The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and
clinical input constitute reliable data upon which to determine the payment rates.

When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees.

The appropriations in this section are subject to the following conditions and limitations:

(a) Sufficient amounts are appropriated in this subsection to implement the medical aid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(b) Medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(c) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations,
the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(d) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(e) It is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(f) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(g) $4,261,000 of the general fund—state appropriation for fiscal year 2018, $4,261,000 of the general fund—state appropriation for fiscal year 2019, and $8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(h) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(i) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the
nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(j) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2017-2019 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of: (i) The inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2017; (ii) one-half of the indigent assistance disproportionate share hospital payment amounts that would have been paid during the fiscal year for patients classified as indigent assistance during the fiscal year.
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005; and (iii) all of the other disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005 to the extent the same disproportionate share
hospital programs exist in the 2017-2019 fiscal biennium. If payments
during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal
portion of allowable disproportionate share hospital payments for
which the hospital can certify allowable match. If payments during
the fiscal year are less than the baseline amount, the hospital will
be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the
state grant shall be made in the applicable fiscal year and
distributed in monthly payments. The grants will be recalculated and
redistributed as the baseline is updated during the fiscal year. The
grant payments are subject to an interim settlement within eleven
months after the end of the fiscal year. A final settlement shall be
performed. To the extent that either settlement determines that a
hospital has received funds in excess of what it would have received
as described in this subsection, the hospital must repay the excess
amounts to the state when requested. $15,965,000 of the general fund—
state appropriation for fiscal year 2018 and $18,389,000 of the
general fund—state appropriation for fiscal year 2019 are provided
solely for state grants for the participating hospitals.

(k) The health care authority shall seek public-private
partnerships and federal funds that are or may become available to
provide on-going support for outreach and education efforts under the
federal children's health insurance program reauthorization act of
2009.

(l) The health care authority shall target funding for maternity
support services towards pregnant women with factors that lead to
higher rates of poor birth outcomes, including hypertension, a
preterm or low birth weight birth in the most recent previous birth,
a cognitive deficit or developmental disability, substance abuse,
severe mental illness, unhealthy weight or failure to gain weight,
tobacco use, or African American or Native American race. The health
care authority shall prioritize evidence-based practices for delivery
of maternity support services. To the extent practicable, the health
care authority shall develop a mechanism to increase federal funding
for maternity support services by leveraging local public funding for those services.

(m) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(n) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(o) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(p) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(q) $90,000 of the general fund—state appropriation for fiscal year 2018, $90,000 of the general fund—state appropriation for fiscal year 2019, and $180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(r) The appropriations in this section reflect savings and efficiencies by transferring children receiving medical care provided through fee-for-service to medical care provided through managed care.

(s) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(t) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to
the application of the new modified adjusted gross income eligibility standard.

(u) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(v) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(w) The authority shall submit reports to the governor and the legislature by September 15, 2018, and by September 15, 2019, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(x) $140,000 of the general fund—state appropriation for fiscal year 2018 and $140,000 of the general fund—federal appropriation are provided solely for the health care authority to develop a state inpatient psychiatric managed care capitation risk model. The model shall be submitted to the governor and appropriate committees of the legislature by October 1, 2017. The model must integrate inpatient psychiatric hospitals services into the managed care capitation rate, including commitments for medicaid and nonmedicaid covered individuals. The model should phase-in the financial risk such that managed care organizations bear full financial risk for civil inpatient psychiatric hospital commitments beginning January 2020.

(y) The health care authority shall evaluate adding a tele-psychiatry consultation benefit for medicaid covered individuals. The authority shall submit a report with the cost associated with adding
such a benefit to the governor and appropriate committees of the legislature by October 1, 2017.

(z) Beginning July 1, 2017, new psychiatric hospitals and units with more than 200 medicaid psychiatric days will be eligible for provider-specific per diem rates. In collaboration with the state hospital association, the authority shall develop and implement a process to review hospital cost report information for new, in-state hospital psychiatric inpatient services that have not had provider specific costs and determine the hospital-specific per diem rate as currently defined for existing providers of psychiatric inpatient services. The authority shall also develop and implement a process to update the per diem rates for existing providers of psychiatric inpatient services using more recent cost data. All updated per diem rates for new and existing providers will be adjusted in order to achieve target aggregate expenditures.

(aa) $13,761,000 of the general fund—state appropriation for fiscal year 2018, $13,761,000 of the general fund—state appropriation for fiscal year 2019, and $14,818,000 of the general fund—federal appropriation are provided for behavioral health organizations receiving funds for community hospitals or evaluation and treatment center beds under (k) of this subsection.

(bb) $81,180,000 of the general fund—state appropriation for fiscal year 2018 and $81,180,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance.

(cc) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(dd) $750,000 of the general fund—state appropriation for fiscal year 2018 and $750,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential

and support services provided by behavioral health organizations through other state and federal funding.

(ee) $1,125,000 of the general fund—state appropriation for fiscal year 2018 and $1,125,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the Spokane county regional behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county regional behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(ff) $1,204,000 of the general fund—state appropriation for fiscal year 2018 and $1,204,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(gg) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (e) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential
care, and outpatient services presently available to persons not eligible for medicaid.

(hh) $2,291,000 of the general fund—state appropriation for fiscal year 2018 and $2,291,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(jj) $11,405,000 of the general fund—state appropriation for fiscal year 2018, $11,405,000 of the general fund—state appropriation for fiscal year 2019, and $17,680,000 of the general fund—federal appropriation are provided solely for enhancement of community mental health services. The authority must contract these funds for the operation of community programs in which the authority determines there is a need for capacity that allows individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King county behavioral health organization, the Spokane county regional behavioral health organization, and the Thurston Mason behavioral health organization; (ii) one new full program of an assertive community treatment team in the King county behavioral health organization and two new half programs of assertive community treatment teams in the Spokane county regional behavioral health organization and the Pierce behavioral health organization; and (iii) three new recovery support services programs in the Great Rivers behavioral health organization, the greater Columbia behavioral health organization, and the north sound behavioral health organization. In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may
consider contracting for that service in another behavioral health organization that has the need for such service.

(kk) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(15) The superintendent may distribute funding for the following programs outside the basic education formula during fiscal years 2018 and 2019 as follows:

state allocations for certificated instructional, certificated
administrative, and classified staff units as provided in RCW

(a) Salary allocations for certificated instructional staff units
are determined for each district by multiplying the district's

by the district's average staff mix factor for certificated
instructional staff in that school year, computed using OFM Document
1; and

(b) The per full-time-equivalent twelve month salary allocations
for certificated administrative staff units for each district are
$78,395 in school year 2017-18 and $114,612 in school year 2018-19.
The per full-time-equivalent twelve month salary allocations for
classified staff units for each district are $39,457 in school year
2017-18 and $52,908 in school year 2018-19.

(2) For the purposes of this section:

(a) "OFM Document 1" means the staff mix factors for certificated
instructional staff according to certification, degree attainment,
and years of experience, as developed by the office of financial
management on December 11, 2016, at 9:06 hours; and

(b) "OFM Document 2" means total base salaries for certificated
instructional staff as developed by the office of financial
management on December 11, 2016, at 9:06 hours.
Incremental fringe benefit factors are applied to salary adjustments at a rate of 22.85 percent for school year 2017-18 and 22.85 percent for school year 2018-19 for certificated instructional and certificated administrative staff and 21.1 percent for school year 2017-18 and 21.1 percent for the 2018-19 school year for classified staff.

Sec. 958. RCW 43.155.050 and 2015 3rd sp.s. c 4 s 959 and 2015 3rd sp.s. c 3 s 7032 are each reenacted and amended to read as follows:
The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. During the 2015-2017 fiscal biennium, the legislature may transfer from the public works assistance account to the general fund, the water pollution control revolving account, and the drinking water assistance account such amounts as reflect the excess fund balance of the account. (During the 2013-2015 fiscal biennium, the legislature may transfer from the public works assistance account to the education legacy trust account such amounts as specified by the legislature.) During the 2015-2017 and 2017-2019 fiscal biennia, the legislature may appropriate moneys from the account for activities related to the growth management act and the voluntary stewardship program. During the 2015-2017 fiscal biennium, the legislature may transfer from the public works assistance account to the state general fund such amounts as specified by the legislature. In the 2017-2019 fiscal biennium the legislature intends to allocate seventy-three million dollars of future loan repayments paid into the public works assistance account to support basic education. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of money in the public works assistance account to the education legacy trust account.

Sec. 959. RCW 43.320.110 and 2015 3rd sp.s. c 4 s 960 are each amended to read as follows:

The state treasurer shall be the custodian of the fund. Disbursements from the fund shall be on authorization of the director of financial institutions or the director's designee. In order to maintain an effective expenditure and revenue control, the fund shall be subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the fund.

During the 2015-2017 fiscal biennium, the legislature may transfer from the financial services regulation fund to the state general fund such amounts as reflect the excess fund balance of the fund. During the 2015-2017 fiscal biennium, moneys from the financial services regulation fund may be appropriated for the family prosperity account program at the department of commerce and for the operations of the department of revenue. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of money in the financial services regulation fund to the state general fund.

(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under (e)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under (e)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Storm water pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170,
if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;
(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid
waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 and the 2015-2017 fiscal biennia, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the storm water financial assistance program administered by the department of ecology.
Sec. 961. RCW 70.119A.120 and 1991 c 304 s 6 are each amended to read as follows:

Expenditures from the account may be used by the department of health to carry out the purposes of chapter 304, Laws of 1991 and to carry out contracts with local governments in accordance with this chapter. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of money in the safe drinking water account to the state general fund.

Sec. 962. RCW 71.24.580 and 2016 sp.s. c 29 s 511 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. During the 2015-2017 fiscal biennium, the legislature may transfer from the criminal justice treatment account to the state general fund amounts as reflect the state savings associated with the implementation of the medicaid expansion of the federal affordable care act and the excess fund balance of the account. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, but does not include the following services: Housing other than that provided as part of an inpatient substance use disorder treatment program, vocational training, and mental health counseling; and
(b) "Treatment support" means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the department from the criminal justice treatment account shall be distributed as specified in this subsection. The department may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the department from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The division of alcohol and substance abuse, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the department to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the department from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The department shall appoint a panel of representatives from the Washington association of prosecuting
attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, substance use disorder treatment providers, and the division. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560, treatment support services, and for the administrative and overhead costs associated with the operation of a drug court.

(a) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent on the administrative and overhead costs associated with the operation of a drug court.

(b) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

Sec. 964. RCW 79.64.040 and 2015 3rd sp.s. c 4 s 972 are each amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsection (5) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(5) During the 2013-2015 fiscal biennium, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board. During the 2015-2017 and 2017-2019 fiscal (biennium) biennia, the board may increase the twenty-five percent limitation up to thirty-two percent.

Sec. 965. RCW 79.64.110 and 2015 3rd sp.s. c 4 s 973 are each amended to read as follows:

(1) Any moneys derived from the lease of state forestlands or from the sale of valuable materials, oils, gases, coal, minerals, or
fossils from those lands, or the appraised value of these resources when transferred to a public agency under RCW 79.22.060, except as provided in RCW 79.22.060(4), must be distributed as follows:

(a) For state forestlands acquired through RCW 79.22.040 or by exchange for lands acquired through RCW 79.22.040:

(i) The expense incurred by the state for administration, reforestation, and protection, not to exceed twenty-five percent, which rate of percentage shall be determined by the board, must be returned to the forest development account created in RCW 79.64.100. During the 2015-2017 and 2017-2019 fiscal ((biennium)) biennia, the board may increase the twenty-five percent limitation up to twenty-seven percent.

(ii) Any balance remaining must be paid to the county in which the land is located or, for counties participating in a land pool created under RCW 79.22.140, to each participating county proportionate to its contribution of asset value to the land pool as determined by the board. Payments made under this subsection are to be paid, distributed, and prorated, except as otherwise provided in this section, to the various funds in the same manner as general taxes are paid and distributed during the year of payment.

(iii) Any balance remaining, paid to a county with a population of less than sixteen thousand, must first be applied to the reduction of any indebtedness existing in the current expense fund of the county during the year of payment.
