Background:

The Washington State Patrol (WSP) is responsible for screening applicants for authorized emergency vehicle permits. This permit is required for drivers of Department of Transportation incident response vehicles, private contractors providing funeral procession traffic control, school security personnel, and fire department chiefs driving private vehicles.

As part of the screening process, applicants are currently screened through both the WSP's criminal identification section and the Federal Bureau of Investigation (FBI). However, the FBI's policy regarding fingerprint checks requires a legislative enactment authorizing the use

of FBI records for the screening of applicants. The WSP is currently using the FBI's records by virtue of a temporary waiver.

Summary of Bill:

The equipment and standards review unit shall require a records check of all applicants for an authorized emergency vehicle permit through the WSP and the FBI. The record check shall include a fingerprint check, and the applicant may be employed on a conditional basis pending completion of the investigation.

Appropriation: None.

Fiscal Note: Not requested.

Effective Date: The bill takes effect 90 days after adjournment of session in which bill is passed.
