3 By Senator Patterson

4  
5 Strike everything after the enacting clause and insert the  
6 following:

7 "NEW SECTION. **Sec. I.** The legislature finds that water supply  
8 availability is an important consideration in planning for future  
9 population growth, but that presently there is inadequate integration  
10 of the information relating to existing water resources and current and  
11 forecasted water use demands into the forecasts of population growth  
12 and growth management planning to accommodate the forecasted growth.  
13 The legislature further finds that public and private municipal water  
14 suppliers having a duty to serve new growth within their service areas  
15 should have a greater role in the regional growth management planning  
16 activities that will determine the location of new growth for which  
17 adequate water service will be expected."

18 Renumber the sections consecutively and correct any internal  
19 references accordingly.
