30 to read as follows:

31 A less restrictive alternative secure housing facility shall meet
32 the following minimum siting requirements:

33 (1) The housing unit shall be located within thirty miles of a city
34 or town with a population of twenty-five thousand or more that has

27 determining whether forest land is primarily devoted to growing trees
28 for long-term commercial timber production on land that can be
29 economically and practically managed for such production, the following
30 factors shall be considered: (a) The proximity of the land to urban,
31 suburban, and rural settlements; (b) surrounding parcel size and the
32 compatibility and intensity of adjacent and nearby land uses; (c) long-

37 because of their susceptibility to erosion, sliding, earthquake, or

1 residential, or industrial development consistent with public health or
2 safety concerns.

3 ~~((10))~~ (11) "Long-term commercial significance" includes the
4 growing capacity, productivity, and soil composition of the land for

21 predominate over the built environment;

22 (b) That foster traditional rural lifestyles, rural-based
23 economies, and opportunities to both live and work in rural areas;

24 (c) That provide visual landscapes that are traditionally found in
25 rural areas and communities;

26 (d) That are compatible with the use of the land by wildlife and
27 for fish and wildlife habitat;

28 (e) That reduce the inappropriate conversion of undeveloped land
29 into sprawling, low-density development;

30 (f) That generally do not require the extension of urban
31 governmental services; and

33 water flows and ground water and surface water recharge and discharge
34 areas.

35 ~~((15))~~ (16) "Rural development" refers to development outside the
36 urban growth area and outside agricultural, forest, and mineral

16 land for the production of food, other agricultural products, or fiber,
17 or the extraction of mineral resources, rural uses, rural development,
18 and natural resource lands designated pursuant to RCW 36.70A.170. A
19 pattern of more intensive rural development, as provided in RCW
20 36.70A.070(5)(d), is not urban growth. When allowed to spread over
21 wide areas, urban growth typically requires urban governmental
22 services. "Characterized by urban growth" refers to land having urban
23 growth located on it, or to land located in relationship to an area
24 with urban growth on it as to be appropriate for urban growth.

25 ~~((18))~~ (19) "Urban growth areas" means those areas designated by
26 a county pursuant to RCW 36.70A.110.

27 ~~((19))~~ (20) "Urban governmental services" or "urban services"
28 include those public services and public facilities at an intensity
29 historically and typically provided in cities, specifically including
30 storm and sanitary sewer systems, domestic water systems, street
31 cleaning services, fire and police protection services, public transit
32 services, and other public utilities associated with urban areas and
33 normally not associated with rural areas.

34 ~~((20))~~ (21) "Wetland" or "wetlands" means areas that are
35 inundated or saturated by surface water or ground water at a frequency
36 and duration sufficient to support, and that under normal circumstances
37 do support, a prevalence of vegetation typically adapted for life in
38 saturated soil conditions. Wetlands generally include swamps, marshes,
39 bogs, and similar areas. Wetlands do not include those artificial

1 wetlands intentionally created from nonwetland sites, including, but
2 not limited to, irrigation and drainage ditches, grass-lined swales,
3 canals, detention facilities, wastewater treatment facilities, farm
4 ponds, and landscape amenities, or those wetlands created after July 1,
5 1990, that were unintentionally created as a result of the construction
6 of a road, street, or highway. Wetlands may include those artificial
7 wetlands intentionally created from nonwetland areas created to
8 mitigate conversion of wetlands.

9 **Sec. 17.** RCW 36.70A.200 and 1998 c 171 s 3 are each amended to

11 (1) The comprehensive plan of each county and city that is planning
12 under this chapter shall include a process for identifying and siting
13 essential public facilities. ~~((Essential public facilities include
14 those facilities that are typically difficult to site, such as
15 airports, state education facilities and state or regional
16 transportation facilities as defined in RCW 47.06.140, state and local
17 correctional facilities, solid waste handling facilities, and in-
18 patient facilities including substance abuse facilities, mental health
19 facilities, and group homes.))~~

20 (2) The office of financial management shall maintain a list of
21 those essential state public facilities that are required or likely to
22 be built within the next six years. The office of financial management
23 may at any time add facilities to the list.

24 (3) No local comprehensive plan or development regulation may
25 preclude the siting of essential public facilities, including essential
26 state community justice facilities.

29 remainder of the act or the application of the provision to other
30 persons or circumstances is not affected.

31 NEW SECTION. **Sec. 19.** This act is necessary for the immediate
32 preservation of the public peace, health, or safety, or support of the
33 state government and its existing public institutions, and takes effect
34 immediately.

1 NEW SECTION. **Sec. 20.** If specific funding for the purposes of
2 this act, referencing this act by bill or chapter number, is not
3 provided by June 30, 2001, in the omnibus appropriations act, this act
4 is null and void.
