10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

11 NEW SECTION. **Sec. 1.** Over the past decade, the mission of public
12 education in the state of Washington has changed dramatically. No
13 longer is it enough for the state to ensure that all children have
14 access to a quality education. In the new knowledge-based economy, the
15 state must create a system of schools that provides every child the
16 opportunity to achieve high standards as every child is capable of
17 achieving high standards.

18 Washingtonians are committed to helping raise student achievement
19 across the state. The legislature, educators, parents, and citizens
20 have taken great strides in creating a standards-based system that
21 holds schools accountable for results. Over the years, new programs
22 have been added to the common school code with the intent of helping
23 schools and educators. Regardless of the intent, many of the rules
24 that govern school districts and schools may not be helping educators
25 to raise student achievement. Instead, some of the rules may actually
26 hinder their efforts.

27 As Washington continues to implement education reform using
28 standards, assessments, and accountability, the governance of the
29 common school system must be analyzed in its entirety. There must be
30 an examination of whether Title 28A RCW serves children or the system.
31 To that end, all of Title 28A RCW except for chapter 28A.655 RCW,
32 academic achievement and accountability, is repealed effective
33 September 1, 2004. Before the repeal of Title 28A RCW becomes
34 effective, a new school code will be enacted that will take effect on
35 the first day of the 2004-05 school year. The new structure must be
36 carefully designed by parents, educators, and elected leaders working
37 together to achieve better schools.

1 In order to examine Title 28A RCW, school districts and schools
2 must be given the ability to determine which rules help them provide
3 individual learning environments for all children, so that all children
4 can achieve high standards. Education laws must create a system that
5 focuses on outcomes and achievement rather than program and activity
6 requirements.

7 Education laws also must give school districts and schools the
8 ability to redesign or modify the teacher compensation system. In its
9 current form, the teacher compensation system often fails to attract
10 and keep top talent in two critical ways. First, often it does not
11 offer teachers sustained opportunities for professional growth and
12 career advancement. Second, it does not provide competitive
13 compensation.

14 To begin this process of rewriting the common school code, this act
15 proposes that local school districts that seek to implement new
16 strategies and structures be allowed to innovate in the operation and
17 management of schools. Two demonstration programs will be developed in
18 partnership with education leaders.

19 The flexibility grant program will grant waivers to school
20 districts and schools for most state school rules governing public
21 education, thereby granting more flexibility in the use of state funds
22 to participating school districts. In exchange for this flexibility,
23 school districts and schools will be responsible for increased
24 accountability for student achievement.

25 The alternative compensation system grant program will provide
26 state funding to school districts that voluntarily join with their
27 teachers to design and potentially implement a new compensation system
28 based on teacher career paths. A teacher compensation system should be
29 based on professional knowledge, skills, and performance, and provide
30 teachers with real opportunities for professional recognition and
31 growth. The goal is to support quality teaching in all of Washington's
32 classrooms and use the talents and skills of expert educators in mentor
33 or leadership roles.

34 NEW SECTION. **Sec. 2.** The flexibility grant program is hereby
35 created. The purpose of this statewide competitive grant program is to
36 provide selected school districts and schools the flexibility they need
37 to increase student achievement and create high achieving schools. The
38 goal of this program is to increase student achievement in Washington

1 state. The program is designed to give significant autonomy to school
2 districts and schools, and to hold these school districts and schools
3 accountable for results. Each participating school district shall
4 negotiate a performance contract between the school district and the
5 office of the superintendent of public instruction. Each of these
6 school districts shall also negotiate performance contracts between the
7 school district and the schools within their school district. Schools
8 meeting the terms of their performance agreements will continue to
9 operate under this new system, as provided for in this chapter.
10 Schools that meet or exceed their goals for student achievement shall
11 receive a building-based financial reward.

12 NEW SECTION. **Sec. 3.** (1) Each school district and school that
13 receives a flexibility grant under this chapter is exempt from this
14 title and rules adopted under this title, except as otherwise provided
15 in this chapter and in the school's approved performance contract.
16 However, this chapter does not prohibit school districts and schools
17 from electing to comply with one or more laws or rules governing school
18 districts and school district boards of directors.

19 (2) Each school district and school that receives a flexibility
20 grant shall:

21 (a) Comply with state and federal health, safety, and civil rights
22 laws applicable to school districts;

23 (b) Participate in nationally normed standardized achievement tests
24 as required in RCW 28A.230.230 and the elementary, middle school, and
25 high school standards and assessment examinations as required in RCW
26 28A.655.060;

27 (c) Employ certificated instructional staff as required in RCW
28 28A.410.010. However, a school that receives a flexibility grant may
29 hire noncertificated instructional staff of unusual competence and in
30 exceptional cases as specified in RCW 28A.150.260;

31 (d) Comply with the employee record check requirements in RCW
32 28A.400.303;

33 (e) Report enrollment, personnel, and other data necessary for the
34 calculation of state apportionment payments and be subject to school
35 district financial and audit requirements except as provided in this
36 subsection:

37 (i) The district may request to pool state general apportionment,
38 categorical, and grant revenues, excluding special education revenues,

1 in a single program and make a single consolidated plan and application
2 to the office of the superintendent of public instruction for program
3 approval. If approved, the pooled revenues shall not be subject to
4 recovery or recapture by the state if the plan is followed;

5 (ii) The district may pool state revenues in Title I schoolwide
6 programs as permitted by the federal elementary education and secondary
7 education act; and

8 (iii) The district shall receive full state funding without
9 reduction due to the following conditional funding requirements of the
10 state operating appropriations act:

11 (A) Demonstration of actual K-4 staff ratio;

12 (B) Demonstration of actual vocational staff ratio;

13 (C) Compliance with vocational indirect expenditure limit;

14 (D) Demonstration of maximizing federal medicaid billing for
15 special education students; and

16 (E) Compliance in filing truancy petitions; and

17 (f) Comply with the annual performance report under RCW
18 28A.655.110.

19 (3) Each school district and school that receives a flexibility
20 grant shall operate under its new system unless it fails to meet the
21 terms of its performance contract with the superintendent of public
22 instruction. School districts and schools that do not meet the terms
23 of their performance contracts are subject to all rules applicable to
24 school districts and schools, as determined by the office of the
25 superintendent of public instruction.

26 NEW SECTION. **Sec. 4.** The alternative compensation system grant
27 program is hereby created. The purpose of this statewide competitive
28 grant program is to provide selected school districts and schools with
29 assistance in developing an alternative compensation system. School
30 districts and schools that receive an alternative compensation system
31 grant shall design a new system for compensating teachers based on a
32 career ladder model that will attract, support, and retain the best
33 teachers to help create high achieving schools. Recipients of
34 alternative compensation system design grants must complete their
35 design project by July 1, 2003.

36 NEW SECTION. **Sec. 5.** To help school districts and schools with
37 deregulation and designing alternative compensation systems under this

1 chapter, the office of the superintendent of public instruction shall
2 contract with a technical assistance team of experts for the duration
3 of the grant periods. This technical assistance team will be selected
4 by the governor and the superintendent of public instruction. The
5 responsibilities of the team include, but are not limited to:

6 (1) Assisting the governor and the office of the superintendent of
7 public instruction in planning a statewide student achievement
8 conference for grant applicants who receive a planning grant for either
9 or both grant programs. The statewide conference shall provide
10 technical assistance to applicants, including but not limited to,
11 providing background research, discussions of systems reforms, and
12 presentation of findings from other programs;

13 (2) Helping planning grant recipients write their applications for
14 either or both grant programs; and

15 (3) Providing technical assistance to grant recipients to implement
16 their proposals.

17 NEW SECTION. **Sec. 6.** (1)(a) Each school district interested in
18 learning more about either or both the flexibility grant program and
19 the alternative compensation system grant program shall submit an
20 application for a planning grant to the superintendent of public
21 instruction. School districts will be notified by October 1, 2001, of
22 the timelines for applying for planning grants. The purpose of
23 planning grants is to enable school districts to develop their
24 applications for flexibility grants and alternative compensation system
25 grants.

26 (b) Planning grant recipients shall be selected by representatives
27 from the governor's office and the office of the superintendent of
28 public instruction from funds appropriated by the legislature for this
29 purpose. Grants shall be awarded on the basis of the level of interest
30 and commitment from the school district and the need for financial
31 assistance. Districts shall demonstrate the level of interest and
32 commitment of parents, teachers, classified staff, principals, local
33 bargaining units, and other affected entities in their communities to
34 apply for a flexibility grant or an alternative compensation system
35 grant, or both. Priority in awarding planning grants shall be given to
36 school districts applying for both grant programs. Funds appropriated
37 through this chapter for planning grants under this section shall be
38 administered by the office of the superintendent of public instruction.

1 (2) Recipients of planning grants shall attend the statewide
2 student achievement conference developed under section 5 of this act.

3 (3) After school districts have attended the statewide student
4 achievement conference, the school districts may submit an application
5 for either or both the flexibility implementation grant or the
6 alternative compensation system design grant.

7 (4) Applications for the flexibility implementation grants and the
8 alternative compensation system design grants shall be reviewed and
9 rated by the independent expert review panel created in section 9 of
10 this act. The governor and the superintendent of public instruction
11 shall make awards based on recommendations of the review panel and on
12 availability of funds.

13 NEW SECTION. **Sec. 7.** (1) Each school district that applies for
14 state funds through the flexibility grant program shall submit an
15 application to the superintendent of public instruction.

16 (2) Flexibility grant applicants shall provide a detailed
17 description of their deregulation implementation plan. Application
18 requirements include but are not limited to a description of:

19 (a) How the school district will plan for contracting with every
20 school in the district, specifying how the district will ensure and
21 assist with high student achievement results in each of its schools;

22 (b) How the district and each of its schools will address and
23 document progress of all students and student subpopulations including
24 but not limited to gender, race, ethnicity, migrant children, limited
25 English proficient children, children with disabilities, and
26 economically disadvantaged children;

27 (c) What rules the schools in the district will be required to
28 comply with by the school district;

29 (d) The minimum performance requirements the school district will
30 require of the participating schools, including performance
31 requirements for subpopulations in (b) of this subsection;

32 (e) How the school district will support participating schools that
33 are having difficulty meeting their performance contracts;

34 (f) A proposed budget for designing and implementing their plan;

35 (g) How the school district will reward schools that meet or exceed
36 their student achievement goals; and

1 (h) How the district will comply with the performance contract
2 entered into with the office of the superintendent of public
3 instruction.

4 (3) Each school district that receives a grant under this section
5 shall set aside a portion of the grant award to reward schools that
6 meet or exceed their student achievement goals. The amount of the
7 rewards shall be determined by the school district and specified in the
8 grant application. These rewards shall be building based.

9 NEW SECTION. **Sec. 8.** (1) Each school district that applies for
10 state funds through the alternative compensation system grant program
11 shall submit an application to the superintendent of public
12 instruction.

13 (2) Each alternative compensation system grant applicant shall
14 provide a detailed description of its plan to create an alternative
15 compensation system in its school district. Application requirements
16 include but are not limited to:

17 (a) The goals the school district has in designing its particular
18 system;

19 (b) A description of the process the school district will use to
20 design the system;

21 (c) The school district's level of commitment including the level
22 of commitment of parents, teachers, classified staff, principals, the
23 local bargaining unit, and other affected entities in their
24 communities; and

25 (d) The willingness of the school district to work with others to
26 design a system that can be implemented statewide with some local
27 variations.

28 (3) Applications for grants for system design shall be reviewed and
29 rated by the review panel created under section 9 of this act.

30 NEW SECTION. **Sec. 9.** The governor and the superintendent of
31 public instruction shall select a panel of experts to review and
32 evaluate school district proposals. This review panel shall make
33 recommendations to the governor and the superintendent of public
34 instruction on the award of grants.

35 NEW SECTION. **Sec. 10.** Each school district that is selected for
36 an implementation or design grant under this chapter shall participate

1 in an evaluation process required in each grant contract. The
2 governor's office and the office of the superintendent of public
3 instruction shall select the evaluator through a competitive bidding
4 process. Evaluation costs shall be paid for by the office of the
5 superintendent of public instruction from funds appropriated for this
6 purpose.

7 NEW SECTION. **Sec. 11.** The governor and the superintendent of
8 public instruction shall convene a task force of six to eight persons
9 to coordinate the process of rewriting the common school code. Before
10 selecting members, the governor and the superintendent of public
11 instruction shall solicit input from the legislature. Members of the
12 task force shall represent at least the following groups: Parents,
13 teachers, classified staff, principals, superintendents, school boards,
14 local bargaining units, and the business community. In making its
15 recommendations and proposing legislation, the task force shall
16 consider input from school districts and schools receiving grants under
17 this chapter and the results of the evaluations required under this
18 chapter. Staff of the governor's office, appropriate legislative
19 committees, and the office of the superintendent of public instruction
20 shall assist the task force. Recommendations and proposed legislation
21 shall be prepared by January 1, 2004, and shall reflect the experiences
22 of the participating school districts and schools.

23 NEW SECTION. **Sec. 12.** This chapter expires September 1, 2004.

24 NEW SECTION. **Sec. 13.** A new section is added to chapter 28A.900
