### HOUSE COMMITTEE ON COMMERCE & LABOR

**Majority Report:** Do pass. Signed by 10 members: Representatives McMorris, Chairman; Thompson, Vice Chairman; Romero, Ranking Minority Member; Conway, Assistant Ranking Minority Member; Cairnes; Cody; Fuhrman; Goldsmith; Horn and Lisk.

**Minority Report:** Do not pass. Signed by 1 member: Representative Hargrove, Vice Chairman.

**Staff:** Pam Madson (786-7166).

**Background:** State law authorizes owners of established businesses to conduct social card games as a stimulant to the existing business. Businesses that qualify to use social card games for this purpose are those that sell food and beverages to be consumed on the premises as part of the business operation. These businesses are licensed by the Gambling Commission as commercial stimulant licensees. Bona fide charitable and nonprofit organizations may also use card games to raise money for the organizations' charitable purposes.

The Gambling Commission regulates the conduct of social card games including the amounts wagered, hours of operation, number of players per table, and types of games that can be played.

For a social card game to qualify as legal gambling activity, the card game must include all of the following characteristics. It must consist of two or more participants who are players. The success at winning must be largely determined by the player's skill. No percentage of the amounts wagered or won may be collected or shared by anyone except for players collecting their winnings. A fee no greater than \$3 dollars for each half-hour may be charged by the business to a player for participation in the card game. A fee not to exceed \$50 dollars may be charged to players who enter a card tournament for prizes. These fee limitations do not apply to membership fees in a bona fide charitable or nonprofit organization.

A licensee operating a card room may have up to five tables at which card games can be played.

**Summary of Bill:** A public card room licensee may operate up to 15 tables at which card games can be played. A licensee may no longer charge a fee of any kind to a player.

**Appropriation:** \$1 million from the state general fund to the gambling revolving fund.

**Fiscal Note:** Not requested.

**Effective Date:** Ninety days after adjournment of session in which bill is passed.

**Testimony For:** Card room operators and punchboard and pull tab licensees have seen a significant drop in business, particularly those businesses located near tribal casinos. Without some immediate relief, many card rooms and those operating punchboards and pull tabs may be unable to compete and will go out of business. Many have laid off employees. They can no longer afford to provide medical and retirement benefits to employees. With the influx of casino gambling, card rooms need to be able to offer standard card games like house-banked blackjack. With house-banked games, there is a need to increase the number of tables allowed for each license. Now that gambling is in Washington, there is a need to set up industry standards and then let everybody compete.

**Testimony Against:** Local governments should have the option to allow this level of gambling activity in the community. Increasing the number of tables and allowing house-banked card games is moving to mini casinos.

**Testified:** Representative Bill Thompson, prime sponsor; (In favor) Dave Storkson; Bill Tackitt; Steven Downen; George Tweeney; Dave Pardy; Fred Steiner; Vern Pruss; Bob Materne; Gary McCleanahm; Art Lawerson; Robert Saucier; Jim Springer; Gary Murrey; Alan McWain; Tim Hurst; Bob Synoground; Kit Hawkins, Restaurant Association; and Ken Koski.
