Brief Description: Regulating department of social and health services liens and notices to withhold and deliver.

HB 2862 - DIGEST

(AS OF HOUSE 2ND READING 2/6/96)

Provides that, if the appellant files an application more than twenty-eight days, but within one year, of the date the notice to withhold and deliver was mailed, the appellant is entitled to a hearing if the appellant shows good cause for failure to file a timely application.

Declares the filing of a late application does not affect prior collection action pending the final adjudicative order. Until good cause for failure to file a timely application is decided, the department may continue to collect under the lien and notice to withhold and deliver.
