5 On page 6, line 12, after "~~f~~)" strike "Expedited" and insert

6 "Rules that can be adopted or repealed using expedited"

EFFECT: Under current law, certain rules, such as those affecting internal governmental operations, can be adopted without filing a statement of inquiry but agencies must still comply with other procedural requirements, such as holding a hearing. The amendment retains this option for agencies. Without the amendment, agencies could use the expedited rulemaking process for these kinds of rules, but that process does not require a hearing and other procedural requirements.
