23 which device was in existence on September 1, 1963, without cost to the
24 owner for materials and labor. The modification may not materially
25 alter the amount of water flowing through the fishway or fish
26 protective device. Following modification, the fishway or fish
27 protective device shall be maintained at the expense of the person or
28 governmental agency owning the obstruction or water diversion device.

29 **Sec. 22.** RCW 77.12.455 and 1995 1st sp.s. c 2 s 16 are each

8 read as follows:

9 Based upon articulable facts that a person is engaged in fishing,
10 harvesting, or hunting activities, fish and wildlife officers have the
11 authority to temporarily stop the person and check for valid licenses,
12 tags, permits, stamps, or catch record cards, and to inspect all fish,
13 shellfish, seaweed, and wildlife in possession as well as the equipment
14 being used to ensure compliance with the requirements of this title,
15 and may request the person to write his or her signature for comparison
16 with the signature on the license. Failure to comply with the request
17 is prima facie evidence that the person is not the person named on the
18 license.

19 **Sec. 25.** RCW 77.15.090 and 2000 c 107 s 234 are each amended to
20 read as follows:

25 a search warrant or arrest warrant. Fish and wildlife officers may
26 execute any such arrest or search warrant reasonably necessary to their
27 duties under this title and may seize fish, seaweed, shellfish, and
28 wildlife or any evidence of a crime and the fruits or instrumentalities

36 conveyances, vehicles, containers, packages, or other receptacles for

1 fish, seaweed, shellfish, and wildlife which they have reason to
2 believe contain evidence of a violation of law or rules adopted
3 pursuant to this title and seize evidence as needed for law
4 enforcement. This authority does not extend to quarters in a boat,
5 building, or other property used exclusively as a private domicile,
6 does not extend to transitory residences in which a person has a
7 reasonable expectation of privacy, and does not allow search and
8 seizure without a warrant if the thing or place is protected from
9 search without warrant within the meaning of Article I, section 7 of
10 the state Constitution. Seizure of property as evidence of a crime
11 does not preclude seizure of the property for forfeiture as authorized
12 by law.

13 **Sec. 27.** RCW 77.15.096 and 1998 c 190 s 116 are each amended to
14 read as follows:

19 or fish buyer. Fish and wildlife officers may similarly inspect
20 without warrant the premises, containers, fishing equipment, fish,
21 shellfish, and wildlife, and records required by the department of any

23 shellfish, or wildlife into interstate commerce, any cold storage plant
24 that the department has probable cause to believe contains fish,
25 shellfish, or wildlife, or of any taxidermist or fur buyer. Fish and
26 wildlife officers may inspect without warrant the records required by
27 the department of any retail outlet selling fish, shellfish, or
28 wildlife ((~~or both~~)), and, if the officers have probable cause to
29 believe a violation of this title or rules of the commission has
30 occurred, they may inspect without warrant the premises, containers,
31 and fish, shellfish, and wildlife of any retail outlet selling fish,
32 shellfish, or wildlife ((~~or both~~)).

33 **Sec. 28.** RCW 77.15.110 and 1998 c 190 s 8 are each amended to read

19 involving the person charged or any other person, of offers to sell or
20 solicitation of offers to sell by the person charged or by any other
21 person, or of any market price for the fish, shellfish, or wildlife
22 including market price for farm-raised game animals. The value
23 assigned to specific fish, shellfish, or wildlife by RCW ((77.21.070))
24 77.15.420 may be presumed to be the value of such fish, shellfish, or
25 wildlife. It is not relevant to proof of value that the person charged
26 misrepresented that the fish, shellfish, or wildlife was taken in
27 compliance with law if the fish, shellfish, or wildlife was unlawfully
28 taken and had no lawful market value.

29 **Sec. 29.** RCW 77.15.120 and 2000 c 107 s 236 are each amended to

26 private property.

27 (4) The person raising a defense under subsection (3) of this
28 section has the burden of proof by a preponderance of the evidence.

32 (3) Hydraulic project approval is required for projects that meet
33 the criteria of subsection (1) of this section and are being reviewed
34 and approved under this section. An applicant shall use a joint
35 aquatic resource permit application form developed by the department of
36 ecology permit assistance center to apply for approval under this
37 chapter. On the same day, the applicant shall provide copies of the
38 completed application form to the department and to each appropriate
39 local government. Local governments shall accept the application as

1 notice of the proposed project. The department shall provide a
2 fifteen-day comment period during which it will receive comments
3 regarding environmental impacts. In no more than forty-five days, the
4 department shall either issue hydraulic project approval, with or
5 without conditions, deny approval, or make a determination that the
6 review and approval process created by this section is not appropriate
7 for the proposed project. The department shall base this determination
8 on identification during the comment period of adverse impacts that
9 cannot be mitigated by hydraulic project approval. If the department
10 determines that the review and approval process created by this section
11 is not appropriate for the proposed project, the department shall
12 notify the applicant and the appropriate local governments of its
13 determination. The applicant may reapply for approval of the project
14 under other review and approval processes.

15 Any person aggrieved by the approval, denial, conditioning, or
16 modification of hydraulic project approval under this section may
17 formally appeal the decision to the hydraulic appeals board pursuant to
18 the provisions of this chapter.

19 (4) No local government may require permits or charge fees for fish
20 habitat enhancement projects that meet the criteria of subsection (1)
21 of this section and that are reviewed and approved according to the
22 provisions of this section.

23 NEW SECTION. **Sec. 58.** A new section is added to chapter 77.65 RCW
24 to read as follows:

25 (1) A license issued by the director is required to:

26 (a) Practice taxidermy for commercial purposes;

27 (b) Deal in raw furs for commercial purposes;

28 (c) Act as a fishing guide;

29 (d) Operate a game farm; or

30 (e) Purchase or sell anadromous game fish.

31 (2) A permit issued by the director is required to:

32 (a) Conduct, hold, or sponsor hunting or fishing contests or
33 competitive field trials using live wildlife;

34 (b) Collect wild animals, wild birds, game fish, food fish,
35 shellfish, or protected wildlife for research or display;

36 (c) Stock game fish; or

37 (d) Conduct commercial activities on department-owned or controlled
38 lands.

1 (3) Aquaculture as defined in RCW 15.85.020 is exempt from the
2 requirements of this section, except when being stocked in public
3 waters under contract with the department.

4 **Sec. 59.** RCW 77.70.010 and 1997 c 58 s 884 are each amended to
5 read as follows:

6 (1) A license renewed under the provisions of this chapter that has
7 been suspended under RCW (~~(75.28.042)~~) 77.65.080 shall be subject to
8 the following provisions:

9 (a) A license renewal fee shall be paid as a condition of
10 maintaining a current license; and

11 (b) The department shall waive any other license requirements,
12 unless the department determines that the license holder has had
13 sufficient opportunity to meet these requirements.

14 (2) The provisions of subsection (1) of this section shall apply
15 only to a license that has been suspended under RCW (~~(75.28.042)~~)
16 77.65.080 for a period of twelve months or less. A license holder
17 shall forfeit a license subject to this chapter and may not recover any
18 license renewal fees previously paid if the license holder does not
19 meet the requirements of RCW 74.20A.320(9) within twelve months of
20 license suspension.

21 **Sec. 60.** RCW 77.70.150 and 1999 c 126 s 1 are each amended to read
22 as follows:

23 (1) A sea urchin dive fishery license is required to take sea
24 urchins for commercial purposes. A sea urchin dive fishery license
25 authorizes the use of only one diver in the water at any time during
26 sea urchin harvest operations. If the same vessel has been designated
27 on two sea urchin dive fishery licenses, two divers may be in the
28 water. A natural person may not hold more than two sea urchin dive
29 fishery licenses.

30 (2) Except as provided in subsection (6) of this section, the
31 director shall issue no new sea urchin dive fishery licenses. For
32 licenses issued for the year 2000 and thereafter, the director shall
33 renew existing licenses only to a natural person who held the license
34 at the end of the previous year. If a sea urchin dive fishery license
35 is not held by a natural person as of December 31, 1999, it is not
36 renewable. However, if the license is not held because of revocation
37 or suspension of licensing privileges, the director shall renew the

1 license in the name of a natural person at the end of the revocation or
2 suspension if the license holder applies for renewal of the license
3 before the end of the year in which the revocation or suspension ends.

4 (3) Where a licensee failed to obtain the license during the
5 previous year because of a license suspension or revocation by the
6 ((department)) director or the court, the licensee may qualify for a
7 license by establishing that the person held such a license during the
8 last year in which the person was eligible.

9 (4) Surcharges as provided for in this section shall be collected
10 and deposited into the sea urchin dive fishery account hereby created
11 in the custody of the state treasurer. Only the director or the
12 director's designee may authorize expenditures from the account. The
13 sea urchin dive fishery account is subject to allotment procedures
14 under chapter 43.88 RCW, but no appropriation is required for
15 expenditures. Expenditures from the account shall only be used to
16 retire sea urchin licenses until the number of licenses is reduced to
17 twenty-five, and thereafter shall only be used for sea urchin
18 management and enforcement.

19 (a) A surcharge of one hundred dollars shall be charged with each
20 sea urchin dive fishery license renewal for licenses issued in 2000
21 through 2005.

22 (b) For licenses issued for the year 2000 and thereafter, a
23 surcharge shall be charged on the sea urchin dive fishery license for
24 designating an alternate operator. The surcharge shall be as follows:
25 Five hundred dollars for the first year or each of the first two
26 consecutive years after 1999 that any alternate operator is designated
27 and two thousand five hundred dollars each year thereafter that any
28 alternate operator is designated.

29 (5) Sea urchin dive fishery licenses are transferable. After
30 December 31, 1999, there is a surcharge to transfer a sea urchin dive
31 fishery license. The surcharge is five hundred dollars for the first
32 transfer of a license valid for calendar year 2000, and two thousand
33 five hundred dollars for any subsequent transfer, whether occurring in
34 the year 2000 or thereafter. Notwithstanding this subsection, a one-
35 time transfer exempt from surcharge applies for a transfer from the
36 natural person licensed on January 1, 2000, to that person's spouse or
37 child.

38 (6) If fewer than twenty-five natural persons are eligible for sea
39 urchin dive fishery licenses, the director may accept applications for

1 new licenses. The additional licenses may not cause more than twenty-
2 five natural persons to be eligible for a sea urchin dive fishery
3 license. New licenses issued under this section shall be distributed
4 according to rules of the department that recover the value of such
5 licensed privilege.

6 **Sec. 61.** RCW 77.70.190 and 1999 c 126 s 2 are each amended to read
7 as follows:

8 (1) A sea cucumber dive fishery license is required to take sea
9 cucumbers for commercial purposes. A sea cucumber dive fishery license
10 authorizes the use of only one diver in the water at any time during
11 sea cucumber harvest operations. If the same vessel has been
12 designated on two sea cucumber dive fishery licenses, two divers may be
13 in the water. A natural person may not hold more than two sea cucumber
14 dive fishery licenses.

15 (2) Except as provided in subsection (6) of this section, the
16 director shall issue no new sea cucumber dive fishery licenses. For
17 licenses issued for the year 2000 and thereafter, the director shall
18 renew existing licenses only to a natural person who held the license
19 at the end of the previous year. If a sea cucumber dive fishery
20 license is not held by a natural person as of December 31, 1999, it is
21 not renewable. However, if the license is not held because of
22 revocation or suspension of licensing privileges, the director shall
23 renew the license in the name of a natural person at the end of the
24 revocation or suspension if the license holder applies for renewal of
25 the license before the end of the year in which the revocation or
26 suspension ends.

27 (3) Where a licensee failed to obtain the license during either of
28 the previous two years because of a license suspension by the
29 (~~department~~) director or the court, the licensee may qualify for a
30 license by establishing that the person held such a license during the
31 last year in which the person was eligible.

32 (4) Surcharges as provided for in this section shall be collected
33 and deposited into the sea cucumber dive fishery account hereby created
34 in the custody of the state treasurer. Only the director or the
35 director's designee may authorize expenditures from the account. The
36 sea cucumber dive fishery account is subject to allotment procedures
37 under chapter 43.88 RCW, but no appropriation is required for
38 expenditures. Expenditures from the account shall only be used to

1 retire sea cucumber licenses until the number of licenses is reduced to
2 twenty-five, and thereafter shall only be used for sea cucumber
3 management and enforcement.

4 (a) A surcharge of one hundred dollars shall be charged with each
5 sea cucumber dive fishery license renewal for licenses issued in 2000
6 through 2005.

7 (b) For licenses issued for the year 2000 and thereafter, a
8 surcharge shall be charged on the sea cucumber dive fishery
9 (~~{{license}}~~) license for designating an alternate operator. The
10 surcharge shall be as follows: Five hundred dollars for the first year
11 or each of the first two consecutive years after 1999 that any
12 alternate operator is designated and two thousand five hundred dollars
13 each year thereafter that any alternate operator is designated.

14 (5) Sea cucumber dive fishery licenses are transferable. After
15 December 31, 1999, there is a surcharge to transfer a sea cucumber dive
16 fishery license. The surcharge is five hundred dollars for the first
17 transfer of a license valid for calendar year 2000 and two thousand
18 five hundred dollars for any subsequent transfer whether occurring in
19 the year 2000 or thereafter. Notwithstanding this subsection, a one-
20 time transfer exempt from surcharge applies for a transfer from the
21 natural person licensed on January 1, 2000, to that person's spouse or
22 child.

23 (6) If fewer than twenty-five persons are eligible for sea cucumber
24 dive fishery licenses, the director may accept applications for new
25 licenses. The additional licenses may not cause more than twenty-five
26 natural persons to be eligible for a sea cucumber dive fishery license.
27 New licenses issued under this section shall be distributed according
28 to rules of the department that recover the value of such licensed
29 privilege.

30 **Sec. 62.** RCW 79A.60.100 and 1994 c 264 s 80 are each amended to
31 read as follows:

32 (1) Every law enforcement officer of this state and its political
33 subdivisions has the authority to enforce this chapter. Law
34 enforcement officers may enforce recreational boating rules adopted by
35 the commission. Such law enforcement officers include, but are not
36 limited to, county sheriffs, officers of other local law enforcement
37 entities, (~~((wildlife agents and fisheries patrol))~~) fish and wildlife
38 officers (~~((of the department of fish and wildlife))~~), through the
