Brief Title: Maintaining a sufficient amount of land designated as suitable for urban development within the comprehensive plans of counties and cities.

HB 2130 - DIGEST

Recognizes that maintaining a sufficient amount of land designated as suitable for urban development within the comprehensive plans of counties and cities planning under RCW 36.70A.040 is essential if the purposes of this act are to be achieved.

Finds that a reduction in the amount of such land in a county, through the expansion of designated critical areas, the revision of development regulations on existing designated critical areas, or new regulation of existing developable lands under state or federal environmental laws, should be offset by the addition of other land suitable for urban development to a county's urban growth areas.
