6 read as follows:

7 As used in this chapter:

8 (1) "Emergency management" or "comprehensive emergency  
9 management" means the preparation for and the carrying out of all  
10 emergency functions, other than functions for which the military  
11 forces are primarily responsible, to mitigate, prepare for, respond  
12 to, and recover from emergencies and disasters, and to aid victims  
13 suffering from injury or damage, resulting from disasters caused by  
14 all hazards, whether natural, technological, or human caused, and to

21 means an organization created in accordance with the provisions of

4 (4) "Emergency worker" means any person who is registered with a  
5 local emergency management organization or the department and holds  
6 an identification card issued by the local emergency management  
7 director or the department for the purpose of engaging in authorized

9 Washington or any political subdivision thereof who is called upon to  
10 perform emergency management activities.

11 (5) "Injury" as used in this chapter shall mean and include  
12 accidental injuries and/or occupational diseases arising out of  
13 emergency management activities.

14 (6)(a) "Emergency or disaster" as used in all sections of this  
15 chapter except RCW 38.52.430 shall mean an event or set of  
16 circumstances which: (i) Demands immediate action to preserve public  
17 health, protect life, protect public property, or to provide relief  
18 to any stricken community overtaken by such occurrences, or (ii)  
19 reaches such a dimension or degree of destructiveness as to warrant  
20 the governor declaring a state of emergency pursuant to RCW  
21 43.06.010.

22 (b) "Emergency" as used in RCW 38.52.430 means an incident that

30 including instances involving searches for downed aircraft when

32 appropriate activity by the department of transportation under  
33 chapter 47.68 RCW.

34 (8) "Executive head" and "executive heads" means the county  
35 executive in those charter counties with an elective office of county  
36 executive, however designated, and, in the case of other counties,

22 services.

23 (15) "Incident command system" means: (a) An all-hazards, on-  
24 scene functional management system that establishes common standards  
25 in organization, terminology, and procedures; provides a means

28 operations while maintaining individual agency/jurisdiction  
29 authority, responsibility, and accountability; and is a component of  
30 the national interagency incident management system; or (b) an

1       **Sec. 2.** RCW 38.52.020 and 1986 c 266 s 24 are each amended to  
2 read as follows:

3       (1) Because of the existing and increasing possibility of the  
4 occurrence of disasters of unprecedented size and destructiveness as  
5 defined in RCW 38.52.010(6), and in order to insure that preparations  
6 of this state will be adequate to deal with such disasters, to insure  
7 the administration of state and federal programs providing disaster  
8 relief to individuals, and further to insure adequate support for  
9 search and rescue operations, and generally to protect the public  
10 peace, health, and safety, and to preserve the lives and property of  
11 the people of the state, it is hereby found and declared to be  
12 necessary:

13       (a) To provide for emergency management by the state, and to  
14 authorize the creation of local organizations for emergency  
15 management in the political subdivisions of the state;

16       (b) To confer upon the governor and upon the executive heads of  
17 the political subdivisions of the state the emergency powers provided  
18 herein;

19       (c) To provide for the rendering of mutual aid among the  
20 political subdivisions of the state and with other states and to  
21 cooperate with the federal government with respect to the carrying  
22 out of emergency management functions;

23       (d) To provide a means of compensating emergency management  
24 workers who may suffer any injury, as herein defined, or death; who  
25 suffer economic harm including personal property damage or loss; or  
26 who incur expenses for transportation, telephone or other methods of  
27 communication, and the use of personal supplies as a result of  
28 participation in emergency management activities; (~~and~~))

29       (e) To provide programs, with intergovernmental cooperation, to  
30 educate and train the public to be prepared for emergencies; and

31       (f) To provide for the prioritization, development, and exercise  
32 of continuity of operations plans by the state.

33       (2) It is further declared to be the purpose of this chapter and  
34 the policy of the state that all emergency management functions of  
35 this state and its political subdivisions be coordinated to the  
36 maximum extent with the comparable functions of the federal  
37 government including its various departments and agencies of other  
38 states and localities, and of private agencies of every type, to the  
39 end that the most effective preparation and use may be made of the

1 nation's manpower, resources, and facilities for dealing with any  
2 disaster that may occur.

3 **Sec. 3.** RCW 38.52.030 and 1997 c 49 s 2 are each amended to read  
4 as follows:

5 (1) The director may employ such personnel and may make such  
6 expenditures within the appropriation therefor, or from other funds  
7 made available for purposes of emergency management, as may be  
8 necessary to carry out the purposes of this chapter.

9 (2) The director, subject to the direction and control of the  
10 governor, shall be responsible to the governor for carrying out the  
11 program for emergency management of this state. The director shall  
12 coordinate the activities of all organizations for emergency  
13 management within the state, and shall maintain liaison with and  
14 cooperate with emergency management agencies and organizations of  
15 other states and of the federal government, and shall have such  
16 additional authority, duties, and responsibilities authorized by this  
17 chapter, as may be prescribed by the governor.

18 (3) The director shall develop and maintain a comprehensive, all-  
19 hazard emergency plan for the state which shall include an analysis  
20 of the natural, technological, or human caused hazards which could  
21 affect the state of Washington, and shall include the procedures to  
22 be used during emergencies for coordinating local resources, as  
23 necessary, and the resources of all state agencies, departments,  
24 commissions, and boards. The comprehensive emergency management plan  
25 shall direct the department in times of state emergency to administer  
26 and manage the state's emergency operations center. This will include  
27 representation from all appropriate state agencies and be available  
28 as a single point of contact for the authorizing of state resources  
29 or actions, including emergency permits. The comprehensive emergency  
30 management plan must specify the use of the incident command system  
31 for multiagency/multijurisdiction operations. The comprehensive, all-  
32 hazard emergency plan authorized under this subsection may not  
33 include preparation for emergency evacuation or relocation of  
34 residents in anticipation of nuclear attack. This plan shall be known  
35 as the comprehensive emergency management plan.

36 (4) In accordance with the comprehensive emergency management  
37 plans and the programs for the emergency management of this state,  
38 the director shall procure supplies and equipment, institute training  
39 programs and public information programs, and shall take all other

1 preparatory steps, including the partial or full mobilization of  
2 emergency management organizations in advance of actual disaster, to  
3 insure the furnishing of adequately trained and equipped forces of  
4 emergency management personnel in time of need.

5 (5) The director shall make such studies and surveys of the  
6 industries, resources, and facilities in this state as may be  
7 necessary to ascertain the capabilities of the state for emergency  
8 management, and shall plan for the most efficient emergency use  
9 thereof.

10 (6) The emergency management council shall advise the director on  
11 all aspects of the communications and warning systems and facilities  
12 operated or controlled under the provisions of this chapter.

13 (7) The director, through the state enhanced 911 coordinator,  
14 shall coordinate and facilitate implementation and operation of a  
15 statewide enhanced 911 emergency communications network.

16 (8) The director shall appoint a state coordinator of search and  
17 rescue operations to coordinate those state resources, services and  
18 facilities (other than those for which the state director of  
19 aeronautics is directly responsible) requested by political  
20 subdivisions in support of search and rescue operations, and on  
21 request to maintain liaison with and coordinate the resources,  
22 services, and facilities of political subdivisions when more than one  
23 political subdivision is engaged in joint search and rescue  
24 operations.

25 (9) The director, subject to the direction and control of the  
26 governor, shall prepare and administer a state program for emergency  
27 assistance to individuals within the state who are victims of a  
28 natural, technological, or human caused disaster, as defined by RCW  
29 38.52.010(6). Such program may be integrated into and coordinated  
30 with disaster assistance plans and programs of the federal government  
31 which provide to the state, or through the state to any political  
32 subdivision thereof, services, equipment, supplies, materials, or  
33 funds by way of gift, grant, or loan for purposes of assistance to  
34 individuals affected by a disaster. Further, such program may  
35 include, but shall not be limited to, grants, loans, or gifts of  
36 services, equipment, supplies, materials, or funds of the state, or  
37 any political subdivision thereof, to individuals who, as a result of  
38 a disaster, are in need of assistance and who meet standards of  
39 eligibility for disaster assistance established by the department of  
40 social and health services: PROVIDED, HOWEVER, That nothing herein

1 shall be construed in any manner inconsistent with the provisions of  
2 Article VIII, section 5 or section 7 of the Washington state  
3 Constitution.

4 (10) The director shall appoint a state coordinator for  
5 radioactive and hazardous waste emergency response programs. The  
6 coordinator shall consult with the state radiation control officer in  
7 matters relating to radioactive materials. The duties of the state  
8 coordinator for radioactive and hazardous waste emergency response  
9 programs shall include:

10 (a) Assessing the current needs and capabilities of state and  
11 local radioactive and hazardous waste emergency response teams on an  
12 ongoing basis;

14 for the purpose of updating skills relating to emergency mitigation,  
15 preparedness, response, and recovery;

17 by the federal emergency management agency, the department of  
18 transportation and the environmental protection agency; and

19 (d) Undertaking other duties in this area that are deemed  
20 appropriate by the director.

21 (11) The director is responsible to the governor to lead the  
22 development and management of a program for interagency coordination  
23 and prioritization of continuity of operations planning by state  
24 agencies. Each state agency is responsible for developing an  
25 organizational continuity of operations plan that is updated and  
26 exercised annually in compliance with the program for interagency
