Other states have designated state fossils, including the saber-toothed cat in California and the Hagerman Horse Fossil in Idaho.

Testimony For: Remains of the Columbian mammoth have been found throughout the state, and therefore this is a fossil that represents the entire state. When our young people are excited about a school project, we should support them. It would be colossal to have a state fossil.

Testimony Against: None.

Testified: Representative Sheahan, prime sponsor; Sara Jane Aebly, second grade teacher, Windsor Elementary School; and Chris Pineo, student at Windsor Elementary School.
