HOUSE COMMITTEE ON JUDICIARY

Staff: Edie Adams (786-7180).

Background:

Inaccuracies in the Revised Code of Washington may occur in a variety of ways. Words may be inadvertently omitted, or typographical, drafting, or grammatical errors may be made in bill drafts and floor amendments. Sections may be repealed, recodified or amended in a way that changes their internal numbering. References to these sections or subsections in other provisions of the code then become incorrect. A bill may change a particular term, or an entity may be renamed or abolished, and references to these terms or entities in other provisions of the code become inaccurate.

There are a number of decodified sections in the code. Decodification of a section occurs when the Legislature passes two bills affecting a section, one that amends the section, and the other that repeals that same section.

Summary of Bill:

Technical corrections are made to various provisions of Titles 18 and 19 RCW which relate to businesses and professions.

The technical corrections include changes to correct: grammatical, drafting, and typographical errors; inaccurate references to terms that have been changed or entities that have been abolished or renamed; and inaccurate cross-references resulting from

amendments, recodifications, or repealers. In addition, various decodified sections of the code are repealed.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.
