

SENATE BILL REPORT

SSB 6150

As Passed Senate, February 8, 1996

Title: An act relating to health care professionals doing business as professional service corporations or limited liability companies.

Brief Description: Modifying allowed composition of health care professional service corporations and limited liability companies.

Sponsors: Senate Committee on Health & Long-Term Care (originally sponsored by Senators Thibaudeau, Deccio, Kohl, Franklin and Wood).

Brief History:

Committee Activity: Health & Long-Term Care: 1/23/96, 1/31/96 [DPS].
Passed Senate, 2/8/96, 48-0.

SENATE COMMITTEE ON HEALTH & LONG-TERM CARE

Majority Report: That Substitute Senate Bill No. 6150 be substituted therefor, and the substitute bill do pass.

Signed by Senators Quigley, Chair; Wojahn, Vice Chair; Deccio, Fairley, Franklin, Moyer, Thibaudeau, Winsley and Wood.

Staff: Rhoda Jones (786-7198)

Background: Under current law a group of individual health care professionals may form a professional service corporation or limited liability company only if all the professionals are members of the same profession. This prevents members of different health care professions from forming a professional service corporation or limited liability company for the purpose of delivering a spectrum of professional services.

Physicians and osteopathic physicians have been allowed to form a single professional service corporation or a limited liability company because they were considered to be providing the same service. This interpretation has recently been called into question by the Secretary of State's office. As a result, both physicians' groups believe that some clarification is needed.

Summary of Bill: Certain licensed and certified health care professionals are given the ability to form a single professional service corporation or limited liability company. The legislation grants this to 17 different health care professions. In addition, language is added to clearly permit physicians and osteopathic physicians to form a personal service corporation or a limited liability company.

The applicability of the Uniform Disciplinary Act and other health care professional statutes are affirmed, including restrictions on persons practicing beyond the scope of their credential. Osteopathic physicians and osteopathic physician assistants are dropped from the

list of health professionals who can incorporate with the 17 other health care professions. Language is added allowing physicians and osteopathic physicians to incorporate together.

Respiratory care practitioners, pharmacists and hearing aid fitters and dispensers are added to the list of health care professionals who can incorporate together.

Appropriation: None.

Fiscal Note: Available.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Testimony For: This will result in more integrated health care. Consumers will be able to get better health under one roof. Providers gain financial protections and efficiencies and the ability to coordinate care.

Testimony Against: None.
