Testimony For: (Original Bill) The bill originated out of discussions between the Department of Corrections and the Department of Social and Health Services regarding identifying means of preventing child abuse. The bill excludes a small group of employees from the reporting requirement. This group probably includes employees such as maintenance personnel, headquarters staff, and various secretaries. Department of Corrections personnel are not opposed to reporting abuse or neglect observed on off hours. The employees required to report abuse and neglect will be trained through a joint DSHS-DOC training program that currently exists.

Testimony Against: None presented.

Testified: (Pro) Jennifer Strus, Department of Social and Health Services; and Victoria Roberts, Department of Corrections.
