BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. This act may be known and cited as the cannabis patient protection act.

NEW SECTION. Sec. 2. The legislature finds that since voters approved Initiative Measure No. 692 in 1998, it has been the public policy of the state to permit the medical use of marijuana. Between 1998 and the present day, there have been multiple legislative attempts to clarify what is meant by the medical use of marijuana and
to ensure qualifying patients have a safe, consistent, and adequate source of marijuana for their medical needs.

The legislature further finds that qualifying patients are people with serious medical conditions and have been responsible for finding their own source of marijuana for their own personal medical use. Either by growing it themselves, designating someone to grow for them, or participating in collective gardens, patients have developed methods of access in spite of continued federal opposition to the medical use of marijuana. In a time when access itself was an issue and no safe, consistent source of marijuana was available, this unregulated system was permitted by the state to ensure some, albeit limited, access to marijuana for medical use. Also permitted were personal possession limits of fifteen plants and twenty-four ounces of useable marijuana, which was deemed to be the amount of marijuana needed for a sixty-day supply. In a time when supply was not consistent, this amount of marijuana was necessary to ensure patients would be able to address their immediate medical needs.

The legislature further finds that while possession amounts are provided in statute, these do not amount to protection from arrest and prosecution for patients. In fact, patients in compliance with state law are not provided arrest protection. They may be arrested and their only remedy is to assert an affirmative defense at trial that they are in compliance with the law and have a medical need. Too many patients using marijuana for medical purposes today do not know this; many falsely believe they cannot be arrested so long as their health care provider has authorized them for the medical use of marijuana.

The legislature further finds that in 2012 voters passed Initiative Measure No. 502 which permitted the recreational use of marijuana. For the first time in our nation's history, marijuana would be regulated, taxed, and sold for recreational consumption. Initiative Measure No. 502 provides for strict regulation on the production, processing, and distribution of marijuana. Under Initiative Measure No. 502, marijuana is trackable from seed to sale and may only be sold or grown under license. Marijuana must be tested for impurities and purchasers of marijuana must be informed of the THC level in the marijuana. Since its passage, two hundred fifty producer/processor licenses and sixty-three retail licenses have been issued, covering the majority of the state. With the current product canopy exceeding 2.9 million square
feet, and retailers in place, the state now has a system of safe, consistent, and adequate access to marijuana; the marketplace is not the same marketplace envisioned by the voters in 1998. While medical needs remain, the state is in the untenable position of having a recreational product that is tested and subject to production standards that ensure safe access for recreational users. No such standards exist for medical users and, consequently, the very people originally meant to be helped through the medical use of marijuana do not know if their product has been tested for molds, do not know where their marijuana has been grown, have no certainty in the level of THC or CBD in their products, and have no assurances that their products have been handled through quality assurance measures. It is not the public policy of the state to allow qualifying patients to only have access to products that may be endangering their health.

The legislature, therefore, intends to adopt a comprehensive act that uses the regulations in place for the recreational market to provide regulation for the medical use of marijuana. It intends to ensure that patients retain their ability to grow their own marijuana for their own medical use and it intends to ensure that patients have the ability to possess more marijuana-infused products and marijuana concentrates than what is available to a recreational user. Recognizing the health concerns relating to smoking marijuana, the legislature intends to prohibit the sale of products that must be smoked at medical marijuana retail outlets, while ensuring that other methods of access to marijuana, such as vaping and use of concentrates, remain options for medical patients. It further intends that medical specific regulations be adopted as needed and under consultation of the departments of health and agriculture so that safe handling practices will be adopted and so that testing standards for medical products meet or exceed those standards in use in the recreational market.

(1) Licensing of marijuana producers, marijuana processors, and
marijuana retailers, including prescribing forms and establishing
application, reinstatement, and renewal fees.

(a) Application forms for marijuana producers must request the
applicant to state whether the applicant intends to produce marijuana
for sale by medical marijuana retailers under section 20 of this act
and the amount of or percentage of canopy the applicant intends to
commit to growing plants established to be of a THC concentration,
CBD concentration, or THC to CBD ratio appropriate for marijuana
concentrates, useable marijuana, or marijuana-infused products sold
to qualifying patients.

(b) The state liquor and cannabis board must reconsider limits on
the amount of square feet permitted to be in production on the
effective date of this section and increase the percentage of
production space for those marijuana producers who intend to grow
plants for medical marijuana retailers licensed under section 20 of
this act if the marijuana producer designates the increased
production space to plants with a THC concentration, CBD
concentration, or THC to CBD ratio appropriate for marijuana
concentrates, useable marijuana, or marijuana-infused products to be
sold to qualifying patients. If current marijuana producers do not
use all the increased production space, the state liquor and cannabis
board may reopen the license period for new marijuana producer
license applicants but only to those marijuana producers who agree to
grow plants for medical marijuana retailers licensed under section 20 of this act. Priority in licensing must be given to marijuana producer license applicants who have an application pending on the effective date of this section but who are not yet licensed and then to new marijuana producer license applicants;

(2) Determining, in consultation with the office of financial management, the maximum number of retail outlets that may be licensed in each county, taking into consideration:
   (a) Population distribution;
   (b) Security and safety issues; and
   (c) The provision of adequate access to licensed sources of useable marijuana and marijuana-infused products to discourage purchases from the illegal market;

(3)) Determining the maximum quantity of marijuana a marijuana producer may have on the premises of a licensed location at any time without violating Washington state law;

((4))) (3) Determining the maximum quantities of marijuana, marijuana concentrates, useable marijuana, and marijuana-infused products a marijuana processor may have on the premises of a licensed location at any time without violating Washington state law;

((5))) (4) Determining the maximum quantities of marijuana concentrates, useable marijuana, and marijuana-infused products a marijuana retailer may have on the premises of a retail outlet or medical marijuana retail outlet at any time without violating Washington state law;

((6)) In making the determinations required by subsections (3) through (5) of this section, the state liquor control board shall take into consideration:
   (a) Security and safety issues;
   (b) The provision of adequate access to licensed sources of marijuana, useable marijuana, and marijuana-infused products to discourage purchases from the illegal market; and
   (c) Economies of scale, and their impact on licensees' ability to both comply with regulatory requirements and undercut illegal market prices;

((7))) (5) Determining the nature, form, and capacity of all containers to be used by licensees to contain marijuana, marijuana concentrates, useable marijuana, and marijuana-infused products, and their labeling requirements, to include but not be limited to:
(a) The business or trade name and Washington state unified business identifier number of the licensees that grew, processed, and sold the marijuana, marijuana concentrates, useable marijuana, or marijuana-infused product;

(b) Lot numbers of the marijuana, marijuana concentrates, useable marijuana, or marijuana-infused product;

(c) THC concentration and CBD concentration of the marijuana, marijuana concentrates, useable marijuana, or marijuana-infused product;

(d) Medically and scientifically accurate information about the health and safety risks posed by marijuana use; and

(e) Language required by RCW 69.04.480;

((8)) (6) In consultation with the department of agriculture and the department, establishing classes of marijuana, marijuana concentrates, useable marijuana, and marijuana-infused products according to grade, condition, cannabinoid profile, THC concentration, CBD concentration, or other qualitative measurements deemed appropriate by the state liquor and cannabis board;

((9)) (7) Establishing reasonable time, place, and manner restrictions and requirements regarding advertising of marijuana, marijuana concentrates, useable marijuana, and marijuana-infused products that are not inconsistent with the provisions of this chapter ((3, Laws of 2013)), taking into consideration:

(a) Federal laws relating to marijuana that are applicable within Washington state;

(b) Minimizing exposure of people under twenty-one years of age to the advertising; and

(c) The inclusion of medically and scientifically accurate information about the health and safety risks posed by marijuana use in the advertising;

Sec. 12. RCW 69.51A.005 and 2011 c 181 s 102 are each amended to read as follows:

(1) The legislature finds that:

(a) There is medical evidence that some patients with terminal or debilitating medical conditions may, under their health care professional's care, benefit from the medical use of ((cannabis)) marijuana. Some of the conditions for which ((cannabis)) marijuana appears to be beneficial include, but are not limited to:

(i) Nausea, vomiting, and cachexia associated with cancer, HIV-positive status, AIDS, hepatitis C, anorexia, and their treatments;

(ii) Severe muscle spasms associated with multiple sclerosis, epilepsy, and other seizure and spasticity disorders;

(iii) Acute or chronic glaucoma;

(iv) Crohn's disease; and

(v) Some forms of intractable pain.
(b) Humanitarian compassion necessitates that the decision to use
((cannabis)) marijuana by patients with terminal or debilitating
medical conditions is a personal, individual decision, based upon
their health care professional's professional medical judgment and
discretion.

(2) Therefore, the legislature intends that, so long as such
activities are in strict compliance with this chapter:
(a) Qualifying patients with terminal or debilitating medical
conditions who, in the judgment of their health care professionals,
may benefit from the medical use of ((cannabis)) marijuana, shall not
be arrested, prosecuted, or subject to other criminal sanctions or
civil consequences under state law based solely on their medical use
of ((cannabis)) marijuana, notwithstanding any other provision of
law;
(b) Persons who act as designated providers to such patients
shall also not be arrested, prosecuted, or subject to other criminal
sanctions or civil consequences under state law, notwithstanding any
other provision of law, based solely on their assisting with the
medical use of ((cannabis)) marijuana; and
(c) Health care professionals shall also not be arrested,
prosecuted, or subject to other criminal sanctions or civil
consequences under state law for the proper authorization of medical
use of ((cannabis)) marijuana by qualifying patients for whom, in the
health care professional's professional judgment, the medical use of
((cannabis)) marijuana may prove beneficial.

(3) Nothing in this chapter establishes the medical necessity or
medical appropriateness of ((cannabis)) marijuana for treating
terminal or debilitating medical conditions as defined in RCW
69.51A.010.

(4) Nothing in this chapter diminishes the authority of
correctional agencies and departments, including local governments or
jails, to establish a procedure for determining when the use of
((cannabis)) marijuana would impact community safety or the effective
supervision of those on active supervision for a criminal conviction,
nor does it create the right to any accommodation of any medical use
of ((cannabis)) marijuana in any correctional facility or jail.

NEW SECTION. Sec. 15. A new section is added to chapter 69.51A RCW to read as follows:

(1) As part of adding a qualifying patient or designated provider to the medical marijuana authorization database, the health care professional may include recommendations on the amount of marijuana that is likely needed by the qualifying patient for his or her medical needs and in accordance with subsection (2) of this section. The qualifying patient or designated provider may also grow, in his or her domicile, up to six plants for the personal medical use of the qualifying patient.

(2) If a health care professional determines that the medical needs of a qualifying patient exceed the amounts provided for in subsection (1) of this section, the health care professional may recommend a greater amount of plants for the personal medical use of the patient but not to exceed fifteen plants. This amount must be entered into the medical marijuana authorization database by the authorizing health care professional.
(3) If the qualifying patient or designated provider grows plants for the medical use of the qualifying patient, the patient or provider may possess up to the amount of useable marijuana that may be produced by the number of plants for which the patient or provider is authorized.

(f) The department of revenue to verify tax exemptions under chapters 82.08 and 82.12 RCW;

(g) The department and the health care professional's disciplining authorities to monitor authorizations and ensure compliance with this chapter and chapter 18.130 RCW by their licensees; and

(h) Authorizations to expire one or two years after entry into the medical marijuana authorization database, depending on whether the authorization is for a minor or an adult.

(2) A qualifying patient and his or her designated provider, if any, must be placed in the medical marijuana authorization database by the qualifying patient's health care professional. After a qualifying patient or designated provider is placed in the medical marijuana authorization database, he or she must be provided with an authorization card that contains identifiers required in subsection (3) of this section.
(3) The authorization card requirements must be developed by the department in rule and include:
   (a) A randomly generated and unique identifying number;
   (b) For designated providers, the unique identifying number of the qualifying patient whom the provider is assisting;
   (c) A photograph of the qualifying patient's or designated provider's face taken by the authorizing health care professional in accordance with rules adopted by the department;
   (d) The amount of marijuana concentrates, marijuana-infused products, or plants for which the qualifying patient is authorized under section 15 or 24 of this act;
   (e) The effective date and expiration date of the authorization card;

   (g) For the authorization card, additional security features as necessary to ensure its validity.

(4) For qualifying patients who are eighteen years of age or older and their designated providers, authorization cards are valid for two years from the date the health care professional enters the qualifying patient or designated provider in the medical marijuana authorization database. For qualifying patients who are under the age of eighteen and their designated providers, authorization cards are valid for one year from the date the health care professional enters the qualifying patient or designated provider in the medical marijuana authorization database. Qualifying patients may not be reentered into the medical marijuana authorization database until they have been reexamined by a health care professional and determined to meet the definition of qualifying patient. After reexamination, the health care professional must reenter the qualifying patient or designated provider into the medical marijuana authorization database and a new authorization card will then be issued in accordance with department rules.

(5) If an authorization card is lost or stolen, the health care professional, in conjunction with the database administrator, may issue a new card that will be valid for one or two years if the patient is reexamined and determined to meet the definition of qualifying patient and depending on whether the patient is under the age of eighteen or eighteen years of age or older as provided in subsection (4) of this section. If a reexamination is not performed,
the expiration date of the replacement authorization card must be the same as the lost or stolen authorization card.

(6) The database administrator must remove qualifying patients and designated providers from the medical marijuana authorization database upon expiration of the authorization card. Qualifying patients and designated providers may request to remove themselves from the medical marijuana authorization database before expiration of an authorization card and health care professionals may request to remove qualifying patients and designated providers from the medical marijuana authorization database if the patient or provider no longer qualifies for the medical use of marijuana. The database administrator must retain database records for at least five calendar years to permit the state liquor and cannabis board and the department of revenue to verify eligibility for tax exemptions.

(7) During development of the medical marijuana authorization database, the database administrator must consult with the department, stakeholders, and persons with relevant expertise to include, but not be limited to, qualifying patients, designated providers, health care professionals, state and local law enforcement agencies, and the University of Washington computer science and engineering security and privacy research lab or a certified cyber security firm, vendor, or service.

(8) The medical marijuana authorization database must meet the following requirements:

(a) Any personally identifiable information included in the database must be nonreversible, pursuant to definitions and standards set forth by the national institute of standards and technology;

(b) Any personally identifiable information included in the database must not be susceptible to linkage by use of data external to the database;

(c) The database must incorporate current best differential privacy practices, allowing for maximum accuracy of database queries while minimizing the chances of identifying the personally identifiable information included therein; and

(d) The database must be upgradable and updated in a timely fashion to keep current with state of the art privacy and security standards and practices.

(9)(a) Personally identifiable information of qualifying patients and designated providers included in the medical marijuana
authorization database is confidential and exempt from public
disclosure, inspection, or copying under chapter 42.56 RCW.

(b) Information contained in the medical marijuana authorization
database may be released in aggregate form, with all personally
identifying information redacted, for the purpose of statistical
analysis and oversight of agency performance and actions.

(c) Information contained in the medical marijuana authorization
database shall not be shared with the federal government or its
agents unless the particular patient or designated provider is
convicted in state court for violating this chapter or chapter 69.50
RCW.

(10) The department must, in coordination with the database
administrator, establish a fee that is adequate to cover the costs of
administering the medical marijuana authorization database.

(11) If the database administrator fails to comply with this
section, the department may cancel any contracts with the database
administrator and contract with another database administrator to
continue administration of the database. A database administrator who
fails to comply with this section is subject to a fine of up to five
thousand dollars in addition to any penalties established in the
contract. Fines collected under this section must be deposited into
the dedicated marijuana fund created under RCW 69.50.530.

(12) The department may adopt rules to implement this section.

NEW SECTION. Sec. 18. A new section is added to chapter 42.56
RCW to read as follows:
Records in the medical marijuana authorization database
established in section 17 of this act containing names and other
personally identifiable information of qualifying patients and

RCW to read as follows:

authorization database in violation of section 17 of this act
including, but not limited to, qualifying patient or designated
provider names, addresses, or amount of marijuana for which they are authorized;

(c) Produce an authorization card or to tamper with an authorization card for the purpose of having it accepted by a medical marijuana retailer in order to purchase marijuana as a qualifying patient or designated provider or to grow marijuana plants in accordance with section 15 or 24 of this act;

(d) If a person is a designated provider to a qualifying patient, sell, donate, or supply marijuana produced or obtained for the qualifying patient to another person, or use the marijuana produced or obtained for the qualifying patient for the designated provider's own personal use or benefit; or

(e) If the person is a qualifying patient, sell, donate, or otherwise supply marijuana produced or obtained by the qualifying patient to another person.

cannabis board or department of revenue to document the validity of
tax exempt sales under RCW 69.50.535.

(f) Medical marijuana retailers must ensure that during all

are accompanied by their parent or guardian who also holds an
authorization card as the minor's designated provider.

(3) Medical marijuana retailers shall not display any signage in
a window, on a door, or on the outside of the premises of a medical
marijuana retail outlet that is visible to the general public from a
public right-of-way, other than a single sign no larger than one

No more than four people may become members of the cooperative under this section and all members must hold valid authorization cards.

(2) Cooperatives may not be located within twenty-five miles of a medical marijuana retailer. People who wish to form a cooperative must register the location with the state liquor and cannabis board and this is the only location where cooperative members may grow or process marijuana. This registration must include the names of all participating members and copies of each participant's authorization card. Only qualifying patients or designated providers registered with the state liquor and cannabis board in association with the location may participate in growing or receive useable marijuana or marijuana-infused products grown at that location. (5) The location of the cooperative must be the domicile of one of the participants. Only one cooperative may be located per property tax parcel. A copy of each participant's authorization card must be kept at the location at all times.

(6) The state liquor and cannabis board may adopt rules to implement this section, including any security requirements necessary to ensure the safety of the cooperative and to reduce the risk of diversion from the cooperative.

(7) The state liquor and cannabis board may inspect a cooperative registered under this section to ensure members are in compliance with this section. The state liquor and cannabis board must adopt rules on reasonable inspection hours and reasons for inspections.

Sec. 27. RCW 69.51A.060 and 2011 c 181 s 501 are each amended to read as follows:

(1) It shall be a class 3 civil infraction to use or display medical cannabis in a manner or place which is open to the view of the general public.

(2) Nothing in this chapter establishes a right of care as a covered benefit or requires any state purchased health care as defined in RCW 41.05.011 or other health carrier or health plan as defined in Title 48 RCW to be liable for any claim for reimbursement for the medical use of cannabis. Such entities may enact coverage or noncoverage criteria or related policies for

(3) Nothing in this chapter requires any health care professional to authorize the medical use of (cannabis) marijuana for a patient.

(4) Nothing in this chapter requires any accommodation of any on-site medical use of (cannabis) marijuana in any place of employment, in any school bus or on any school grounds, in any youth center, in any correctional facility, or smoking (cannabis) marijuana in any public place or hotel or motel. The Washington state medical quality assurance commission in consultation with the board of osteopathic medicine and surgery, or other appropriate agency as designated by the governor, shall accept
for consideration petitions submitted to add terminal or debilitating conditions to those included in this chapter. In considering such petitions, the Washington state medical quality assurance commission in consultation with the board of osteopathic medicine and surgery shall include public notice of, and an opportunity to comment in a public hearing upon, such petitions. The Washington state medical quality assurance commission in consultation with the board of osteopathic medicine and surgery may make a preliminary finding of good cause before the public hearing and shall, after hearing, approve or deny such petitions within ((one)) two hundred ((eighty)) ten days of submission. (c) A collective garden may contain no more than fifteen plants per patient up to a total of forty-five plants;

((e)) (d) A collective garden may contain no more than twenty-four ounces of useable cannabis per patient up to a total of seventy-two ounces of useable cannabis;

((e)) (e) A copy of each qualifying patient's valid documentation ((or proof of registration with the registry established in section 901 of this act)), including a copy of the patient's proof of identity, must be available at all times on the premises of the collective garden; and

p. 42

SB 5052
((f)) (f) No useable cannabis from the collective garden is delivered to anyone other than one of the qualifying patients participating in the collective garden.

(2) For purposes of this section, the creation of a "collective garden" means qualifying patients sharing responsibility for acquiring and supplying the resources required to produce and process cannabis for medical use such as, for example, a location for a collective garden; equipment, supplies, and labor necessary to plant, grow, and harvest cannabis; cannabis plants, seeds, and cuttings; and equipment, supplies, and labor necessary for proper construction, plumbing, wiring, and ventilation of a garden of cannabis plants.

(3) A person who knowingly violates a provision of subsection (1) of this section is not entitled to the protections of this chapter.

NEW SECTION. Sec. 30. A new section is added to chapter 69.50 RCW to read as follows:

(1) The state liquor and cannabis board may conduct controlled purchase programs to determine whether:

(a) A marijuana retailer is unlawfully selling marijuana to persons under the age of twenty-one;

(b) A medical marijuana retailer is selling to persons under the age of eighteen or selling to persons between the ages of eighteen and twenty-one who do not hold valid authorization cards;

(c) Until December 31, 2015, collective gardens under RCW 69.51A.085 are providing marijuana to persons under the age of twenty-one; or

(d) A cooperative organized under section 24 of this act is permitting a person under the age of twenty-one to participate.

(2) Every person under the age of twenty-one years who purchases or attempts to purchase marijuana is guilty of a violation of this chapter or chapter 69.51A RCW. This section does not apply to:

(a) Persons between the ages of eighteen and twenty-one who hold valid authorization cards and purchase marijuana at a medical marijuana retail outlet;

(b) Persons between the ages of eighteen and twenty-one years who are participating in a controlled purchase program authorized by the state liquor and cannabis board under rules adopted by the board. Violations occurring under a private, controlled purchase program authorized by the state liquor and cannabis board may not be used for criminal or administrative prosecution.
(3) A marijuana retailer or medical marijuana retailer who conducts an in-house controlled purchase program authorized under this section shall provide his or her employees a written description of the employer's in-house controlled purchase program. The written description must include notice of actions an employer may take as a consequence of an employee's failure to comply with company policies regarding the sale of marijuana during an in-house controlled purchase program.

(4) An in-house controlled purchase program authorized under this section shall be for the purposes of employee training and employer self-compliance checks. A marijuana retailer or medical marijuana retailer may not terminate an employee solely for a first-time failure to comply with company policies regarding the sale of marijuana during an in-house controlled purchase program authorized under this section.

(5) Every person between the ages of eighteen and twenty-one who is convicted of a violation of this section is guilty of a misdemeanor punishable as provided by RCW 9A.20.021, except that a minimum fine of two hundred fifty dollars shall be imposed and any sentence requiring community restitution shall require not fewer than twenty-five hours of community restitution.

Sec. 31. RCW 69.51A.100 and 2011 c 181 s 404 are each amended to read as follows:

(1) A qualifying patient may revoke his or her designation of a specific designated provider and designate a different designated provider at any time. A revocation of designation must be in writing, signed and dated, and provided to the medical marijuana authorization database administrator and designated provider. The protections of this chapter cease to apply to a person who has served as a designated provider to a qualifying patient seventy-two hours after receipt of that patient's revocation of his or her designation.

(2) A person may stop serving as a designated provider to a given qualifying patient at any time by revoking that designation in writing, signed and dated, and provided to the medical marijuana authorization database administrator and the qualifying patient. However, that person may not begin serving as a designated provider to a different qualifying patient until fifteen days have elapsed from the date the last qualifying patient designated him or her to serve as a provider.
NEW SECTION.  Sec. 32. A new section is added to chapter 69.51A RCW to read as follows:

Neither this chapter nor chapter 69.50 RCW prohibits a health care professional from selling or donating topical, noningestable products that have a THC concentration of less than .3 percent to qualifying patients.

NEW SECTION.  Sec. 33. A new section is added to chapter 82.08 RCW to read as follows:

(1) The tax levied by RCW 82.08.020 shall not apply to:
   (a) Beginning December 31, 2015, sales of marijuana concentrates, marijuana-infused products, or products containing THC with a THC concentration of 0.3 percent or less by medical marijuana retailers to qualifying patients or designated providers who hold authorization cards;
   (b) Beginning December 31, 2015, sales of products containing THC with a THC concentration of 0.3 percent or less by health care professionals under section 32 of this act; or
   (c) Until December 31, 2015, sales of marijuana concentrates, marijuana-infused products, or products containing THC with a THC concentration of 0.3 percent or less by collective gardens under RCW 69.51A.085.

(2) Each seller making exempt sales under subsection (1) of this section must maintain information establishing the purchaser's eligibility for the exemption in the form and manner required by the department.

(3) For the purposes of this section, the terms "THC concentration," "marijuana concentrates," and "marijuana-infused products" have the meaning provided in RCW 69.50.101 and the terms "qualifying patients," "designated providers," "medical marijuana retailers," and "authorization card" have the meaning provided in RCW 69.51A.010.

NEW SECTION.  Sec. 34. A new section is added to chapter 82.12 RCW to read as follows:
(1) The provisions of this chapter shall not apply to the use of marijuana concentrates, marijuana-infused products, or products containing THC with a THC concentration of 0.3 percent or less in compliance with chapter 69.51A RCW by:

(a) Until December 31, 2015, collective gardens under RCW 69.51A.085 and the qualifying patients or designated providers participating in the collective gardens;

(b) Beginning December 31, 2015, qualifying patients or designated providers who hold authorization cards and have purchased marijuana concentrates, marijuana-infused products, or products containing THC with a THC concentration of 0.3 percent from a medical marijuana retailer or who have purchased or been provided at no charge products containing THC with a THC concentration of 0.3 percent from a health care professional; or

(c) Beginning December 31, 2015, medical marijuana retailers with respect to marijuana concentrates, marijuana-infused products, or products containing THC with a THC concentration of 0.3 percent or less if such marijuana or product is provided at no charge to a qualifying patient or designated provider who holds an authorization card. Each such retailer providing such marijuana or product at no charge must maintain information establishing eligibility for this exemption in the form and manner required by the department.

(2) For the purposes of this section, the terms "THC concentration," "marijuana concentrates," and "marijuana-infused products" have the meaning provided in RCW 69.50.101 and the terms "qualifying patients," "designated providers," "medical marijuana retailers," and "authorization card" have the meaning provided in RCW 69.51A.010.

**NEW SECTION. Sec. 35.** (1) The legislature finds marijuana use for qualifying patients is a valid and necessary option health care professionals may recommend for their patients. The legislature further finds that although there is a distinction between recreational and medical use of marijuana, the changing environment for recreational marijuana use in Washington will also affect qualifying patients. The legislature further finds that while recognizing the difference between recreational and medical use of marijuana, it is imperative to develop a single, comprehensive regulatory scheme for marijuana use in the state. Acknowledging that the implementation of this act may result in changes to how
qualifying patients access marijuana for their medical use, the legislature intends to ease the transition towards a regulated market and provide a statutory means for a safe, consistent, and secure source of marijuana for qualifying patients. Therefore, the legislature intends to provide qualifying patients a retail sales and use tax exemption on purchases of marijuana for medical use when authorized by a health care professional and when purchased at a medical marijuana retailer. Because marijuana is neither a prescription medicine nor an over-the-counter medication, this policy should in no way be construed as precedence for changes in the treatment of prescription medications or over-the-counter medications.

(2)(a) This section is the tax preference performance statement for the retail sales and use tax exemptions for marijuana concentrates and marijuana-infused products purchased by qualifying patients provided in sections 33 and 34 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax preference as one intended to accomplish the general purposes indicated in RCW 82.32.808(2)(e).

(c) It is the legislature's specific public policy objective to provide qualifying patients a retail sales and use tax exemption on purchases of marijuana concentrates and marijuana-infused products for medical use when qualifying patients hold a valid authorization card.

(d) To measure the effectiveness of the exemption provided in sections 33 and 34 of this act in achieving the specific public policy objectives described in (c) of this subsection, the joint legislative audit and review committee must evaluate the actual fiscal impact of the sales and use tax exemption compared to the estimated impact in the fiscal note for this act.

(3) For the purposes of this section, the terms "authorization card," "qualifying patient," and "health care professional" have the meaning provided in RCW 69.51A.010 and the terms "marijuana concentrates" and "marijuana-infused products" have the meaning provided in RCW 69.50.101.
NEW SECTION. Sec. 36. All references to the Washington state liquor control board must be construed as referring to the Washington state liquor and cannabis board. The code reviser must prepare legislation for the 2016 legislative session changing all references in the Revised Code of Washington from the Washington state liquor control board to the Washington state liquor and cannabis board.

NEW SECTION. Sec. 37. The following acts or parts of acts are each repealed:

1. RCW 69.51A.020 (Construction of chapter) and 2011 c 181 s 103 & 1999 c 2 s 3;

NEW SECTION. Sec. 38. The following acts or parts of acts are each repealed:

1. RCW 69.51A.043 (Failure to register—Affirmative defense) and 2011 c 181 s 402; and
2. RCW 69.51A.085 (Collective gardens) and 2011 c 181 s 403.

NEW SECTION. Sec. 39. Sections 11, 15, 16, 19, 21 through 25, 27, and 38 of this act take effect December 31, 2015.

NEW SECTION. Sec. 40. Sections 29 and 30 of this act are necessary for the immediate preservation of the public health, or safety, or support of the state government and its existing public institutions, and take effect immediately.
