15 not permit moneys that are provided solely for a specified purpose to
16 be used for other than that purpose. After May 1, 2000, after approval
17 by the director of financial management and unless specifically
18 prohibited by this act, the department may transfer appropriations
19 between the marine operating account--state and the Puget Sound ferry
20 operations account--state appropriations. However, the program shall
21 not expend more than the total amount appropriated from these accounts.

22 (2) The appropriation is based on the budgeted expenditure of
23 ((\$29,539,000)) \$41,367,000 for vessel operating fuel in the 1999-2001
24 biennium. If the actual cost of fuel is less than this budgeted
25 amount, the excess amount may not be expended. If the actual cost
26 exceeds this amount, the department shall request a supplemental
27 appropriation.

28 (3) The appropriation provides for the compensation of ferry
29 employees. The expenditures for compensation paid to ferry employees
30 during the 1999-2001 biennium may not exceed \$195,690,000 plus a dollar
31 amount, as prescribed by the office of financial management, that is
32 equal to any insurance benefit increase granted general government
33 employees in excess of \$341.75 a month annualized per eligible marine
34 employee multiplied by the number of eligible marine employees for the
35 respective fiscal year, a dollar amount as prescribed by the office of
36 financial management for costs associated with pension amortization
37 charges, and a dollar amount prescribed by the office of financial
38 management for salary increases during the 1999-2001 biennium. For the
39 purposes of this section, the expenditures for compensation paid to

1 ferry employees shall be limited to salaries and wages and employee
2 benefits as defined in the office of financial management's policies,
3 regulations, and procedures named under objects of expenditure "A" and
4 "B" (7.2.6.2).

5 The prescribed salary and insurance benefit increase or decrease
6 dollar amount that shall be allocated from the governor's compensation
7 appropriations is in addition to the appropriation contained in this
8 section and may be used to increase or decrease compensation costs,
9 effective July 1, 1999, and thereafter, as established in the 1999-2001
10 general fund operating budget.

11 (4) The department, when implementing ferry service reductions,
12 shall, to the extent possible, maintain peak hour vehicle and passenger
13 service capacity, summer tourist route capacity, and a
14 fall/winter/spring presence on all auto ferry routes, while ensuring
15 equitable treatment among routes.

16 (5) The joint task force on ferries is created.

17 (a) The joint task force on ferries is composed of:

18 (i) Eight members of the legislature selected as follows:

19 (A) Four members of the senate, two from each of the major
20 caucuses, to be appointed by the president of the senate, who shall
21 select one of the four senate members as cochair;

22 (B) Four members of the house of representatives, two from each of
23 the major caucuses, to be appointed by the cospeaker of the respective
24 caucus. The cospeakers shall jointly select one of the four house
25 members as cochair; and

26 (C) The members appointed from each major caucus of the senate and
27 the house of representatives must include one member from a legislative
28 district that encompasses a terminus of a Washington state ferry route
29 and one from a legislative district that does not include a terminus of
30 a Washington state ferry route;

31 (ii) At least one person designated by the cochairs representing
32 each of the following:

33 (A) Ferry advisory committees;

34 (B) Persons who do not use ferries;

35 (C) Labor organizations representing ferry workers;

36 (D) Washington State Ferries;

37 (E) Transit operators;

38 (F) The office of financial management; and

1 (G) Other groups as deemed appropriate by the cochairs of the task
2 force.

3 (b) The transportation committees shall provide staff support as
4 mutually agreed by the cochairs of the joint task force.

5 (c) The legislative transportation committee shall pay the expenses
6 of the legislative committee members.

7 (d) The joint task force on ferries shall report to the full
8 legislature at the beginning of the 2001 legislative session. The
9 report must include, but not be limited to, analysis and
10 recommendations on the following:

11 (i) Establishment of a long-term goal for recovery of operating
12 costs from fare revenue;

13 (ii) Options for further cuts in ferry service or full or partial
14 restoration of ferry service cuts;

15 (iii) Feasibility of full or partial privatization of the ferry
16 system, public-private partnerships, or state and local partnerships;
17 and

18 (iv) Establishing the short-term and long-term capital needs of the
19 Washington state ferry system.

20 (5) The commission is authorized to increase Washington state ferry
21 tariffs in excess of the fiscal growth factor, established under
22 chapter 43.135 RCW, in fiscal year 2001.

23 **Sec. 214.** 2000 2nd sp.s. c 3 s 232 (uncodified) is amended to read
24 as follows:

2	Appropriation	\$ 5,000,000
3	TOTAL APPROPRIATION	\$ ((109,061,000))
4		<u>106,045,000</u>

5 The appropriations in this section are subject to the following
6 conditions and limitations and specified amounts are provided solely
7 for that activity:

8 (1) \$40,692,000 of the motor vehicle account--state appropriation
9 is provided solely for the state program share of freight mobility
10 projects as identified by the freight mobility strategic investment
11 board. The amount provided in this subsection can only be expended
12 upon authorization from the freight mobility strategic investment
13 board.

14 (2) \$187,000 of the transportation account--state appropriation and
15 \$213,000 of the multimodal transportation account--state appropriation
16 are provided solely for a study by the senate transportation committee
17 and the house of representatives transportation committee in
18 cooperation with the port of Benton developing a strategic corridor
19 feasibility and master site plan for the port of Benton. If the port
20 of Benton does not provide at least \$200,000 to fund the plan
21 development, the transportation fund--state appropriation referenced in
22 this subsection shall lapse and this subsection shall be null and void.

23 (3) The motor vehicle account--state appropriation includes
24 \$30,000,000 in proceeds from the sale of bonds authorized by RCW
25 47.10.843. The transportation commission may authorize the use of
26 current revenues available to the department of transportation in lieu
27 of bond proceeds for any part of the state appropriation.

28 (4) \$10,000,000 of the multimodal transportation account--state
29 appropriation is provided solely to fund the first phase of a
30 multiphase cooperative project with the state of Oregon to dredge the
31 Columbia river. The department shall not expend the appropriation in
32 this section unless agreement on ocean disposal sites has been reached
33 which protects the state's commercial crab fishery. The amount
34 provided in this subsection shall lapse unless the state of Oregon
35 appropriates a dollar-for-dollar match to fund its share of the
36 project.

37 (5) The motor vehicle account--state appropriation includes
38 \$1,167,000 in proceeds from the sale of bonds authorized by RCW
39 47.10.819(1). The transportation commission may authorize the use of

1 current revenues available to the department of transportation in lieu
2 of bond proceeds for any part of the state appropriation.

3 (6) \$5,000,000 of the urban arterial trust account--state
4 appropriation is provided solely for a small city pavement preservation
5 program, to be administered by the department's highways and local
6 programs division. The department, in consultation with stakeholders,
7 shall establish program guidelines. The guidelines should include but
8 not be limited to a provision limiting program eligibility to cities
9 with a population of 2,500 or less.

10 (7) \$15,000,000 of the motor vehicle account--state appropriation
11 is provided solely for a county corridor congestion relief program, to
12 be administered by the department's highways and local programs
13 division. Urban corridors must connect to urban or significant
14 activity centers; begin or end at the intersection of another arterial,
15 state highway, or limited access freeway system; and provide an
16 alternate route to the limited access freeway system. The purpose of
17 the program is to provide funding for congested urban corridors, as
18 defined and selected by the department of transportation in
19 consultation with counties and regional transportation planning
20 organizations. At a minimum, project selection criteria should
21 include: Consistency with regional transportation plans; measurable
22 improvements in mobility; cost effectiveness; systematic corridor
23 mobility improvements rather than isolated "spot" improvements; and
24 optimal timing for construction.

25 (8) \$5,000,000 of the motor vehicle account--state appropriation is
26 provided solely for improving traffic and pedestrian safety near
27 schools. The highways and local programs division within the
28 department of transportation shall administer this program. Funds
29 should be used for traffic and pedestrian improvements near schools,
30 including roadway channelization and signalization.

31 (9) The highways and local programs division within the department
32 of transportation shall develop a prequalification procedure for
33 potential bidders on projects administered or approved by the
34 transportation improvement board. The board shall work with other
35 interested parties including but not limited to associations
36 representing general contractors and the office of minority and women's
37 business enterprises. The prequalification procedure's goal is to
38 ascertain that bidders are qualified by experience, financing,
39 equipment, and organization to do the work called for in the contract

1 documents. The prequalification procedure may require a bidder to (1)
2 satisfy threshold requirements established by the board prior to being
3 furnished a proposal form on any contract; or (2) complete a preaward
4 survey of the bidder's qualification prior to award.

5 (10) \$2,000,000 of the motor vehicle account--state appropriation
6 is provided solely for city fish passage barrier removal and habitat
7 restoration. Funds should be used for eliminating fish passage
8 barriers, including stormwater facilities, and providing for habitat
9 restoration for salmonid species that are listed as threatened or
10 endangered. The amount provided in this section may only be expended
11 upon authorization from the department of transportation's
12 environmental affairs office.

13 (11) \$10,000,000 of the motor vehicle fund--state appropriation is
14 provided solely for a city corridor congestion relief program, to be
15 administered by the department's highways and local programs division.
16 Urban corridors must connect to urban or significant activity centers,
17 begin or end at the intersection of another arterial, state highway or
18 limited access freeway system, and provide an alternate route to the
19 limited access freeway system. The purpose of the program is to
20 provide funding for congested urban corridors as defined and selected
21 by the department of transportation in consultation with counties and
22 regional transportation planning organizations. At a minimum, project
23 selection criteria should include: Consistency with regional
24 transportation plans; measurable improvements in mobility; cost
25 effectiveness; systematic corridor mobility improvements rather than
26 isolated "spot" improvements; and optimal timing for construction.
