3 By Senators Hale and Sheldon, T.

4 PULLED 04/19/01

5 On page 15, line 4, after "therewith" insert ". The council may
6 only develop rules, policies, procedures, guidelines, or operating
7 protocols that are based directly on, and no more stringent than
8 federal or state statutory or administrative code authority, and the
9 standards and criteria set forth therein. A site certification
10 agreement may not require compliance with air quality, water quality,
11 or health protection measures unless such compliance is based on and no
12 more stringent than standards adopted into federal or state statute or
13 administrative Code.

« END «

EFFECT: EFSEC may not exceed state or federal statutory authority
in adopting rules or creating site certification agreements.
