6 conducted by the food and environmental quality laboratory or, by
7 contract with the commission, may be conducted by other qualified
8 laboratories; (ii) the tracking system described in RCW 15.92.060; and
9 (iii) the support of the commission on pesticide registration; and

10 (c) Not less than twenty-five percent of such moneys shall be
11 dedicated to studies or investigations concerning the registration or
12 use of pesticides for crops that are not among the top twenty
13 agricultural commodities in production value produced in the state, as
14 determined annually by the Washington agricultural statistics service.

15 (2) The commission on pesticide registration shall review,
16 prioritize, and approve or disapprove proposals for studies or
17 investigations submitted to the commission. Each biennium, the
18 commission shall prepare a contingency plan for providing funding for

37 minor uses, and emergency uses; providing this information to
38 organizations of agricultural producers; and maintaining close contact

1 between the laboratory, the department of agriculture, and
2 organizations of agricultural producers regarding the need for research
3 to support the registration of pesticides for minor crops and minor
4 uses and the availability of pesticides for emergency uses; and

5 (4) Ensure that the activities of the commission and the laboratory
6 are coordinated with the activities of other laboratories in the
7 Pacific Northwest, the United States department of agriculture, and the
8 United States environmental protection agency to maximize the
