17       Trust Land Transfer (00-2-001)

18       The state building construction account appropriation in this  
19 section is subject to the following conditions and limitations:

20       (1) The total appropriation is provided to the department solely to  
21 transfer from trust status or enter into thirty-year timber harvest  
22 restrictive easements for certain trust lands of state-wide  
23 significance deemed appropriate for state park, fish and wildlife  
24 habitat, natural area preserve, natural resources conservation area,  
25 open space, or recreation purposes.

26       (2) Property transferred under this section shall be appraised and  
27 transferred at fair market value. The value of the timber transferred  
28 shall be deposited by the department to the common school construction  
29 account in the same manner as timber revenues from other common school  
30 trust lands. No deduction shall be made for the resource management  
31 cost account under RCW 79.64.040. The value of the land transferred  
32 shall be deposited in the natural resources real property replacement  
33 account. These funds shall be expended by the department for the  
34 exclusive purpose of acquiring real property of equal value to be  
35 managed as common school trust land.

36       (3) Property subject to easement agreements under this section  
37 shall be appraised at fair market value both with and without the

1 imposition of the easement. The entire difference in appraised value  
2 shall be deposited by the department to the common school construction  
3 fund in the same manner as lease revenues from other common school  
4 trust lands. No deduction shall be made for the resource management  
5 cost account under RCW 79.64.040.

6 (4) All reasonable costs incurred by the department to implement  
7 this section are authorized to be paid out of this appropriation.  
8 Authorized costs include the actual cost of appraisals, staff time,  
9 environmental reviews, surveys, and other similar costs.

10 (5) Intergrant exchanges between common school and other trust  
11 lands of equal value may occur if the exchange is in the interest of  
12 each trust, as determined by the board of natural resources.

13 (6) Prior to or concurrent with conveyance of these properties, the  
14 department, with full cooperation of the receiving agencies, shall  
15 execute and record a real property instrument that dedicates the  
16 transferred properties to the purposes identified in subsection (1) of  
17 this section for a minimum period of thirty years. The department of  
18 natural resources, in consultation with the receiving state agencies,  
19 shall develop policy to address requests to replace transferred  
20 properties subject to the recorded property instrument that are no  
21 longer deemed appropriate for the purposes identified in subsection (1)  
22 of this section.

23 (7) The department and receiving agencies shall work in good faith  
24 to carry out the intent of this section. However, the department or  
25 receiving agencies may remove a property from the transfer list in  
26 subsection (8) of this section if, based on new, substantive  
27 information, it is determined that transfer of the property is not in  
28 the state-wide interest of either the common school trust or the  
29 receiving agency.

30 (8) The appropriation in this section is provided to execute  
31 transfers or easements for the list of properties identified in LEAP  
32 capital document No. ((99-3)) 2000-4, as developed on ((~~April 8, 1999~~))  
33 February 28, 2000, as follows: Projects in category A shall be  
34 transferred; to the extent that local funding is provided for the land  
35 value of the property, projects in category B shall be transferred; and  
36 projects in category C and remaining projects in category B may be  
37 transferred or leased as funding allows.

38 (9) The department shall execute trust land transfers and easements  
39 such that 90 percent of the appropriation in this section is deposited

1 in the common school construction fund. To achieve the 90:10 ratio,  
2 the department may offset transfers of property with low timber-to-land  
3 ratios with easements on other properties.

4 (10) On June 30, 2001, the state treasurer shall transfer all  
5 remaining uncommitted funds from this appropriation to the common  
6 school construction fund and the appropriation in this section shall be  
7 reduced by an equivalent amount.
