The state auditor must complete agency audits for legal and financial compliance with state law and report to the Legislature annually on these audits, among other duties. The auditor may also conduct performance audits if expressly authorized by the Legislature.

The state auditor has the authority to take exception to specific expenditures or practices related to an agency's financial transactions. When this occurs, the director

of the Office of Financial Management must cause corrective action to be taken promptly. Such action may include withholding appropriated funds.

Summary of Bill: If the state auditor takes exception to specific expenditures or practices of state agencies, the director of the Office of Financial Management must cause corrective action to be taken within six months. The director must report on the status of audit resolution annually to the appropriate committees of the Legislature, the state auditor, and the attorney general. The report must include any actions taken as a result of an audit, including types of personnel actions, costs and types of litigation, and the value of any recouped goods or services.
