Brief Title: Authorizing the establishment of seed crop standards.

HB 2062 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that marketing commissions have the power to adopt, rescind, amend, and enforce rules necessary to ensure seed quality and purity through proper isolation between seed crops and other crops susceptible to cross-pollination or infection with diseases known to infect the seed crop. The rules may provide for the creation of a specific geographical area where the production of other crops susceptible to cross-pollination or infection with diseases known to infect the seed crop are restricted.
