(4) (In the case of an application where the proposed charter school)) If an applicant intends to contract with a nonprofit
education service provider for substantial educational services, management services, or both, the applicant must:

(a) Provide evidence of the nonprofit education service provider's success in serving student populations similar to the targeted population, including demonstrated academic achievement as well as successful management of nonacademic school functions if applicable;

(b) Provide a term sheet setting forth: (i) The proposed duration of the service contract; (ii) the roles and responsibilities of the governing board, the school staff, and the service provider; (iii) the scope of services and resources to be provided by the service provider; (iv) performance evaluation measures and timelines; (v) the compensation structure, including clear identification of all fees to be paid to the service provider; (vi) methods of contract oversight and enforcement; (vii) investment disclosure; and (viii) conditions for renewal and termination of the contract; and

(c) Disclose and explain any existing or potential conflicts of interest between the charter school board and proposed service provider or any affiliated business entities.

(5) ((In the case of an application from)) If an applicant ((that)) operates one or more schools in any state or nation, the applicant must provide evidence of ((past)) the performance of those schools, including evidence of the applicant's success in serving at-risk students, and capacity for growth.

(6) Applicants may submit a proposal for a particular ((public)) charter public school to no more than one authorizer at a time.

Sec. 114. RCW 28A.710.140 and 2013 c 2 s 214 are each reenacted and amended to read as follows:

(1) The state board of education must establish an annual statewide timeline for charter application submission and approval or denial((, which)) that must be followed by all authorizers.

(2) In reviewing and evaluating charter applications, authorizers shall employ procedures, practices, and criteria consistent with nationally recognized principles and standards for quality charter authorizing. Authorizers shall give preference to applications for charter schools that are designed to enroll and serve at-risk student populations(( PROVIDED, That)). However, nothing in this chapter may be construed as intended to limit the establishment of charter schools to those that serve a substantial portion of at-risk students.
students or to in any manner restrict, limit, or discourage the establishment of charter schools that enroll and serve other pupil populations under a nonexclusive, nondiscriminatory admissions policy. The application review process must include thorough evaluation of each application, an in-person interview with the applicant group, and an opportunity to learn about and provide input on each application in a public forum including, without limitation, parents, community members, local residents, and school district board members and staff.

(3) In deciding whether to approve an application, authorizers must:

(a) Grant charters only to applicants that have demonstrated competence in each element of the authorizer's published approval criteria and are likely to open and operate a successful public charter school;

(b) Base decisions on documented evidence collected through the application review process;

(c) Follow charter-granting policies and practices that are transparent and based on merit; and

(d) Avoid any conflicts of interest whether real or apparent.

(4) An approval decision may include, if appropriate, reasonable conditions that the charter applicant must meet before a charter contract may be executed.

(5) For any denial of an application, the authorizer shall clearly state in writing its reasons for denial. A denied applicant may subsequently reapply to that authorizer or apply to another authorizer in the state.

Sec. 115. RCW 28A.710.150 and 2013 c 2 s 215 are each reenacted and amended to read as follows:

(1) A maximum of forty public charter public schools may be established under this chapter over the five-year period commencing with the effective date of this section. No more than eight charter schools may be established in any year during the five-year period, except that if in any year fewer than eight charter schools are established, additional charter schools equal in number to the difference between the number established in that year and eight may be established in subsequent years during the five-year period.
(2)(a) To ensure compliance with the limits for establishing new charter schools, certification from the state board of education must be obtained before final authorization of a charter school.

(b) Within ten days of taking action to approve or deny an application under RCW 28A.710.140, an authorizer must submit a report of the action to the applicant and (the) the state board of education. The report must include a copy of the authorizer's resolution setting forth the action taken, the reasons for the decision, and assurances of compliance with the procedural requirements and application elements under RCW 28A.710.130 and 28A.710.140. The authorizer must also indicate whether the charter school is designed to enroll and serve at-risk student populations.

The state board of education must establish, for each year in which charter schools may be authorized as part of the timeline to be established pursuant to RCW 28A.710.140, the latest annual date by which the authorizer may submit the report. The state board of education must send notice of the date by which a report must be submitted at least six months before the date established by the board.

(3) Upon the receipt of notice from an authorizer that a charter school has been approved, the state board of education shall certify whether the approval is in compliance with the limits on the maximum number of charters allowed under subsection (1) of this section. If the board receives simultaneous notification of approved charters that exceed the annual allowable limits in subsection (1) of this section, the board must select approved charters for implementation through a lottery process, and must assign implementation dates accordingly.

(4) The state board of education must notify authorizers when the maximum allowable number of charter schools has been reached.

Sec. 116. RCW 28A.710.160 and 2013 c 2 s 216 are each reenacted and amended to read as follows:

(1) The purposes of the charter application submitted under RCW 28A.710.130 are to present the proposed charter school's academic and operational vision and plans, and to demonstrate and provide the authorizer with a clear basis for evaluating the applicant's capacities to execute the proposed vision and plans. An approved charter application does not serve as the school's charter contract.
(2) Within ninety days of approval of a charter application, the authorizer and the governing board of the approved charter school must execute a charter contract. The contract must establish the terms by which the charter school agrees to provide educational services that meet basic education standards in return for a distribution of public funds that will be used for the purposes established in the contract and in this and other applicable statutes. The charter contract must clearly set forth the academic and operational performance expectations and measures by which the charter school will be evaluated and the administrative relationship between the authorizer and charter school, including each party's rights and duties. The performance provisions may be refined or amended by mutual agreement after the charter school is operating and has collected baseline achievement data for its enrolled students.

(3) If the charter school is authorized by a school district board of directors, the charter contract must be signed by the president of the applicable school district board of directors (if the school district board of directors is the authorizer or the chair of the commission if the commission is the authorizer and by) and the president of the charter school board. If the charter school is authorized by the commission, the charter contract must be signed by the chair of the commission and the president of the charter school board. Within ten days of executing a charter contract, the authorizer must submit to the state board of education written notification of the charter contract execution, including a copy of the executed charter contract and any attachments.

(4) A charter contract may govern one or more charter schools to the extent approved by the authorizer. A single charter school board may hold one or more charter contracts. However, each charter school that is part of a charter contract must be separate and distinct from any others and, for purposes of calculating the maximum number of charter schools that may be established under this chapter, each charter school must be considered a single charter school regardless of how many charter schools are governed under a particular charter contract.
(5) An initial charter contract must be granted for a term of five operating years. The contract term must commence on the charter school's first day of operation. An approved charter school may delay its opening for one school year in order to plan and prepare for the school's opening. If the school requires an opening delay of more than one school year, the school must request an extension from its authorizer. The authorizer may grant or deny the contract extension depending on the school's circumstances.

(6) Authorizers may establish reasonable preopening requirements or conditions to monitor the start-up progress of newly approved charter schools ((and)) ensure that they are prepared to open smoothly on the date agreed, and ((the)) ensure that each school meets all building, health, safety, insurance, and other legal requirements for school opening.

(7) No charter school may commence operations without a charter contract executed in accordance with this section.

(8) In accordance with section 138(4) of this act:
   (a) The state board of education must take all reasonable and necessary steps to provide parties to contracts entered into under or in accordance with chapter 2, Laws of 2013 that were in effect on December 1, 2015, with an opportunity to re-execute the contracts with the same terms and duration or substantially the same terms and duration as were in effect on December 1, 2015; and
   (b) Each authorizer must take all reasonable and necessary steps to provide parties to contracts entered into under or in accordance with chapter 2, Laws of 2013 that were in effect on December 1, 2015, with an opportunity to re-execute the contracts with the same terms and duration or substantially the same terms and duration as were in effect on December 1, 2015.

(9) Contracts executed pursuant to subsection (8) of this section do not count against the annual cap established in RCW 28A.710.150(1).

(10) For purposes of this section, "substantially the same terms and duration" includes contract modifications necessary to comply with the provisions of this chapter or other applicable law.

Sec. 117. RCW 28A.710.170 and 2013 c 2 s 217 are each reenacted and amended to read as follows:

(1) The performance provisions within a charter contract must be based on a performance framework that clearly sets forth the academic
and operational performance indicators, measures, and metrics that will guide an authorizer's evaluations of (each) a charter school within its jurisdiction.

(2) At a minimum, the performance framework must include indicators, measures, and metrics for:

(a) Student academic proficiency;
(b) Student academic growth;
(c) Achievement gaps in both proficiency and growth between major student subgroups;
(d) Attendance;
(e) Recurrent enrollment from year to year;
(f) High school graduation rates and student postsecondary readiness (for high schools);
(g) Financial performance and sustainability; and
(h) Charter school board performance and stewardship, including compliance with all applicable laws, rules, and terms of the charter contract.

(3) Annual performance targets must be set by each charter school in conjunction with its authorizer and must be designed to help each school meet applicable federal, state, and authorizer expectations.

(4) The authorizer and charter school may also include additional rigorous, valid, and reliable indicators in the performance framework to augment external evaluations of the charter school's performance.

(5) The performance framework must require the disaggregation of all student performance data by major student subgroups, including gender, race and ethnicity, poverty status, special education status, English language learner status, and highly capable status.

(6) Multiple schools operating under a single charter contract or overseen by a single charter school board must report their performance as separate schools, and each school shall be held independently accountable for its performance.

Sec. 118. RCW 28A.710.180 and 2013 c 2 s 218 are each reenacted and amended to read as follows:

(1) Each authorizer must continually monitor the performance and legal compliance of the charter schools (it oversees) under its jurisdiction, including collecting and analyzing data to support ongoing evaluation according to the performance framework in the charter contract.
(2) An authorizer may conduct or require oversight activities that enable the authorizer to fulfill its responsibilities under this chapter, including conducting appropriate inquiries and investigations, if those activities are consistent with the intent of this chapter, adhere to the terms of the charter contract, and do not unduly inhibit the autonomy granted to charter schools.

(3) In the event that a charter school's performance or legal compliance appears unsatisfactory, the authorizer must promptly notify the school of the perceived problem and provide reasonable opportunity for the school to remedy the problem. However, if the problem warrants revocation of the charter contract, the revocation procedures under RCW 28A.710.200 apply.

(4) An authorizer may take appropriate corrective actions or exercise sanctions short of revocation in response to apparent deficiencies in charter school performance or legal compliance. These actions or sanctions may include, if warranted, requiring a school to develop and execute a corrective action plan within a specified time frame.

Sec. 119. RCW 28A.710.190 and 2013 c 2 s 219 are each reenacted and amended to read as follows:

(1) A charter contract may be renewed by the authorizer, at the request of the charter school, for successive five-year terms. The authorizer, however, may vary the term based on the performance, demonstrated capacities, and particular circumstances of a charter school and may grant renewal with specific conditions for necessary improvements to a charter school.

(2) No later than six months before the expiration of a charter contract, the authorizer must issue a performance report and charter contract renewal application guidance to the charter school. The performance report must summarize the charter school's performance record to date based on the data required by the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the charter school that may, if not timely rectified, jeopardize its position in seeking renewal. The charter school has thirty days to respond to the performance report and submit any corrections or clarifications for the report.
The renewal application guidance must, at a minimum, provide an opportunity for the charter school to:

(a) Present additional evidence, beyond the data contained in the performance report, supporting its case for charter contract renewal;

(b) Describe improvements undertaken or planned for the school; and

(c) Detail the school's plans for the next charter contract term.

(4) The renewal application guidance must include or refer explicitly to the criteria that will guide the authorizer's renewal decisions, and this criteria must be based on the performance framework set forth in the charter contract.

(5) In making charter renewal decisions, an authorizer must:

(a) Base its decisions in evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(b) Ensure that data used in making renewal decisions are available to the school and the public; and

(c) Provide a public report summarizing the evidence basis for its decision.

Sec. 120. RCW 28A.710.200 and 2013 c 2 s 220 are each reenacted and amended to read as follows:

(1) An authorizer may revoke a charter contract at any time, or may refuse to renew it, if the authorizer determines that the charter school did any of the following or otherwise failed to comply with the provisions of this chapter:

(a) Committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under this chapter or the charter contract;

(b) Failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) Failed to meet generally accepted standards of fiscal management; or

(d) Substantially violated any material provision of law from which the charter school is not exempt.

(2) Except as provided otherwise by this subsection (2), an authorizer may not renew a charter contract if, at the time of the renewal application, the charter school's performance falls in the bottom quartile of schools on the

p. 24 SB 6194
((accountability)) Washington achievement index developed by the state board of education under RCW 28A.657.110((, unless)). A contract may be renewed without violating this subsection (2), however, if the charter school demonstrates exceptional circumstances that the authorizer finds justifiable.

(3) Each authorizer must develop revocation and nonrenewal processes that:
   (a) Provide the charter school board with a timely notification of the prospect of and reasons for revocation or nonrenewal;
   (b) Allow the charter school board a reasonable amount of time in which to prepare a response;
   (c) Provide the charter school board with an opportunity, at a recorded public proceeding held for that purpose, to submit documents and give testimony challenging the rationale for closure and in support of the continuation of the school ((at a recorded public proceeding held for that purpose));
   (d) Allow the charter school board to be represented by counsel and to call witnesses on its behalf; and
   (e) After a reasonable period for deliberation, require a final determination to be made and conveyed in writing to the charter school board.

(4) If an authorizer revokes or does not renew a charter contract, the authorizer must clearly state in a resolution the reasons for the revocation or nonrenewal.

(5) Within ten days of taking action to renew, not renew, or revoke a charter contract, an authorizer must submit a report of the action to the ((applicant)) charter school and ((to)) the state board of education((, which)). The report must include a copy of the authorizer's resolution setting forth the action taken, the reasons for the decision, and assurances of compliance with the procedural requirements established by the authorizer under this section.

Sec. 121. RCW 28A.710.210 and 2013 c 2 s 221 are each reenacted and amended to read as follows:

(1) Before making a decision to not renew or to revoke a charter contract, an authorizer((s)) must develop a charter school termination protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, as necessary, and proper disposition of public school funds, property, and assets. The protocol must specify tasks, timelines, and
responsible parties, including delineating the respective duties of
the charter school and the authorizer.

(2) (In the event that) If the nonprofit corporation
(operator) of a charter school should dissolve for any
reason including, without limitation, because of the termination of
the charter contract, the public school funds of the charter school
that have been provided pursuant to RCW 28A.710.220 must be returned
to the state or local account from which the public funds originated.
If the charter school has commingled the funds, the funds must be
returned in proportion to the proportion of those funds received by
the charter school from the public accounts in the last year
preceding the dissolution. The dissolution of (applicant) a
nonprofit corporation shall otherwise proceed as provided by law.

(3) A charter contract may not be transferred from one authorizer
to another or from one charter school (applicant) to another before
the expiration of the charter contract term except by petition to the
state board of education by the charter school or its authorizer. The
state board of education must review such petitions on a case-by-case
basis and may grant transfer requests in response to special
circumstances and evidence that such a transfer would serve the best
interests of the charter school's students.

Sec. 122. RCW 28A.710.220 and 2013 c 2 s 222 are each reenacted
and amended to read as follows:

(1) Charter schools must report student enrollment in the same
manner and based on the same definitions of enrolled students and
annual average full-time equivalent enrollment as other public
schools. Charter schools must comply with applicable reporting
requirements to receive state or federal funding that is
(allocated) distributed based on student characteristics.

(2) (According to the schedule established under RCW
28A.510.250, the superintendent of public instruction shall allocate
funding for a charter school including general apportionment, special
education, categorical, and other nonbasic education moneys.
Allocations must be based on the statewide average staff mix ratio of
all noncharter public schools from the prior school year and the
school's actual full-time equivalent enrollment. Categorical funding
must be allocated to a charter school based on the same funding
criteria used for noncharter public schools and the funds must be
expended as provided in the charter contract. A charter school is

p. 26   SB 6194
eligible to apply for state grants on the same basis as a school
district.) In accordance with appropriations made under sections 127
and 128 of this act, the superintendent of public instruction shall
distribute state funding to charter schools according to the schedule
established in RCW 28A.510.250.

(3) ((Allocations for pupil transportation must be calculated on
a per student basis based on the allocation for the previous school
year to the school district in which the charter school is located. A
charter school may enter into a contract with a school district or
other public or private entity to provide transportation for the
students of the school.

(4)) Amounts ((payable)) distributed to a charter school under
this section in the school's first year of operation must be based on
the projections of first-year student enrollment established in the
charter contract. The office of the superintendent of public
instruction must reconcile the amounts ((paid)) distributed in the
first year of operation to the amounts that would have been ((paid))
distributed based on actual student enrollment and make adjustments
to the charter school's ((allocations)) distributions over the course
of the second year of operation.

((5) For charter schools authorized by a school district board
of directors, allocations to a charter school that are included in
RCW 84.52.0531(3) (a) through (c) shall be included in the levy
planning, budgets, and funding distribution in the same manner as
other public schools in the district.

(6) Conversion charter schools are eligible for local levy moneys
approved by the voters before the conversion start-up date of the
school as determined by the authorizer, and the school district must
allocate levy moneys to a conversion charter school.

(7) New charter schools are not eligible for local levy moneys
approved by the voters before the start-up date of the school unless
the local school district is the authorizer.

(8) For levies submitted to voters after the start-up date of a
charter school authorized under this chapter, the charter school must
be included in levy planning, budgets, and funding distribution in
the same manner as other public schools in the district.

((9)) (4) Any moneys received by a charter school from any source
and remaining in the school's accounts at the end of ((any)) a budget
year ((shall)) must remain in the school's accounts for use by the
school during subsequent budget years.
Sec. 123. RCW 28A.710.230 and 2013 c 2 s 223 are each reenacted
and amended to read as follows:

(1) Charter schools are eligible for state ((matching funds))
funding for ((common)) school construction. However, such
appropriations may not be made from the common school construction
fund.

(2) ((A)) If a school district decides to sell or lease the
public school facility or property pursuant to RCW 28A.335.040 or
28A.335.120, a charter school ((has)) located within the boundaries
of the district has a right of first refusal to purchase or lease at
((or below)) fair market value a closed public school facility or
property or unused portions of a public school facility or property
((located in a school district from which it draws its students if
the school district decides to sell or lease the public school
facility or property pursuant to RCW 28A.335.040 or 28A.335.120)) by
negotiated agreement with mutual consideration. The consideration may
include the provision of educational services by the charter school.

(3) A charter school may negotiate and contract with a school
district, the governing body of a public college or university, or
any other public or private entity for the use of a facility for a
school building at ((or below)) fair market rent.

(4) Public libraries, community service organizations, museums,
performing arts venues, theaters, and public or private colleges and
universities may provide space to charter schools within their
facilities under their preexisting zoning and land use designations.

(5) A conversion charter school, by negotiated agreement with
mutual consideration and as part of the consideration for providing
educational services under the charter contract, may continue to use
its existing school district facility ((without paying rent to the
school district that owns the facility)). The district remains
responsible for major repairs and safety upgrades that may be
required for the continued use of the facility as a public school.
The charter school is responsible for routine maintenance of the
facility including, but not limited to, cleaning, painting,
gardening, and landscaping. The charter contract of a conversion
charter school using existing facilities that are owned by its school
district must include reasonable and customary terms regarding the
use of the existing facility that are binding upon the charter school
and the school district.
Sec. 124. RCW 28A.710.240 and 2013 c 2 s 224 are each reenacted to read as follows:

Years of service in a charter school by certificated instructional staff shall be included in the years of service calculation for purposes of the statewide salary allocation schedule under RCW 28A.150.410. This section does not require a charter school to pay a particular salary to its staff while the staff is employed by the charter school.

Sec. 125. RCW 28A.710.250 and 2013 c 2 s 225 are each reenacted and amended to read as follows:

(1) By December 1st of each year beginning in the first year after there have been charter schools operating for a full school year, the state board of education, in collaboration with the commission, must issue a report on the performance of the state's charter schools during the preceding school year to the governor, the legislature, and the public at large.

(2) The annual report must be based on the reports submitted by each authorizer as well as any additional relevant data compiled by the state board of education. The report must include a comparison of the performance of charter school students with the performance of academically, ethnically, and economically comparable groups of students in other public schools. In addition, the annual report must include the state board of education's assessment of the purposes of this chapter, including the board's assessment of the sufficiency of funding for charter schools, the efficacy of the formula for authorizer funding, and any suggested changes in state law or policy necessary to strengthen the state's charter schools.

(3) Together with the issuance of the annual report following the fifth year after there have been charter schools operating for a full school year, the state board of education, in collaboration with the commission, shall submit a recommendation regarding whether or not the legislature should authorize the establishment of additional charter public schools.

Sec. 126. RCW 28A.710.260 and 2014 c 221 s 911 are each reenacted to read as follows:

The charter schools oversight account is hereby created in the state treasury. All moneys received by the commission under RCW...
28A.710.110 must be deposited into the account. Moneys in the account
may be spent only after appropriation. Expenditures from the account
may be used only for the purposes of this chapter.

NEW SECTION. Sec. 127. A new section is added to chapter
28A.710 RCW to read as follows:
The state legislature shall, at each regular session in an odd-
numbered year, appropriate for the current use of charter schools
amounts as determined in accordance with section 128 of this act, and
amounts authorized under RCW 28A.710.230(1), for state support to
charter schools during the ensuing biennium.

NEW SECTION. Sec. 128. A new section is added to chapter
28A.710 RCW to read as follows:
(1) The legislature intends that the state funding distributed
for charter schools should be equitable to the state funding received
by other public schools. For eligible students enrolled in a charter
school established and operating in accordance with this chapter, the
superintendent of public instruction shall transmit to each charter
school an amount per each full-time equivalent student at statewide
uniform rates. The calculations and distributions must be based upon
the estimated statewide annual average per full-time equivalent
student allocations under RCW 28A.150.260, including any enrichment
to those statutory formulae that is specified in the omnibus
appropriations act. The amount must be the sum of (a) and (b) of this
subsection, as applicable.
(a) The superintendent shall, for purposes of making
distributions under this section, separately calculate and distribute
to charter schools moneys appropriated for general apportionment
under the same ratios as in RCW 28A.150.260.
(b) The superintendent also shall, for purposes of making
distributions under this section, and in accordance with the
applicable formulae for categorical programs specified in (b)(i)
through (v) of this subsection (1) and any enrichment to those
statutory formulae that is specified in the omnibus appropriations
act, separately calculate and distribute moneys appropriated by the
legislature to charter schools for:
(i) Supplemental instruction and services for underachieving
students through the learning assistance program under RCW
28A.165.005 through 28A.165.065;
(ii) Supplemental instruction and services for eligible and enrolled students and exited students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(iii) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020;

(iv) Programs for highly capable students under RCW 28A.185.010 through 28A.185.030; and

(v) Pupil transportation services to and from school in accordance with RCW 28A.160.150 through 28A.160.180. Distributions for pupil transportation must be calculated on a per student basis based on the allocation for the previous school year to the school district in which the charter school is located.

(2) The superintendent of public instruction must adopt rules necessary for the distribution of funding required by this section and to comply with federal reporting requirements.

Sec. 129. RCW 28A.150.010 and 2013 c 2 s 301 are each reenacted and amended to read as follows:

duties, and boundaries thereof, may be altered or abolished by laws
of the state of Washington.

such additional payments by other parties as necessary to cover the actual and full costs of such instruction and other activities.

lowered legislative appropriations, the superintendent of public
instruction shall issue pro rata reductions to all centers funded at
the time of the lowered appropriation. Individual centers may be
exempted from such pro rata reductions if the superintendent finds
that such reductions would impair the center's ability to operate at
minimally acceptable levels of service. In the event of such
exceptions, the superintendent shall determine an appropriate rate
for reduction to permit the center to continue operation.

   (5) In the event that an additional center or centers become
certified and apply to the superintendent for funds to be
((allocated)) distributed from a legislative appropriation which does
not increase from the immediately preceding biennium, or does not

Based on this information, the office of the superintendent of public instruction shall compile a list of transportation service options being used and make that list available to all after-school program providers that were eligible for the community learning center program grants.

(5) To the extent that funding is available for this purpose, the office of the superintendent of public instruction may provide grants or other support for the training and professional development of community learning center staff, the activities of intermediary after-school organizations, and efforts to increase public awareness of the availability and benefits of after-school programs.
(6) Schools or school districts that receive a community learning center grant under this section may seek approval from the office of the superintendent of public instruction for flexibility to use a portion of their state transportation funds for the costs of transporting students to and from the community learning center program.

The amount of state funds to be provided shall be determined in accordance with the state funding formulae, including general apportionment, special education, categorical, any enrichment to those statutory formulae that is specified in the omnibus appropriations act, and other nonbasic education moneys. Distributions for certificated instructional staff must be based on the average staff mix ratio of the school, as separately calculated by the superintendent of public instruction using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act. Distributions for classified staff and certificated administrative staff must be based on the salary allocations of the school district in which the school
is located, subject to conditions and limitations established by the omnibus appropriations act. Nothing in this section requires a school that is the subject of a state-tribal education compact to use the statewide salary allocation schedule. Such a school is eligible to apply for state grants on the same basis as a school district.

(3) Any moneys received by a school that is the subject of a state-tribal education compact from any source that remain in the school's accounts at the end of any budget year must remain in the school's accounts for use by the school during subsequent budget years.
