SENATE COMMITTEE ON TRANSPORTATION

Majority Report: That Substitute Senate Bill No. 6494 be substituted therefor, and the substitute bill do pass.

Signed by Senators Haugen, Chair; Gardner, Vice Chair; Finkbeiner, Horn, Jacobsen, Johnson, Kastama, Keiser, McDonald, Oke, Prentice, T. Sheldon and Shin.

Staff: Chris Reykdal (786-7321)

Background: SB 6865 was passed during the 2000 first special session. SB 6865 set license tab fees at \$30 and eliminated the state's motor vehicle excise tax. The recent reduction in annual registration costs, the opportunity to create a convenience for Washington citizens, and the efficiency savings that are inherent with two-year registration cycles create an opportunity for Washington to shift from annual to two-year registrations.

Summary of Substitute Bill: A two-year vehicle licensing cycle is created for all vehicle classes except those paying gross weight fees of 8,000 lbs and greater. To achieve revenue neutrality, license tab fees and local option taxes that are collected simultaneously are doubled and collected every two years. County filing fees are changed from \$3.00 to \$5.00. Licensing sub-agent fees are changed from \$3.50 to \$5.50. The Licensing Services Account fee is changed from \$.50 to \$1.00.

Substitute Bill Compared to Original Bill: The original bill was not considered.

Appropriation: None.

Fiscal Note: Requested on January 28, 2002.

Effective Date: The bill takes effect on registrations that are due or to become due January 1, 2003.

Testimony For: None.

Testimony Against: Licensing sub-agents have fixed costs that cannot be reduced despite the reduction in transactions. Furthermore, sub-agents are a convenience for citizens. If vehicle owners think the fees are too high, they have other options. Doubling license fees can get very expensive for citizens in the RTA. Also, counties may lose money in their general funds, and services may be affected.
