

1 **2E2SSB 5595 - H AMD 0405 ADOPTED 5/18/99**

2 By Representative

3 On page 9 line 11, after team,- strike everything down to and
4 including projects- on line 30 and insert and shall include members
5 representing the private sector. Members of the technical review team
6 shall have an educational and professional scientific background in
7 salmonids, salmonid habitat, or related fields. The members of the
8 technical review team shall not serve any fixed term. The numbers of
9 members of the technical review team may be increased or decreased
10 depending on the need for scientific expertise, but the technical
11 review team must always consist of at least five members.
12 Administrative support for the technical review team is provided by the
13 department of fish and wildlife. Assignments and direction to the
14 technical review team shall be made by the chair of the technical
15 review team. The chair of the technical review team shall be
16 designated by the members of the team.

17 (2) The technical review team is responsible for receiving habitat
18 project lists submitted by lead entities under RCW 75.46.060, for
19 screening and ranking projects on such lists, for providing its ranking
20 of projects, within categories on a statewide basis, to the board-

EFFECT: Requires representation of the private sector on the
technical review team. Strikes language which requires the
technical review team to assist the board in assessing the
technical capacity of local and regional areas to plan and
implement successful salmon habitat projects.
