Background: School districts must have policies to ensure that a student is not removed from school grounds during school hours unless the student's parent or legal guardian authorizes the removal. This authorization requirement does not have to apply to students in grades nine to twelve. High school students may be removed from school grounds without parental notification or authorization.

Summary of Bill: Conditions for removing students from school grounds without parental authorization are established.

The conditions for removing students from school grounds are extended to students in grades nine through 12. School employees or their designees may not remove students from school grounds during school hours without parental authorization unless:

- the school employee is the student's parent, legal guardian, or immediate family member;
- the removal is for student transportation purposes or extracurricular activities; or
- the removal is in response to a medical emergency and the employee cannot reach the parent to transport the student.
- School security personnel may remove a student from school grounds without parental permission for disciplinary reasons.

Appropriation: None.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Testimony For: Parents need to know where their children are. However, the medical standard for removing a child from the school ground without parental authorization is too stringent.
