**State of Washington**                      **65th Legislature**                      **2017 Regular Session**

**By** Senators Frockt, Palumbo, Nelson, Keiser, and Saldaña

Read first time 02/01/17. Referred to Committee on Higher Education.

1            AN ACT Relating to establishing the Washington promise program,  
2 which provides for affordable access to community and technical  
3 colleges; amending RCW 43.88C.010; adding a new chapter to Title 28B  
4 RCW; providing an effective date; and declaring an emergency.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6            NEW SECTION.            **Sec. 1.**            The Washington promise program is  
7 established to help make the first two years of college affordable  
8 and accessible to all citizens of the state of Washington by offering  
9 a tuition waiver for eligible students enrolled in associate degree  
10 or certificate programs offered by Washington's community and  
11 technical colleges. The purpose of the program is to encourage more  
12 Washington residents who have not yet earned an associate's degree to  
13 enroll in and successfully complete an associate's degree or  
14 certificate that will lead to opportunities for further education and  
15 jobs. By making a higher education credential more affordable and  
16 accessible, Washington will make more progress towards the  
17 legislature's attainment goal of seventy percent of Washington adults  
18 having a postsecondary credential by 2023.

19            The legislature recognizes that increasing the number of  
20 residents with associate degrees will lead to increased attainment

1 for higher level degrees as students may transfer to comprehensive or  
2 research universities.

3 It is the intent of the legislature to implement the Washington  
4 promise program in phases, starting with a free thirteenth year. The  
5 legislature recognizes that free thirteenth year and promise programs  
6 are proven to significantly increase high school graduation rates by  
7 ensuring all high school graduates know they can attend a community  
8 or technical college regardless of their family incomes. Thus,  
9 investment in these programs is an evidence-based means to improve  
10 high school graduation rates and to reduce, or even eliminate,  
11 opportunity gaps in postsecondary education for students from  
12 underrepresented minority groups, for low-income students, for foster  
13 youth, and for students with disabilities.

14 NEW SECTION. **Sec. 2.** The definitions in this section apply

16 otherwise.

8 community or technical college in an eligible degree or certificate  
9 program.

10       (3) Students must complete the free application for federal

35 NEW SECTION. **Sec. 4.** The board shall develop a plan to provide  
36 all program students who are enrolled at a community or technical  
37 college with a quarter-long student success course, during or before  
38 their first enrollment period, that teaches essential skills for  
39 college success. Essential skills may include tips for study habits

2 connecting students with advisors, encouraging student mentoring,  
3 helping establish student cohorts, and providing information about  
4 services available on campus. The plan must address how the board  
5 will ensure that students receiving a Washington promise program

26 this chapter.

27 NEW SECTION. **Sec. 8.** If the legislature does not appropriate  
28 enough funding to support the statewide implementation of section  
29 3(5) of this act, the board shall provide grants to community or  
30 technical college districts to implement the free thirteenth year of  
31 the program. The community or technical college districts shall  
32 partner with local governments and private entities to secure  
33 matching funding for the free thirteenth year. The board shall adopt
