Brief Title: Creating the joint select committee on climate change.

SB 6636 - DIGEST

Creates the joint select committee on climate change.

Directs the joint select committee to survey the current state of the science regarding global climate change and associated regional climate change. The committee shall identify steps that the public and private sectors may make to plan for, mitigate, or take advantage of the effects of climate change. The committee shall also identify key areas of uncertainty and opportunities for future research.
