

6479-S

Sponsor(s): Senate Committee on Education (originally sponsored by Senators Eide, McAuliffe, Goings, Brown, Patterson, Costa, Fraser, Jacobsen, Kline, Rasmussen and Kohl-Welles)

Brief Description: Addressing concerns about pesticide use in schools.

SB 6479-S - DIGEST

(AS OF SENATE 2ND READING 2/10/00)

Directs a school to notify students, parents or guardians of students, and employees annually about the school's pest control policies and methods, including any pesticides that may be used.

Directs a school to provide posted and written notice to students, parents or guardians of students, and employees at least forty-eight hours before a school facility application.

Requires a school to post notification signs at the treatment site, in a central area at the school, and at points of entry at least forty-eight hours before a school facility application. Signs shall remain in place for at least one week following pesticide application to a school facility.
