Brief Title: Requiring buffers between agricultural and residential lands.

HB 2081 - DIGEST

Declares that it is the policy of this state to encourage local governments to require buffers between agricultural lands and residential development, and to enact reasonable standards for the amount of drift that occurs as a result of agricultural spraying.

Declares that no cause of action may be maintained under this chapter against any certified applicator, as defined in RCW 17.21.020, for incidental amounts of spraydrift that may occur from the application of a pesticide if the spraying was done in accordance with the provisions of the act.
