mailed ballot, then the county auditor shall assign the voter to vote at a normal polling place in another nearby precinct.

Substitute Bill Compared to Original Bill: The substitute bill allows voters in a small precinct to vote in another precinct if the auditor chooses to use only mailed ballots for their small precinct.

Appropriation: None.

Fiscal Note: Not requested.

Effective Date of Substitute Bill: Ninety days after adjournment of session in which bill is passed.

Testimony Against: None.
