**Staff Summary of Public Testimony:**

(In support) A bill heard earlier, House Bill 1909 (HB 1909), had this possibility embedded in it. This is a good bill for students. Currently, a student is issued a student identification number upon enrollment at one college in the community and technical college system but then must receive and remember a new number when that student attends another college in the system. This bill promotes efficiency and will allow for easier headcounts since, with a single number per student, there will not be a need to "unduplicate" the count. Community and technical colleges are doing a good job at promoting efficiencies. This particular efficiency will ease transfers and avoid unnecessary administrative duplication. Currently, the system has 34 data bases. Roadmaps are being designed and Common Business-Oriented Language (COBOL) code must be written to implement this bill, but it will be worth it. It is anticipated that this will be completed and implemented in the early fall of this year. Ultimately, the goal is to have a single, common student record for each student. There are plans to meet with the four-year schools regarding HB 1909 and collaboration.

(Opposed) None.

**Persons Testifying:** Senator Kilmer, prime sponsor; and Michael Scroggins, State Board for Community and Technical Colleges.

**Persons Signed In To Testify But Not Testifying:** None.
