Brief Description: Requiring court-ordered use of long-term pharmaceutical birth control in mothers who have given birth to a baby with fetal alcohol syndrome or drug addiction.

**HB 2704 - DIGEST**

Establishes hearing procedures for the determination of the appropriateness of the order to require a woman to use long-term pharmaceutical birth control.

Declares that a woman required to use long-term pharmaceutical birth control shall not be permitted to terminate the use until six months after the court finds she is clean and sober.
