Brief Title: Applying pesticides.

HB 1998 - DIGEST

Requires that a person who is licensed or certified under chapter 17.21 RCW who makes an indoor application of a pesticide or pesticides in a building that is owned by an agency or unit of federal, state, or local government shall place a marker at the principal entrances to the building indicating that the building is to be treated, that information regarding the material applied is available upon request, and listing the business name and telephone number of the person making the application. The marker shall remain in place until after the pesticide is applied and until the expiration of any reentry interval established for the pesticide.
