

1893-S

Sponsor(s): House Committee on Local Government (originally sponsored by Representatives Doumit, Mulliken, Scott, Linville and Hatfield)

Brief Title: Streamlining state and local permit issuance.

**HB 1893-S - DIGEST**

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that facilitating the environmental permit process will increase citizen satisfaction and compliance with state and local permit requirements. Lack of coordination in the processing of permit applications causes frustration and confusion to the applicant. The public deserves a clear, predictable system for land-use decisions.

Finds that permit issuance can be streamlined by requiring state agencies and local jurisdictions to coordinate their permit processes with those of the state government.
