HOUSE COMMITTEE ON TRANSPORTATION POLICY & BUDGET

Majority Report: The substitute bill be substituted therefor and the substitute bill do pass. Signed by 26 members: Representatives K. Schmidt, Chairman; Hankins, Vice Chairman; Mielke, Vice Chairman; Mitchell, Vice Chairman; Fisher, Ranking Minority Member; Cooper, Assistant Ranking Minority Member; Backlund; Buck; Cairnes; Chandler; Constantine; DeBolt; Gardner; Hatfield; Johnson; McCune; Murray; O'Brien; Ogden; Robertson; Romero; Scott; Skinner; Sterk; Wood and Zellinsky.

Staff: Jennifer Hanlon (786-7316).

Background: The Legislature created the Washington Traffic Safety Commission (WTSC) to plan and supervise programs for the prevention of accidents on streets and highways. The commission also coordinates the development of traffic safety programs and works to promote and improve driver education.

The Superintendent of Public Instruction (SPI), the Department of Licensing (DOL), and driver training schools provide information on traffic safety in traffic education courses and instructional materials.

DOL may require a driver to submit to an examination if the department determines that the driver is incompetent or otherwise not qualified to be licensed. Following the examination, the department may suspend or revoke the license of the driver or issue the driver a license subject to restrictions.

Summary of Substitute Bill: The WTSC will establish a program for administering grants for educational programs on pedestrian safety and the safe operation of bicycles. The commission should cooperate with the Criminal Justice Training Commission, the Bicycle Federation of America, the League of American Bicyclists, and other organizations in developing the program. In selecting grant recipients, the commission will look to the most effective programs for traffic safety.

The bicycle and pedestrian safety education account is created in the state treasury. On each retail sale of a bicycle, an amount equal to 1 percent of the selling price is levied and must be collected. Expenditures from the account may only be used for programs that teach safe and effective bicycling. Revenue generated by the 1 percent fee must be divided between the bicycle and pedestrian safety education account and the transportation fund.

SPI, DOL and driver training schools must provide information on the use of the left-hand lane by motor vehicles. Additionally, they must provide educational information on bicyclists' and pedestrians' rights and responsibilities.

When a driver is responsible for a crash resulting in the death of a person, DOL must require the driver to submit to an examination. The examination must be completed within 90 days after the department receives the accident report.

Bicycle equipment requirements for riding at night are changed.

Substitute Bill Compared to Original Bill: The WTSC will look to the most effective programs for traffic safety when selecting grant recipients. Drivers responsible for a crash that results in the death of a person must be retested. Bicycle equipment requirements for riding at night are changed.

Appropriation: None.

Fiscal Note: Available.

Effective Date of Substitute Bill: Ninety days after adjournment of session in which bill is passed.

Testimony For: It is beneficial to duplicate educational programs across the state. This bill will result in better cyclists and better drivers.
