13 NEW SECTION. **Sec. 1.** The legislature supports the recommendations
14 of the state fish and wildlife commission with regard to the
15 commission's responsibilities in the merged department of fish and
16 wildlife. It is the intent of the legislature that, beginning July 1,
17 1996, the commission assume regulatory authority for food fish and

3 for the department, and to select commission staff and the director of
4 the department.

5 The legislature finds that all fish, shellfish, and wildlife
6 species should be managed under a single comprehensive set of goals,
7 policies, and objectives, and that the decision-making authority should
8 rest with the fish and wildlife commission. The commission acts in an
9 open and deliberative process that encourages public involvement and
10 increases public confidence in department decision-making.

7 (4) The ((~~director~~)) commission may authorize commercial fishing
8 for salmon with gill net gear prior to the second Monday in September
9 within the waters of Hale Passage, Bellingham Bay, Samish Bay, Padilla
10 Bay, Fidalgo Bay, Guemes Channel, Skagit Bay, and Similk Bay, to wit:
11 Those waters northerly and easterly of a line commencing at Stanwood,
12 thence along the south shore of Skagit Bay to Rocky Point on Camano
13 Island; thence northerly to Polnell Point on Whidbey Island.

14 (5) Whenever the ((~~director~~)) commission determines that a stock or
15 run of salmon cannot be harvested in the usual manner, and that the
16 stock or run of salmon may be in danger of being wasted and surplus to
17 natural or artificial spawning requirements, the ((~~director~~))
18 commission may authorize units of gill net and purse seine gear in any
19 number or equivalents, by time and area, to fully utilize the
20 harvestable portions of these salmon runs for the economic well being
21 of the citizens of this state. Gill net and purse seine gear other
22 than emergency and test gear authorized by the director shall not be
23 used in Lake Washington.

24 (6) The ((~~director~~)) commission may authorize commercial fishing
25 for pink salmon in each odd-numbered year from August 1 through
26 September 1 in the waters lying inside of a line commencing at the most
27 easterly point of Dungeness Spit and thence projected to Point
28 Partridge on Whidbey Island and a line commencing at Olele Point and
29 thence projected easterly to Bush Point on Whidbey Island.

30 **Sec. 26.** RCW 75.12.015 and 1983 1st ex.s. c 46 s 48 are each
31 amended to read as follows:

32 Except as provided in this section, it is unlawful to fish
33 commercially for chinook or coho salmon in the Pacific Ocean and the
34 Straits of Juan de Fuca.

35 (1) The ((~~director~~)) commission may authorize commercial fishing
36 for coho salmon from June 16 through October 31.

37 (2) The ((~~director~~)) commission may authorize commercial fishing
38 for chinook salmon from March 15 through October 31.

1 **Sec. 27.** RCW 75.20.110 and 1993 sp.s. c 2 s 36 are each amended to
2 read as follows:

3 (1) Except for the north fork of the Lewis river and the White
4 Salmon river, all streams and rivers tributary to the Columbia river
5 downstream from McNary dam are established as an anadromous fish
6 sanctuary. This sanctuary is created to preserve and develop the food
7 fish and game fish resources in these streams and rivers and to protect
8 them against undue industrial encroachment.

9 (2) Within the sanctuary area:

10 (a) It is unlawful to construct a dam greater than twenty-five feet
11 high within the migration range of anadromous fish as determined by the
12 (~~director~~) commission.

13 (b) Except by order of the (~~director~~) commission, it is unlawful
14 to divert water from rivers and streams in quantities that will reduce
15 the respective stream flow below the annual average low flow, based
16 upon data published in United States geological survey reports.

17 (3) The (~~director~~) commission may acquire and abate a dam or
18 other obstruction, or acquire any water right vested on a sanctuary
19 stream or river, which is in conflict with the provisions of subsection
20 (2) of this section.

21 (4) Subsection (2)(a) of this section does not apply to the
22 sediment retention structure to be built on the North Fork Toutle river
23 by the United States army corps of engineers.

24 **Sec. 28.** RCW 75.24.030 and 1983 1st ex.s. c 46 s 79 are each
25 amended to read as follows:

26 Only upon recommendation of the (~~director~~) commission may the
27 state oyster reserves be sold, leased, or otherwise disposed of by the
28 department of natural resources.

29 **Sec. 29.** RCW 75.24.100 and 1993 c 340 s 51 are each amended to
30 read as follows:

31 (1) It is unlawful to take geoduck clams for commercial purposes
32 outside the harvest area designated in a current department of natural
33 resources geoduck harvesting agreement issued under RCW 79.96.080. It
34 is unlawful to commercially harvest geoduck clams from bottoms that are
35 shallower than eighteen feet below mean lower low water (0.0. ft.), or
36 that lie in an area bounded by the line of ordinary high tide (mean
37 high tide) and a line two hundred yards seaward from and parallel to

1 the line of ordinary high tide. This section does not apply to the
2 harvest of private sector cultured aquatic products as defined in RCW
3 15.85.020.

4 (2) Commercial geoduck harvesting shall be done with a hand-held,
5 manually operated water jet or suction device guided and controlled
6 from under water by a diver. Periodically, the ~~((director))~~ commission
7 shall determine the effect of each type or unit of gear upon the
8 geoduck population or the substrate they inhabit. The ~~((director))~~
9 commission may require modification of the gear or stop its use if it
10 is being operated in a wasteful or destructive manner or if its
11 operation may cause permanent damage to the bottom or adjacent
12 shellfish populations.

13 **Sec. 30.** RCW 75.24.130 and 1983 1st ex.s. c 46 s 89 are each
14 amended to read as follows:

15 The ~~((director))~~ commission may examine the clam, mussel, and
16 oyster beds located on aquatic lands belonging to the state and request
17 the commissioner of public lands to withdraw these lands from sale and
18 lease for the purpose of establishing reserves or public beaches. The
19 ~~((director))~~ commission shall conserve, protect, and develop these
20 reserves and the oyster, shrimp, clam, and mussel beds on state lands.

21 **Sec. 31.** RCW 75.25.095 and 1990 c 34 s 2 are each amended to read
22 as follows:

23 ~~((Notwithstanding RCW 75.25.090,))~~ The ~~((director))~~ commission may
24 adopt rules designating times and places for the purposes of family
25 fishing days when a recreational fishing license is not required to
26 fish for food fish or shellfish. All other applicable laws and rules
27 shall remain in effect.

28 **Sec. 32.** RCW 75.30.060 and 1983 1st ex.s. c 46 s 139 are each
29 amended to read as follows:

30 A person aggrieved by a decision of the department under this
31 chapter may request administrative review under the informal procedure
32 established by this section.

33 In an informal hearing before a review board, the rules of evidence
34 do not apply. A record of the proceeding shall be kept as provided by
35 chapter 34.05 RCW. After hearing the case the review board shall
36 notify in writing the ~~((director))~~ commission and the initiating party

1 whether the review board agrees or disagrees with the department's
2 decision and the reasons for the board's findings. Upon receipt of the
3 board's findings the ((~~director~~)) commission may order such relief as
4 the ((~~director~~)) commission deems appropriate under the circumstances.

5 Nothing in this section: (1) Impairs an aggrieved person's right
6 to proceed under chapter 34.05 RCW; or (2) imposes a liability on
7 members of a review board for their actions under this section.

8 **Sec. 33.** RCW 75.50.010 and 1993 sp.s. c 2 s 45 are each amended to
9 read as follows:

10 Currently, many of the salmon stocks of Washington state are
11 critically reduced from their sustainable level. The best interests of
12 all fishing groups and the citizens as a whole are served by a stable
13 and productive salmon resource. Immediate action is needed to reverse
14 the severe decline of the resource and to insure its very survival.
15 The legislature finds a state of emergency exists and that immediate
16 action is required to restore its fishery.

17 Disagreement and strife have dominated the salmon fisheries for
18 many years. Conflicts among the various fishing interests have only
19 served to erode the resource. It is time for the state of Washington
20 to make a major commitment to increasing productivity of the resource
21 and to move forward with an effective rehabilitation and enhancement
22 program. The ((~~department~~)) commission is directed to dedicate its
23 efforts and the efforts of the department to seek resolution to the
24 many conflicts that involve the resource.

25 Success of the enhancement program can only occur if projects
26 efficiently produce salmon or restore habitat. The expectation of the
27 program is to optimize the efficient use of funding on projects that
28 will increase artificially and naturally produced salmon, restore and
29 improve habitat, or identify ways to increase the survival of salmon.
30 The full utilization of state resources and cooperative efforts with
31 interested groups are essential to the success of the program.

32 **Sec. 34.** RCW 75.50.020 and 1985 c 458 s 2 are each amended to read
33 as follows:

34 (1) The ((~~director~~)) commission shall develop long-term regional
35 policy statements regarding the salmon fishery resources before
36 December 1, 1985. The ((~~director~~)) commission shall consider the
37 following in formulating and updating regional policy statements:

- 1 (a) Existing resource needs;
 - 2 (b) Potential for creation of new resources;
 - 3 (c) Successful existing programs, both within and outside the
 - 4 state;
 - 5 (d) Balanced utilization of natural and hatchery production;
 - 6 (e) Desires of the fishing interest;
 - 7 (f) Need for additional data or research;
 - 8 (g) Federal court orders; and
 - 9 (h) Salmon advisory council recommendations.
- 10 (2) The ((~~director~~)) commission shall review and update each policy
- 11 statement at least once each year.

12 **Sec. 35.** RCW 75.50.030 and 1985 c 458 s 3 are each amended to read

13 as follows:

14 (1) The ((~~director~~)) commission shall develop a detailed salmon

15 enhancement plan with proposed enhancement projects. The plan and the

16 regional policy statements shall be submitted to the secretary of the

17 senate and chief clerk of the house of representatives for legislative

18 distribution by June 30, 1986. The enhancement plan and regional

19 policy statements shall be provided by June 30, 1986, to the natural

20 resources committees of the house of representatives and the senate.

21 The ((~~director~~)) commission shall provide a maximum opportunity for the

22 public to participate in the development of the salmon enhancement

23 plan. To insure full participation by all interested parties, the

24 ((~~director~~)) commission shall solicit and consider enhancement project

25 proposals from Indian tribes, sports fishermen, commercial fishermen,

26 private aquaculturists, and other interested groups or individuals for

27 potential inclusion in the salmon enhancement plan. Joint or

28 cooperative enhancement projects shall be considered for funding.

29 (2) The following criteria shall be used by the ((~~director~~))

30 commission in formulating the project proposals:

- 31 (a) Compatibility with the long-term policy statement;
- 32 (b) Benefit/cost analysis;
- 33 (c) Needs of all fishing interests;
- 34 (d) Compatibility with regional plans, including harvest management
- 35 plans;
- 36 (e) Likely increase in resource productivity;
- 37 (f) Direct applicability of any research;
- 38 (g) Salmon advisory council recommendations;

- 1 (h) Compatibility with federal court orders;
- 2 (i) Coordination with the salmon and steelhead advisory commission
- 3 program;
- 4 (j) Economic impact to the state;
- 5 (k) Technical feasibility; and
- 6 (l) Preservation of native salmon runs.

7 (3) The ((~~director~~)) commission shall not approve projects that
8 serve as replacement funding for projects that exist prior to May 21,
9 1985, unless no other sources of funds are available.

10 (4) The ((~~director~~)) commission shall prioritize various projects
11 and establish a recommended implementation time schedule.

12 **Sec. 36.** RCW 75.50.040 and 1985 c 458 s 4 are each amended to read
13 as follows:

14 Upon approval by the legislature of funds for its implementation,
15 the ((~~director~~)) commission shall monitor the progress of projects
16 detailed in the salmon enhancement plan.

17 The ((~~director~~)) commission shall be responsible for establishing
18 criteria which shall be used to measure the success of each project in
19 the salmon enhancement plan.

20 **Sec. 37.** RCW 75.50.050 and 1987 c 505 s 72 are each amended to
21 read as follows:

22 The ((~~director~~)) commission shall report to the legislature on or
23 before October 30th of each year ((~~through 1991~~)) on the progress and
24 performance of each project. The report shall contain an analysis of
25 the successes and failures of the program to enable optimum development
26 of the program. The report shall include estimates of funding levels
27 necessary to operate the projects in future years.

28 The ((~~director~~)) commission shall submit the reports and any
29 additional recommendations to the chairs of the committees on ways and
30 means and the committees on natural resources of the senate and house
31 of representatives.

32 **Sec. 38.** RCW 75.50.070 and 1993 sp.s. c 2 s 46 are each amended to
33 read as follows:

34 The legislature finds that it is in the best interest of the salmon
35 resource of the state to encourage the development of regional
36 fisheries enhancement groups. The accomplishments of one existing

1 group, the Grays Harbor fisheries enhancement task force, have been
2 widely recognized as being exemplary. The legislature recognizes the
3 potential benefits to the state that would occur if each region of the
4 state had a similar group of dedicated citizens working to enhance the
5 salmon resource.

6 The legislature authorizes the formation of regional fisheries
7 enhancement groups. These groups shall be eligible for state financial
8 support and shall be actively supported by the commission and the
9 department. The regional groups shall be operated on a strictly
10 nonprofit basis, and shall seek to maximize the efforts of volunteer
11 and private donations to improve the salmon resource for all citizens
12 of the state.

13 **Sec. 39.** RCW 75.50.100 and 1993 sp.s. c 17 s 11 and 1993 c 340 s
14 53 are each reenacted and amended to read as follows:

15 The dedicated regional fisheries enhancement group account is
16 created in the custody of the state treasurer. Only the ((~~director~~))
17 commission or the ((~~director's~~)) commission's designee may authorize
18 expenditures from the account. The account is subject to allotment
19 procedures under chapter 43.88 RCW, but no appropriation is required
20 for expenditures.

21 A surcharge of one dollar shall be collected on each recreational
22 personal use food fish license sold in the state. A surcharge of one
23 hundred dollars shall be collected on each commercial salmon fishery
24 license, each salmon delivery license, and each salmon charter license
25 sold in the state. The department shall study methods for collecting
26 and making available, an annual list, including names and addresses, of
27 all persons who obtain recreational and commercial salmon fishing
28 licenses. This list may be used to assist formation of the regional
29 fisheries enhancement groups and allow the broadest participation of
30 license holders in enhancement efforts. The results of the study shall
31 be reported to the house of representatives fisheries and wildlife
32 committee and the senate environment and natural resources committee by
33 October 1, 1990. All receipts shall be placed in the regional
34 fisheries enhancement group account and shall be used exclusively for
35 regional fisheries enhancement group projects for the purposes of RCW
36 75.50.110. Funds from the regional fisheries enhancement group account
37 shall not serve as replacement funding for department operated salmon
38 projects that exist on January 1, 1991.

1 All revenue from the department's sale of salmon carcasses and eggs
2 that return to group facilities shall be deposited in the regional
3 fisheries enhancement group account for use by the regional fisheries
4 enhancement group that produced the surplus. The ((~~director~~))
5 commission shall adopt rules to implement this section pursuant to
6 chapter 34.05 RCW.

7 **Sec. 40.** RCW 75.50.110 and 1990 c 58 s 4 are each amended to read
8 as follows:

9 A regional fisheries enhancement group advisory board is
10 established to make recommendations to the ((~~director~~)) commission.
11 The advisory board shall make recommendations regarding regional
12 enhancement group rearing project proposals and funding of those
13 proposals. The members shall be appointed by the ((~~director~~))
14 commission and consist of two commercial fishing representatives, two
15 recreational fishing representatives, and three at-large positions.
16 The advisory board membership shall include two members serving ex
17 officio to be nominated, one through the Northwest Indian fisheries
18 commission, and one through the Columbia river intertribal fish
19 commission.

20 The department may use account funds to provide agency assistance
21 to the groups. The level of account funds used by the department shall
22 be determined by the ((~~director~~)) commission after review and
23 recommendation by the regional fisheries enhancement group advisory
24 board and shall not exceed twenty percent of annual contributions to
25 the account.

26 **Sec. 41.** RCW 75.50.130 and 1993 sp.s. c 2 s 48 are each amended to
27 read as follows:

28 The ((~~director~~)) commission shall prepare a salmon recovery plan
29 for the Skagit river. The plan shall include strategies for employing
30 displaced timber workers to conduct salmon restoration and other tasks
31 identified in the plan. The plan shall incorporate the best available
32 technology in order to achieve maximum restoration of depressed salmon
33 stocks. The plan must encourage the restoration of natural spawning
34 areas and natural rearing of salmon but must not preclude the
35 development of an active hatchery program.

1 **Sec. 42.** RCW 75.52.050 and 1984 c 72 s 5 are each amended to read
2 as follows:

3 The (~~director of each department~~) commission shall establish by
4 rule:

5 (1) The procedure for entering a cooperative agreement and the
6 application forms for a permit to release fish or wildlife required by
7 RCW 75.08.295 or 77.16.150. The procedure shall indicate the
8 information required from the volunteer group as well as the process of
9 review by the department. The process of review shall include the
10 means to coordinate with other agencies and Indian tribes when
11 appropriate and to coordinate the review of any necessary hydraulic
12 permit approval applications.

13 (2) The procedure for providing within forty-five days of receipt
14 of a proposal a written response to the volunteer group indicating the
15 date by which an acceptance or rejection of the proposal can be
16 expected, the reason why the date was selected, and a written summary
17 of the process of review. The response should also include any
18 suggested modifications to the proposal which would increase its
19 likelihood of approval and the date by which such modified proposal
20 could be expected to be accepted. If the proposal is rejected, the
21 department must provide in writing the reasons for rejection. The
22 volunteer group may request the director or the director's designee to
23 review information provided in the response.

24 (3) The priority of the uses to which eggs, seed, juveniles, or
25 brood stock are put. Use by cooperative projects shall be second in
26 priority only to the needs of programs of the department or of other
27 public agencies within the territorial boundaries of the state. Sales
28 of eggs, seed, juveniles, or brood stock have a lower priority than use
29 for cooperative projects.

30 (4) The procedure for notice in writing to a volunteer group of
31 cause to revoke the agreement for the project and the procedure for
32 revocation. Revocation shall be documented in writing to the volunteer
33 group. Cause for revocation may include: (a) The unavailability of
34 adequate biological or financial resources; (b) the development of
35 unacceptable biological or resource management conflicts; or (c) a
36 violation of agreement provisions. Notice of cause to revoke for a
37 violation of agreement provisions may specify a reasonable period of
38 time within which the volunteer group must comply with any violated
39 provisions of the agreement.

1 (5) An appropriate method of distributing among volunteer groups
2 fish, bird, or animal food or other supplies available for the program.

3 **Sec. 43.** RCW 77.16.135 and 1993 sp.s. c 2 s 74 are each amended to
4 read as follows:

5 (1) The ((director)) commission shall revoke all licenses and
6 privileges extended under Title 77 RCW of a person convicted of assault
7 on a state wildlife agent or other law enforcement officer provided
8 that:

9 (a) The wildlife agent or other law enforcement officer was on duty
10 at the time of the assault; and

11 (b) The wildlife agent or other law enforcement officer was
12 enforcing the provisions of Title 77 RCW.

21 (g) RCW 9A.36.031; assault in the third degree.

22 (3) For the purposes of this section, a conviction includes:

23 (a) A determination of guilt by the court;

24 (b) The entering of a guilty plea to the charge or charges by the
25 accused;

26 (c) A forfeiture of bail or a vacation of bail posted to the court;

27 or

28 (d) The imposition of a deferred or suspended sentence by the
29 court.

30 (4) No license described under Title 77 RCW shall be reissued to a
31 person violating this section for a minimum of ten years, at which time
32 a person may petition the director for a reinstatement of his or her
33 license or licenses. The ten-year period shall be tolled during any
34 time the convicted person is incarcerated in any state or local
35 correctional or penal institution, in community supervision, or home
36 detention for an offense under this section. Upon review by the
37 director, and if all provisions of the court that imposed sentencing

1 have been completed, the director may reinstate in whole or in part the
2 licenses and privileges under Title 77 RCW.

3 NEW SECTION. **Sec. 44.** By December 1, 1995, the fish and wildlife
4 commission shall submit to the committees on natural resources of the
5 house of representatives and the senate a report identifying other
6 statutory changes necessary for implementation of the commission's
7 recommendations regarding its responsibilities in the department of
