Brief Title: Restricting silvicultural burning to maintain air quality standards.

**HB 1743 - DIGEST**

Provides that the department of natural resources shall not issue burning permits for silvicultural burning conducted on publicly owned or managed land during a calendar year if the department of ecology or an air pollution control authority requires agricultural burning for cereal grain or grass or turf seed production to be reduced or eliminated during that calendar year when compared to the total of such agricultural burning during any other calendar year.
