1 **Sec. 702.** RCW 46.68.060 and 2013 c 306 s 717 are each amended to
2 read as follows:

3 There is hereby created in the state treasury a fund to be known
4 as the highway safety fund to the credit of which must be deposited
5 all moneys directed by law to be deposited therein. This fund must be
6 used for carrying out the provisions of law relating to driver
7 licensing, driver improvement, financial responsibility, cost of
8 furnishing abstracts of driving records and maintaining such case
9 records, and to carry out the purposes set forth in RCW 43.59.010,
10 and chapters 46.72 and 46.72A RCW. During the 2011-2013 and 2013-2015
11 fiscal biennia, the legislature may transfer from the highway safety
12 fund to the Puget Sound ferry operations account, the motor vehicle
13 fund, and the multimodal transportation account such amounts as
14 reflect the excess fund balance of the highway safety fund. During
15 the 2015-2017 fiscal biennium, the legislature may transfer from the
16 highway safety fund to the Puget Sound ferry operations account and
17 the ignition interlock device revolving account such amounts as
18 reflect the excess fund balance of the highway safety fund.

19 **Sec. 703.** RCW 46.68.325 and 2013 c 306 s 706 are each amended to
20 read as follows:

21 (1) The rural mobility grant program account is created in the
22 state treasury. Moneys in the account may be spent only after
23 appropriation. Expenditures from the account may be used only for the
24 grants provided under RCW 47.66.100.

25 (2) Beginning September 2011, by the last day of September,
26 December, March, and June of each year, the state treasurer shall
27 transfer from the multimodal transportation account to the rural
28 mobility grant program account two million five hundred thousand
29 dollars.

30 (3) During the (~~2011-2013 and~~) 2013-2015 and 2015-2017 fiscal
31 biennia, the legislature may transfer from the rural mobility grant
32 program account to the multimodal transportation account such amounts
33 as reflect the excess fund balance of the rural mobility grant
34 program account.

35 **Sec. 704.** RCW 46.68.370 and 2013 c 306 s 713 are each amended to
36 read as follows:

37 The license plate technology account is created in the state
38 treasury. All receipts collected under RCW 46.17.015 must be

1 deposited into this account. Expenditures from this account must
2 support current and future license plate technology and systems
3 integration upgrades for both the department and correctional
4 industries. Moneys in the account may be spent only after
5 appropriation. Additionally, the moneys in this account may be used
6 to reimburse the motor vehicle account for any appropriation made to
7 implement the digital license plate system. During the ((2011-2013
8 and)) 2013-2015 and 2015-2017 fiscal biennia, the legislature may
9 transfer from the license plate technology account to the highway
10 safety account [fund] such amounts as reflect the excess fund balance
11 of the license plate technology account.

12 **Sec. 705.** RCW 47.28.030 and 2014 c 222 s 701 are each amended to
13 read as follows:

14 (1)(a) A state highway shall be constructed, altered, repaired,
15 or improved, and improvements located on property acquired for
16 right-of-way purposes may be repaired or renovated pending the use of
17 such right-of-way for highway purposes, by contract or state forces.
18 The work or portions thereof may be done by state forces when the
19 estimated costs thereof are less than fifty thousand dollars and
20 effective July 1, 2005, sixty thousand dollars.

21 (b) When delay of performance of such work would jeopardize a
22 state highway or constitute a danger to the traveling public, the
23 work may be done by state forces when the estimated cost thereof is
24 less than eighty thousand dollars and effective July 1, 2005, one
25 hundred thousand dollars.

26 (c) When the department of transportation determines to do the
27 work by state forces, it shall enter a statement upon its records to
28 that effect, stating the reasons therefor.

29 (d) To enable a larger number of small businesses and veteran,
30 minority, and women contractors to effectively compete for department
31 of transportation contracts, the department may adopt rules providing
32 for bids and award of contracts for the performance of work, or
33 furnishing equipment, materials, supplies, or operating services
34 whenever any work is to be performed and the engineer's estimate
35 indicates the cost of the work would not exceed eighty thousand
36 dollars and effective July 1, 2005, one hundred thousand dollars.

37 (2) The rules adopted under this section:

38 (a) Shall provide for competitive bids to the extent that
39 competitive sources are available except when delay of performance

1 would jeopardize life or property or inconvenience the traveling
2 public; and

3 (b) Need not require the furnishing of a bid deposit nor a
4 performance bond, but if a performance bond is not required then
5 progress payments to the contractor may be required to be made based
6 on submittal of paid invoices to substantiate proof that
7 disbursements have been made to laborers, material suppliers,
8 mechanics, and subcontractors from the previous partial payment; and

9 (c) May establish prequalification standards and procedures as an
10 alternative to those set forth in RCW 47.28.070, but the
11 prequalification standards and procedures under RCW 47.28.070 shall
12 always be sufficient.

13 (3) The department of transportation shall comply with such goals
14 and rules as may be adopted by the office of minority and women's
15 business enterprises to implement chapter 39.19 RCW with respect to
16 contracts entered into under this chapter. The department may adopt
17 such rules as may be necessary to comply with the rules adopted by
18 the office of minority and women's business enterprises under chapter
19 39.19 RCW.

20 (4)(a) For the period of March 15, (~~(2014)~~) 2015, through June
21 30, (~~(2015)~~) 2017, work for less than one hundred twenty thousand
22 dollars may be performed on ferry vessels and terminals by state
23 forces.

24 (b) The department shall hire a disinterested, third party to
25 conduct an independent analysis to identify methods of reducing out-
26 of-service times for vessel maintenance, preservation, and
27 improvement projects. The analysis must include options that consider
28 consolidating work while vessels are at shipyards by having state
29 forces perform services traditionally performed at Eagle Harbor at
30 the shipyard and decreasing the allowable time at shipyards. The
31 analysis must also compare the out-of-service vessel times of
32 performing services by state forces versus contracting out those
33 services which in turn must be used to form a recommendation as to
34 what the threshold of work performed on ferry vessels and terminals
35 by state forces should be. This analysis must be presented to the
36 transportation committees of the senate and house of representatives
37 by December 1, 2010.

38 (c) The department shall develop a proposed ferry vessel
39 maintenance, preservation, and improvement program and present it to

1 the transportation committees of the senate and house of
2 representatives by December 1, 2010. The proposed program must:

3 (i) Improve the basis for budgeting vessel maintenance,
4 preservation, and improvement costs and for projecting those costs
5 into a sixteen-year financial plan;

6 (ii) Limit the amount of planned out-of-service time to the
7 greatest extent possible, including options associated with
8 department staff as well as commercial shipyards; and

9 (iii) Be based on the service plan in the capital plan,
10 recognizing that vessel preservation and improvement needs may vary
11 by route.

12 (d) In developing the proposed ferry vessel maintenance,
13 preservation, and improvement program, the department shall consider
14 the following, related to reducing vessel out-of-service time:

15 (i) The costs compared to benefits of Eagle Harbor repair and
16 maintenance facility operations options to include staffing costs and
17 benefits in terms of reduced out-of-service time;

18 (ii) The maintenance requirements for on-vessel staff, including
19 the benefits of a systemwide standard;

20 (iii) The costs compared to benefits of staff performing
21 preservation or maintenance work, or both, while the vessel is
22 underway, tied up between sailings, or not deployed;

23 (iv) A review of the department's vessel maintenance,
24 preservation, and improvement program contracting process and
25 contractual requirements;

26 (v) The costs compared to benefits of allowing for increased
27 costs associated with expedited delivery;

28 (vi) A method for comparing the anticipated out-of-service time
29 of proposed projects and other projects planned during the same
30 construction period;

31 (vii) Coordination with required United States coast guard dry
32 dockings;

33 (viii) A method for comparing how proposed projects relate to the
34 service requirements of the route on which the vessel normally
35 operates; and

36 (ix) A method for evaluating the ongoing maintenance and
37 preservation costs associated with proposed improvement projects.

38 **Sec. 706.** RCW 47.56.876 and 2013 c 306 s 710 are each amended to
39 read as follows:

1 A special account to be known as the state route number 520 civil
2 penalties account is created in the state treasury. All state route
3 number 520 bridge replacement and HOV program civil penalties
4 generated from the nonpayment of tolls on the state route number 520
5 corridor must be deposited into the account, as provided under RCW
6 47.56.870(4)(b)(vii). Moneys in the account may be spent only after
7 appropriation. Expenditures from the account may be used to fund any
8 project within the state route number 520 bridge replacement and HOV
9 program, including mitigation. During the ((~~2011-2013 and~~)) 2013-2015
10 and 2015-2017 fiscal biennia, the legislature may transfer from the
11 state route number 520 civil penalties account to the state route
12 number 520 corridor account such amounts as reflect the excess fund
13 balance of the state route number 520 civil penalties account. Funds
14 transferred must be used solely for capital expenditures for the
15 state route number 520 bridge replacement and HOV project (8BI1003).

16 NEW SECTION. **Sec. 707.** If any provision of this act or its
17 application to any person or circumstance is held invalid, the
18 remainder of the act or the application of the provision to other
19 persons or circumstances is not affected.

20 NEW SECTION. **Sec. 708.** This act is necessary for the immediate
21 preservation of the public peace, health, or safety, or support of
22 the state government and its existing public institutions, and takes
23 effect immediately.
