Chief Clerk

FILED

**Secretary of State
State of Washington**

ENGROSSED SUBSTITUTE HOUSE BILL 1952

AS AMENDED BY THE SENATE

Passed Legislature - 2018 Regular Session

State of Washington **65th Legislature** **2017 Regular Session**

By House Labor & Workplace Standards (originally sponsored by Representatives Blake, J. Walsh, Pellicciotti, Chapman, Stambaugh, and Ormsby)

READ FIRST TIME 02/17/17.

1 AN ACT Relating to enforcement of the electrical laws; amending
2 RCW 19.28.010; adding a new section to chapter 19.28 RCW; and
3 prescribing penalties.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 19.28.010 and 2001 c 211 s 2 are each amended to
6 read as follows:

7 (1) All wires and equipment, and installations thereof, that
8 convey electric current and installations of equipment to be operated
9 by electric current, in, on, or about buildings or structures, except
10 for telephone, telegraph, radio, and television wires and equipment,
11 and television antenna installations, signal strength amplifiers, and
12 coaxial installations pertaining thereto shall be in strict
13 conformity with this chapter, the statutes of the state of
14 Washington, and the rules issued by the department, and shall be in
15 conformity with approved methods of construction for safety to life
16 and property. All wires and equipment that fall within section
17 90.2(b)(5) of the National Electrical Code, 1981 edition, are exempt
18 from the requirements of this chapter. The regulations and articles
19 in the National Electrical Code, the national electrical safety code,
20 and other installation and safety regulations approved by the
21 national fire protection association, as modified or supplemented by

1 rules issued by the department in furtherance of safety to life and
2 property under authority hereby granted, shall be prima facie
3 evidence of the approved methods of construction. All materials,
4 devices, appliances, and equipment used in such installations shall
5 be of a type that conforms to applicable standards or be indicated as
6 acceptable by the established standards of any electrical product
7 testing laboratory which is accredited by the department. Industrial
8 control panels, utilization equipment, and their components do not
9 need to be listed, labeled, or otherwise indicated as acceptable by
10 an accredited electrical product testing laboratory unless
11 specifically required by the National Electrical Code, 1993 edition.

12 (2) Residential buildings or structures moved into or within a
13 county, city, or town are not required to comply with all of the
14 requirements of this chapter, if the original occupancy
15 classification of the building or structure is not changed as a
16 result of the move. This subsection shall not apply to residential
17 buildings or structures that are substantially remodeled or
18 rehabilitated.

19 (3) This chapter shall not limit the authority or power of any
20 city or town to enact and enforce under authority given by law, any
21 ordinance, rule, or regulation requiring an equal, higher, or better
22 standard of construction and an equal, higher, or better standard of
23 materials, devices, appliances, and equipment than that required by
24 this chapter. A city or town shall require that its electrical
25 inspectors meet the qualifications provided for state electrical
26 inspectors in accordance with RCW 19.28.321. In a city or town having
27 an equal, higher, or better standard the installations, materials,
28 devices, appliances, and equipment shall be in accordance with the
29 ordinance, rule, or regulation of the city or town.

30 (4) Incorporated cities and towns where electrical inspections
31 are required by local ordinances may enforce the provisions of RCW
32 19.28.041(1), 19.28.161, 19.28.271(1), 19.28.420(1), and applicable
33 licensing and certification rules within their respective
34 jurisdictions. Nothing in this subsection diminishes the authority of
35 the department to enforce the provisions of RCW 19.28.041(1),
36 19.28.161, 19.28.271(1), 19.28.420(1), and applicable licensing and
37 certification rules within any city or town.

38 (5) Electrical equipment associated with spas, hot tubs, swimming
39 pools, and hydromassage bathtubs shall not be offered for sale or
40 exchange unless the electrical equipment is certified as being in

1 compliance with the applicable product safety standard by bearing the
2 certification mark of an approved electrical products testing
3 laboratory.

4 ~~((4))~~ (6) Nothing in this chapter may be construed as
5 permitting the connection of any conductor of any electric circuit
6 with a pipe that is connected with or designed to be connected with a
7 waterworks piping system, without the consent of the person or
8 persons legally responsible for the operation and maintenance of the
9 waterworks piping system.

10 NEW SECTION. **Sec. 2.** A new section is added to chapter 19.28
11 RCW to read as follows:

12 This chapter shall not limit the authority or power of any city
13 or town where electrical inspections are required by local ordinances
14 to enact and enforce under authority given by law, any ordinance,
15 rule, or regulation enforcing the same requirements of this chapter
16 for having or possessing or displaying a license or a certificate,
17 employing certified individuals, supervision of trainees, or duties
18 of an administrator in their respective jurisdictions. Penalties are
19 to be established within the limits provided in this chapter. No
20 person, firm, partnership, corporation, or other entity may be
21 penalized by both a city or town and the department for the same
22 violation. Each day that a person, firm, partnership, corporation, or
23 other entity violates this chapter is a separate violation. Penalties
24 upheld through an appellate process of a city or town may be appealed
25 to the board by filing a written notice of appeal to the secretary of
26 the board. All costs of an appeal under this section payable from the
27 electrical license fund shall be reimbursed by the city or town that
28 is party to the matter. The process for service and hearings before
29 the board shall be conducted according to the rules enacted by the
30 department.

--- END ---
