Background:

During the 2000 legislative session, the Legislature passed Senate Bill 6865 which carried out many provisions of Initiative 695. Among those provisions enacted was the repeal of RCW 46.16.060 which established general license fees, including a .50 cent fee on all new and renewal vehicle licenses. The funds generated by this fee were deposited into the Department of Licensing Services Account (DLSA) and were used for two things: 1) to support DOL information and service delivery systems; and 2) to provide assistance to counties that could not cover the cost of vehicle licensing activities through services fees.

Although the .50 cent fee was repealed, the DLSA was left intact and exists today, albeit with no revenue source. Even though the licensing fee was repealed, the department continues to be financially responsible for providing the same support and services to its agents and subagents that existed prior to the repeal. The result of this fact is that the DLSA fund balance continues to be drawn down and it is estimated that the funds will run out within the first year of the 2001-03 biennium. In order to compensate for this loss in revenue, the department has requested in their 01-03 budget submittal, \$3.1 million from the Motor Vehicle Fund to maintain the current level of service and support provided to the county agents and subagents.

Summary of Bill:

In order to provide a dedicated fund source to pay for the service and support provided by the department to its county agents and subagents, a .50 cent fee on all new and renewal vehicle licenses is reinstated. The revenue generated by this fee shall be deposited into the DLSA for county agent and subagent support, which is to include the replacement of department-owned equipment in the possession of the agents and subagents.

Appropriation: None.
