Brief Description: Requiring adoption of rules for certain construction management techniques.

HB 1831 - DIGEST

(DIGEST AS ENACTED)

Finds that certain construction management techniques will improve the effectiveness of construction and operation of new school buildings, and that such techniques, including value engineering, constructibility reviews, building commissioning, and professional construction management, will provide better value to the taxpayers by reducing construction costs, improving building operations, improving the building environment for the occupants, and reducing future replacement costs.

Provides that the act shall be null and void if appropriations are not approved.
