38 **Washington Wildlife and Recreation Program (98-2-003)**

39 The appropriations in this section for the Washington wildlife and
40 recreation program under chapter 43.98A RCW are subject to the
41 following conditions and limitations:

42 (1) \$22,500,000 of the state building construction account
43 appropriation shall be deposited in the habitat conservation account
44 and is hereby appropriated from the habitat conservation account to the
45 interagency committee for outdoor recreation for the fiscal biennium

1 ending June 30, 1999, for the Washington wildlife and recreation
2 program under chapter 43.98A RCW.

3 (2) \$20,000,000 of the state building account appropriation and
4 \$2,500,000 from the aquatic lands enhancement account appropriation
5 shall be deposited in the outdoor recreation account, and \$22,500,000
6 is hereby appropriated from the outdoor recreation account to the
7 interagency committee for outdoor recreation for the fiscal biennium
8 ending June 30, 1999, for the Washington wildlife and recreation
9 program under chapter 43.98A RCW. Funds from the aquatic lands
10 enhancement account appropriation shall be distributed to eligible
11 water access projects under RCW 43.98A.050.

12 (3) The new appropriations in this section are provided for the
13 approved list of projects included in LEAP CAPITAL DOCUMENT NO. 98-6 as
14 developed on April 15, 1997, at 10:00 a.m., the pilot watershed plan
15 implementation program under subsection (6) of this section, and for
16 other projects approved by the legislature under RCW 43.98A.080
17 referencing this section.

18 (4) No moneys from the appropriations in this section may be spent
19 on the Rocky Reach trailway project until an agreement with affected
20 property owners has been reached.

21 (5) The legislature finds that, since the inception of the
22 Washington wildlife and recreation program, over eighty-five percent of
23 the moneys provided for the state parks category has been used for
24 acquisition of property, and that demands for recreational facilities
25 in state parks require that increased funding be devoted to development
26 projects. The committee and the state parks and recreation commission
27 shall ensure that at least forty percent of new funding provided for
28 the state parks category during the 1997-99 biennium be allocated to
29 development projects.

30 (6) \$4,000,000 of the habitat conservation account appropriation
31 from the unallocated portion of the fund distribution under RCW

33 zone habitat protection projects that implement watershed plans
34 pursuant to this subsection. The interagency committee for outdoor
35 recreation shall develop a pilot watershed plan implementation program
36 within the Washington wildlife and recreation program. The program
37 shall provide matching grants to eligible agencies for implementation
38 of riparian zone habitat protection projects within watershed
39 restoration plans under RCW 89.08.460(1), watershed action plans
40 developed pursuant to rules adopted by the Puget Sound water quality
41 action team, or plans developed pursuant to chapter . . . , Laws of 1997
42 (Second Substitute House Bill No. 2054). Projects shall have a useful
43 life of at least thirty years. Eligible agencies include conservation
44 districts, counties, cities, and private nonprofit land trust or nature
45 conservancy organizations. Projects eligible for funding under this
46 section include acquisition of land using less-than-fee-simple
47 instruments such as conservation easements and purchase of development
48 rights; and habitat restoration and enhancement projects on such lands
49 including fencing and revegetation of native trees and shrubs that
50 enhance the long-term habitat values of protected lands. The committee
51 shall develop an application process and project eligibility and
52 evaluation criteria in consultation with the state conservation
53 commission. The committee shall report to the appropriate committees
54 of the legislature on the implementation of the pilot matching grant
55 program. A preliminary status report shall be submitted by January 1,
56 1998, and a final report by January 1, 1999.

57 (7) Up to \$400,000 of the reappropriations in this section is
58 provided to develop an inventory of all lands in the state owned by
59 federal agencies, state agencies, local governments, and Indian tribes.

1 The committee shall develop the inventory in a computer database format
 2 that will facilitate the sharing and reporting of inventory data and
 3 provide options for future updates. The inventory shall include, at a
 4 minimum, the following information: Owner, location, acreage, and
 5 principal use. The inventory shall also include resource-based
 6 information for state and federally-owned recreation and habitat lands.
 7 The committee shall submit a status report on the inventory to the
 8 appropriate committees of the legislature by January 1, 1999, and a
 9 final report by January 1, 2000.

10 (8) All land acquired by a state agency with moneys from these
 11 appropriations shall comply with class A, B, and C weed control
 12 provisions of chapter 17.10 RCW.

49 The appropriation in this section is subject to the following
50 conditions and limitations:

51 (1) The appropriation is provided to the department of natural
52 resources solely for the purposes of transferring from trust status
53 certain trust lands of state-wide significance to state park, wildlife
54 habitat, natural area preserve, natural resources conservation area,

1 open space, or recreation purposes, acquiring replacement timber trust
2 lands, and providing funding for common school construction.

3 (2) The appropriation in this section is provided solely for the
4 transfer of the following list of trust properties to the identified
5 agency:

6 (a) Iron Horse/Bandera, King county, to the state parks and
7 recreation commission;

8 (b) Kitsap Forest, Kitsap county, to the department of natural
9 resources for natural area preserve purposes;

10 (c) Upper Sultan Basin, Snohomish county, to the department of
11 natural resources for natural resource conservation area purposes;

12 (d) West Tiger Mountain, King county, to the department of natural
13 resources for natural resource conservation area purposes.

14 The department shall transfer the first trust property and then
15 allocate the remaining funds to the remaining properties in roughly
16 equal shares.

17 (3) Land and timber transferred under this section shall be
18 appraised and transferred at full market value. The department of
19 natural resources shall attempt to maintain a minimum aggregate ratio
20 of 85:15 timber-to-land value in these transactions. The value of the
21 timber transferred shall be deposited by the department of natural
22 resources in the same manner as timber revenues from other common
23 school trust lands, except that no deduction shall be made for the
24 resource management cost account. The value of the land transferred,
25 not to exceed \$3,000,000, shall be deposited in the natural resources
26 real property replacement account to be used for the acquisition of
27 replacement timber lands solely to benefit the common school trust.

28 (4) All reasonable costs incurred by the department of natural
29 resources to implement this section may be paid out of this
30 appropriation, except that the costs of acquiring replacement timber
31 lands shall be paid out of appropriations from the natural resources
32 real property replacement account.

33 (5) The department shall use intergrant exchanges between common
34 school and other trust lands of equal value to effect the purposes of
35 this section if the exchange is in the interest of each trust, as
36 determined by the board of natural resources.

37 (6) The department of natural resources and receiving agencies
38 shall work in good faith to carry out the intent of this section.
39 However, the board of natural resources or a receiving agency may
40 reject a transfer of property if it is determined that the transfer is
41 not in the interest of either the common school trust or the receiving
42 agency.

43 (7) On June 30, 1999, the state treasurer shall transfer all
44 remaining uncommitted funds from this appropriation to the common
45 school construction fund and the appropriation in this section shall be

16 natural resources, in consultation with an interagency task force
17 consisting of the department of fish and wildlife, other appropriate
18 state agencies, tribal governments, local governments, the federal
19 government, labor and other interested stakeholders. In recommending
20 projects for funding the task force shall use the following criteria:

21 (a) The extent to which the project, using best available science,
22 addresses habitat factors limiting fish and wildlife populations;

23 (b) The number, duration and quality of jobs to be created or
24 retained by the project for displaced workers in natural resource
25 impact areas;

26 (c) The extent to which the project will help avoid the listing of

48 (5) \$800,000 of the appropriations in this section is provided
49 solely for watershed restoration programs to be completed by the
50 department of ecology's Washington conservation corps crews.

51 (6) All projects funded under this section shall be consistent
52 with any development regulations or comprehensive plans adopted under
53 the growth management act for the project areas. No funds may be
54 expended to acquire land through condemnation.

55 (7) Projects under contract as of June 1, 1997, shall be given

33 original construction or any major renovation or remodel work exceeding
34 two hundred thousand dollars by colleges or universities is provided
35 solely for the purposes of RCW 28B.10.027. The Washington state arts
36 commission may combine the proceeds from individual projects in order
37 to fund larger works of art or mobile art displays in consultation with
38 the board of regents or trustees.

1 (3) One-half of one percent of moneys appropriated in this act for
2 original construction of any public building by a state agency as
3 defined in RCW 43.17.200 is provided solely for the purposes of RCW
4 43.17.200. The Washington state arts commission may combine the
5 proceeds from individual projects in order to fund larger works of art
6 or mobile art displays in consultation with the state agency.

7 (4) At least eighty-five percent of the moneys spent by the
8 Washington state arts commission during the 1997-99 biennium for the
9 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 shall be spent
10 solely for direct acquisition of works of art.

11 NEW SECTION. **Sec. 704.** The amounts shown under the headings
12 "Prior Biennia," "Future Biennia," and "Total" in this act are for
13 informational purposes only and do not constitute legislative approval
14 of these amounts.

15 NEW SECTION. **Sec. 705.** "Reappropriations" in this act are
16 appropriations and, unless the context clearly provides otherwise, are
17 subject to the relevant conditions and limitations applicable to
18 appropriations. Reappropriations shall be limited to the unexpended
19 balances remaining on June 30, 1997, from the 1995-97 biennial
20 appropriations for each project.

21 NEW SECTION. **Sec. 706.** To carry out the provisions of this act,
22 the governor may assign responsibility for predesign, design,
23 construction, and other related activities to any appropriate agency.

24 NEW SECTION. **Sec. 707.** If any federal moneys appropriated by
25 this act for capital projects are not received by the state, the
26 department or agency to which the moneys were appropriated may replace
27 the federal moneys with funds available from private or local sources.
28 No replacement may occur under this section without the prior approval
29 of the director of financial management in consultation with the senate
30 committee on ways and means and the house of representatives capital
31 budget committee.

32 NEW SECTION. **Sec. 708.** (1) Unless otherwise stated, for all
33 appropriations under this act that require a match of nonstate money or
34 in-kind contributions, the following requirement, consistent with RCW

1 43.88.150, shall apply: Expenditures of state money shall be timed so
2 that the state share of project expenditures never exceeds the intended
3 state share of total project costs.

4 (2) Provision of the full amount of required matching funds is not
5 required to permit the expenditure of capital budget appropriations for
6 phased projects if a proportional amount of the required matching funds
7 is provided for each distinct, identifiable phase of the project.

8 NEW SECTION. **Sec. 709.** Notwithstanding any other provisions of
9 law, for the 1997-99 biennium, transfers of reimbursement by the state
10 treasurer to the general fund from the community college capital
11 projects account for debt service payments made under Title 28B RCW
12 shall occur only after such debt service payment has been made and only
13 to the extent that funds are actually available to the account. Any
14 unpaid reimbursements shall be a continued obligation against the
15 community college capital projects account until paid. The state board
16 for community and technical colleges need not accumulate any specific
17 balance in the community college capital projects account in
18 anticipation of transfers to reimburse the general fund.

19 NEW SECTION. **Sec. 710.** Any capital improvements or capital
20 projects involving construction or major expansion of a state office
21 facility, including, but not limited to, district headquarters,
22 detachment offices, and off-campus faculty offices, shall be reviewed
23 by the department of general administration for possible consolidation,
24 colocation, and compliance with state office standards before allotment
25 of funds. The intent of the requirement imposed by this section is to
26 eliminate duplication and reduce total office space requirements where
27 feasible, while ensuring proper service to the public.

28 NEW SECTION. **Sec. 711.** The governor, through the office of
29 financial management, may authorize a transfer of appropriation
30 authority provided for a capital project that is in excess of the
31 amount required for the completion of such project to another capital
32 project for which the appropriation is insufficient. No such transfer
33 may be used to expand the capacity of any facility beyond that intended
34 by the legislature in making the appropriation. Such transfers may be
35 effected only between capital appropriations to a specific department,
36 commission, agency, or institution of higher education and only between

1 capital projects that are funded from the same fund or account. No
2 transfers may occur between projects to local government agencies
3 except where the grants are provided within a single omnibus
4 appropriation and where such transfers are specifically authorized by
5 the implementing statutes which govern the grants.

6 For purposes of this section, the governor may find that an amount
7 is in excess of the amount required for the completion of a project
8 only if: (1) The project as defined in the notes to the budget
9 document is substantially complete and there are funds remaining; or
10 (2) bids have been let on a project and it appears to a substantial
11 certainty that the project as defined in the notes to the budget
12 document can be completed within the biennium for less than the amount
13 appropriated in this act.

14 For the purposes of this section, the legislature intends that
15 each project be defined as proposed to the legislature in the
16 governor's budget document, unless it clearly appears from the
17 legislative history that the legislature intended to define the scope
18 of a project in a different way.

19 A report of any transfer effected under this section except
20 emergency projects or any transfer under \$250,000 shall be filed with
21 the legislative fiscal committees of the senate and house of
22 representatives by the office of financial management at least thirty
23 days before the date the transfer is effected. The office of financial
24 management shall report all emergency or smaller transfers within
25 thirty days from the date of transfer.

26 NEW SECTION. **Sec. 712.** To ensure that major construction
27 projects are carried out in accordance with legislative and executive
28 intent, appropriations in this act referencing this section or in
29 excess of \$5,000,000 shall not be expended until the office of
30 financial management has reviewed and approved the agency's predesign
31 and other documents and approved an allotment for the project. The
32 predesign document shall include but not be limited to program, site,
33 and cost analysis in accordance with the predesign manual adopted by
34 the office of financial management. To improve monitoring of major
35 construction projects, progress reports shall be submitted by the
36 agency administering the project to the office of financial management
37 and to the fiscal committees of the house and senate. Reports will be

1 submitted on July 1 and December 31 each year in a format to be
2 developed by the office of financial management.

3 NEW SECTION. **Sec. 713.** Allotments for appropriations shall be
4 provided in accordance with the capital project review requirements
5 adopted by the office of financial management. The office of financial
6 management shall notify the house of representatives capital budget
7 committee and the senate ways and means committee of allotment releases
8 based on review by the office of financial management. No expenditure
9 may be incurred or obligation entered into for appropriations referring
10 to this section until the allotment of the funds to be expended has
11 been approved by the office of financial management. Projects that
12 will be employing alternative public works construction procedures,
13 under chapter 39.10 RCW, are subject to the allotment procedures
14 defined in this section and RCW 43.88.110. Contracts shall not be
15 executed that call for expenditures in excess of the approved
16 allotment, and the total amount shown in such contracts for the cost of
17 future work that has not been appropriated shall not exceed the amount
18 identified for such work in the level of funding approved by the office
19 of financial management at the completion of predesign.

20 NEW SECTION. **Sec. 714.** Appropriations for design and
21 construction of facilities on higher education branch campuses shall be
22 expended only after funds are allotted to institutions of higher
23 education on the basis of: (1) Comparable unit cost standards, as
24 determined by the office of financial management in consultation with
25 the higher education coordinating board; (2) costs consistent with
26 other higher education teaching facilities in the state; and (3)
27 student full-time equivalent enrollment levels as established by the
28 office of financial management in consultation with the higher
29 education coordinating board.

30 NEW SECTION. **Sec. 715.** State agencies receiving appropriations
31 from this act and from Senate Bill No. 5562 or Senate Bill No. 6091
32 (transportation budget) for land acquisition and environmental
33 mitigation activities shall, to the extent feasible, coordinate those
34 acquisitions and mitigation activities. When cost-effective and
35 ecologically beneficial, the acquisition and development of
36 environmental mitigation sites and activities, including but not

1 limited to wetland banks and advance mitigation, should be provided in
2 a manner that benefits both the department of transportation sites and
3 activities and other agency sites and activities. The coordination of
4 environmental mitigation shall also take into consideration the
5 acquisitions and activities of local watershed groups. The
6 coordination of environmental mitigation sites and activities is
7 intended to improve ecological benefits gained from state expenditures,
8 provide greater emphasis on shared natural resource management, and
9 increase mitigation credit opportunities for the department of
10 transportation. The credits earned from these activities are not
11 intended to reduce department of transportation mitigation obligations,
12 but to reduce the cost of meeting those obligations. The activities of
13 this section shall be carried out in a manner consistent with
14 recommendations developed by a work group consisting of state agencies
15 with substantial environmental mitigation related responsibilities.
16 The office of financial management shall report to the fiscal
17 committees of the senate and house of representatives and to the
18 legislative transportation committee by December 1, 1998, on the
19 results of the coordination of these environmental mitigation
20 activities and make recommendations to further improve the coordination
21 among state agencies to achieve better cost-efficiencies and ecological
22 benefits.

23 NEW SECTION. **Sec. 716.** No moneys in this act shall be used to
24 develop facilities for juvenile offenders at Rainier school.

25 NEW SECTION. **Sec. 717.** When authority has been delegated to a
26 local health district or county to administer and enforce the well
27 tagging, sealing, and decommissioning portions of the water well
28 construction program, the department of ecology shall provide to the
29 local health district or county 75 percent of the fee revenue generated
30 from well construction fees for wells constructed in the delegated
31 county.

32 **Sec. 718.** RCW 43.98A.040 and 1990 1st ex.s. c 14 s 5 are each
33 amended to read as follows:

34 (1) Moneys appropriated for this chapter to the habitat
35 conservation account shall be distributed in the following way:

1 (a) Not less than thirty-five percent for the acquisition and
2 development of critical habitat;

3 (b) Not less than twenty percent for the acquisition and
4 development of natural areas;

5 (c) Not less than fifteen percent for the acquisition and
6 development of urban wildlife habitat; and

7 (d) The remaining amount shall be considered unallocated and shall
8 be used by the committee to fund high priority acquisition and
9 development needs for critical habitat, natural areas, and urban
10 wildlife habitat. During the fiscal biennium ending June 30, 1999, the
11 remaining amount may be allocated for matching grants for riparian zone
12 habitat protection projects that implement watershed plans.

13 (2) In distributing these funds, the committee retains discretion
14 to meet the most pressing needs for critical habitat, natural areas,
15 and urban wildlife habitat, and is not required to meet the percentages
16 described in subsection (1) of this section in any one biennium.

17 (3) Only state agencies may apply for acquisition and development
18 funds for critical habitat and natural areas projects under subsection
19 (1) (a), (b), and (d) of this section.

20 (4) State and local agencies may apply for acquisition and

26 policies and priorities for distributions from the habitat conservation
27 account.

28 (2) Moneys appropriated for this chapter may not be used by the
29 committee to fund additional staff positions or other overhead
30 expenses, or by a state, regional, or local agency to fund operation
31 and maintenance of areas acquired under this chapter, except that the
32 committee may use moneys appropriated for this chapter for the fiscal
33 biennium ending June 30, 1999, for the administrative costs of
34 implementing the pilot watershed plan implementation program and
35 developing an inventory of publicly owned lands.

36 (3) Moneys appropriated for this chapter may be used for costs
37 incidental to acquisition, including, but not limited to, surveying
38 expenses, fencing, and signing.

2 committee may not approve a local project where the local agency share
3 is less than the amount to be awarded from the habitat conservation
4 account.

5 (5) During the fiscal biennium ending June 30, 1999, the committee
6 may approve a riparian zone habitat protection project where the local
7 agency share is less than the amount to be awarded from the habitat
8 conservation account.

9 (6) In determining acquisition priorities with respect to the
10 habitat conservation account, the committee shall consider, at a

25 criteria of (a) of this subsection:

26 (i) Population of, and distance from, the nearest urban area;

11 amended to read as follows:

12 (1) In determining which state parks proposals and local parks
13 proposals to fund, the committee shall use existing policies and
14 priorities.

15 (2) Moneys appropriated for this chapter may not be used by the
16 committee to fund additional staff or other overhead expenses, or by a
17 state, regional, or local agency to fund operation and maintenance of
18 areas acquired under this chapter, except that the committee may use
19 moneys appropriated for this chapter for the fiscal biennium ending
20 June 30, 1999, for the administrative costs of implementing the pilot
21 watershed plan implementation program and developing an inventory of
22 publicly owned lands.
