Brief Description: Creating a civil action for improperly obtaining a person's deoxyribonucleic acid.

SB 6340 - DIGEST

Provides that any person or entity that either obtains or conveys an individual's deoxyribonucleic acid for genetic testing purposes that is individually identifiable or discloses any computerized interpretation of a person's deoxyribonucleic acid that is individually identifiable without the individual's written authorization or pursuant to specific federal or state authority is liable in a civil action and shall pay reasonable attorneys' fees and costs.
