Background:

All real and personal property is subject to property tax each year based on its value, unless a specific exemption is provided by law.

The Legislature provided a property tax exemption for property associated with the construction, conversion, or rehabilitation of qualified, multi-unit, residential structures located in a targeted residential area contained in an urban growth center. The exemption does not apply to the value of land or nonhousing-related improvements or to increases in assessed valuation made on nonqualifying portions of the building or the value of the land. A property for which an application for a certificate of tax exemption is submitted may be eligible for an eight-year tax exemption. If the property owner commits to renting or selling at least 20 percent of units as affordable housing units to low- and moderate-income households, the property may be eligible for a 12-year exemption. In the case of properties intended exclusively for owner-occupancy, the state affordable housing requirement may be satisfied by providing 20 percent of units as affordable to moderate-income households. Cities may impose additional affordable housing
