HOUSE BILL 2969

---

State of Washington

57th Legislature

2002 Regular Session

By Representative Fisher

Read first time 02/15/2002. Referred to Committee on Transportation.

1 AN ACT Relating to transportation improvement and financing; and  
2 creating a new section.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 NEW SECTION. **Sec. 1.** The capacity of many of Washington state's  
5 transportation facilities have failed to keep up with the state's  
6 growth. The Washington state blue ribbon commission examined the  
7 current state of Washington's transportation system and made  
8 recommendations to the governor and the legislature on how to improve  
9 those facilities. The blue ribbon commission on transportation  
10 recommended that the legislature improve the efficiency and  
11 accountability of the state transportation system. The commission also  
12 recommended that the legislature develop a package of new revenues to  
13 fund a comprehensive multimodal set of investments, which taken  
14 together with the recommended efficiency measures and reforms, will  
15 ensure a twenty-year program of preserving, optimizing, and expanding  
16 the state's transportation system. The legislature intends to take  
17 action on those recommendations by enacting this act.
